MEMORANDUM

Re: War Assets Building for Bella Bella
School Site,
Bella Coola Agency, British Columbia.

With reference to your notation of August 6th last on Mr. Hoey's memorandum to you dated August 2nd regarding the removal of Building No. 5 in connection with the above, we wrote to Mr. C.E. Webb of our Vancouver office asking him to review the matter with the Indian Commissioner and to arrange for a member of his staff to investigate conditions at the site and to submit a report to this office covering the project as soon as possible.

We have now received from Mr. Webb, a Report by Mr. A. Unsworth of his staff, dated September 1st which is self explanatory, together with a sketch plan of the building, and two copies of each are transmitted to you herewith.

You will note that Mr. Unsworth recommends taking the building completely apart as the only practical method of removal, and suggests salvaging and re-using the material in a building of standard plan.

We concur in his recommendation against moving the building as a whole or in sections to the Bella Bella Indian Day School Site, and it would appear questionable whether, if the building were demolished and the material salvaged, much of such material could be economically utilized in a standard building.

Copies of Mr. Unsworth's report have been forwarded to the Indian Commissioner for his information.

The further information referred to by Mr. Unsworth has not been received in this office. We are writing to Mr. Webb and will advise you as soon as we hear further from him on the subject.

Bella Bella, B.C.
September 4, 1947.

Memorandum to Mr. Webb:-

Re: School Building for Bella Bella
Supplement to Memorandum, September 1, 1947.

As mentioned in previous memorandum the amount of care exercised in dismantelling a building will determine the amount of good material available. The enclosed sheets are an estimate on material available, the estimated cost of dismantelling and delivery to school site, and estimated value of material at school site.

The estimated cost of salvage and delivery, (\$1120.00), does not cover the replacement of 320 feet of roadway from main road to school grounds in the Indian Village.

It will be necessary to hire and bring in a 2½-ton lumber truck, either from Vancouver or perhaps Bella Coola. It is also necessary to hire a scow and tow boat, probably from the British Columbia Packers at Namu. These items will be of considerable expense, but should be covered by the \$1120.00.

If white men are brought in some costs should be added for fares and subsistence.

The present school is supplied with electric lighting only from the R.W. Large Memorial Hospital, 115 Volt D.C. plant. The capacity of this plant will not permit further expansion from this source. It would appear that the hospital authorities have in mind the installing of a larger A.C. unit but have insufficient funds to do so. The hospital supply is the best for school use as it is a 24-hour service. The village plant

ARCHIVES PUBLIQUES

CANADA

only runs in the evenings during the winter months. There is no justification in running the village plant through the day, but the continual cloudy weather makes it necessary to have the school rooms lighted during most of the school term. A small plant would be a means of supplying power, but would require some attention which may not be possible from the teaching staff. Therefore, it would appear that some agreement with the hospital authorities in respect to new equipment in that institution would result in the most satisfactory lighting supply for the school.

It would appear that the removal of a building from Air Base to the Indian village is not very profitable if any purchase price is involved. However, if one building is removed it may be considered reasonable to remove others to make up sufficient material for a school. Therefore mention is now made of Building 4 which is fundamentally a duplication of Building 5, with partition rooms added, and would yield about the same amount of material.

There is also Building 40, a prefabricated type, which would yield some 150 whole panels of 4'x9'6"- $\frac{1}{4}$ " fir 3-ply, plus much of the same material about 2'x9'6". These panels have been layed with few nails on walls of rooms. The siding of building 40 is of tongue and groove material 1-5/8" thick, $4\frac{1}{2}$ " face, of cedar equivalent to No. 1 common fir (there are some tight knots in it).

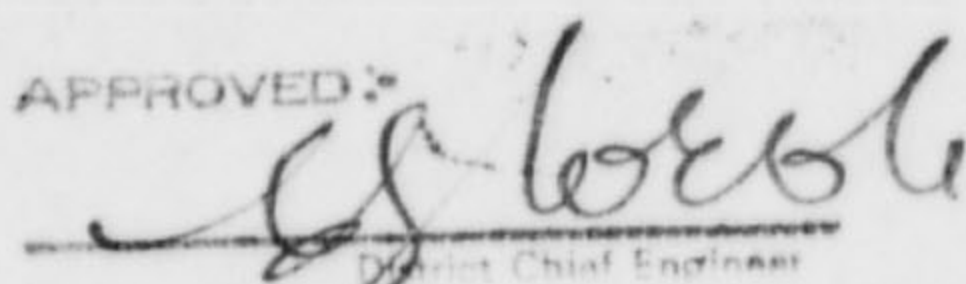

This material is toe-nailed very lightly from the inside to 2"x3" studding.

3.

The salvage from this siding would be high with comparably little labour. The roof and floor of this building are of no salvage value, except the floor joists of 2" x 8". Further data have been collected and can be submitted if of interest. The size of building is about 24' x 120', and has five water closets, 10 wash basins, and 2 oil furnaces with circulating fans, all in good condition.

A. Unsworth.

MEMORANDUM

Re: War Assets Building for
Bella Bella School Site,
Bella Coola Agency, B.C.

With reference to our memorandum of October 14th last, in connection with the above, we have since received from Mr. C.E. Webb, Dominion Water & Power Bureau, 744 Hastings Street West, Pacific Building, Vancouver, a supplementary memorandum with a detailed estimate of salvage costs of No. 5 building, prepared by Mr. A. Unsworth of his staff. The memorandum is self explanatory and duplicate copies are transmitted herewith for the information of the Indian Affairs Branch.

You will note from previous correspondence that the building referred to is located at the Denny Island, R.C.A.F. Sea Plane Base at Bella Bella and that we were advised that Indian Affairs had arranged to purchase and remove it across an inlet to the site of the present Indian Day School for use as additional class rooms and teacherages.

Mr. Unsworth estimates the present salvage value of the material in the building as it stands, at about \$1400.00 and the cost of dismantling the building and removing the materials to the new site by indian labour at \$1120.00

If, however, white men have to be employed to operate a lumber truck, scow and tow boat which it would be necessary to hire, additional costs would be involved that would probably make the cost of salvaging at least equal to the value of similar new material.

As previously stated, it is doubtful whether any large proportion of salvaged material could be utilized to advantage in the construction of a new standard building. Also the degree of care exercised in dismantling the building and the condition of the salvaged material are factors which would of course affect its value. The question of the procurability of new materials and the suitability of that salvaged, are matters upon which we cannot advise at this distance.

It would appear from Mr. Unsworth's list, that the material most likely to be worth while salvaging short of dismantling the whole building, are the window sash and doors, plumbing fixtures and some piping, heating equipment and electrical lighting fixtures and wiring. The estimated cost of removal and delivery of the above named materials, including the amount for contingencies are given at about \$191.00 and its value at the school site at \$475.00.

Copies of Mr. Unsworth's memorandum were forwarded to Indian Commissioner MacKay of Vancouver by Mr. Webb at an earlier date.

With reference to the pre-fabricated building No. 40 mentioned by Mr. Unsworth, Mr. Webb states that - "If of loxtave construction it might be knocked down and reconstructed as teachers residence or as a two room school. Actually in a 120 ft. loxtave building there are just enough windows to provide for two 42 ft. by 24 ft. class rooms and with wastage there would not be enough material to also build a two teacher residence. It would, however, be possible to build a combined one room school and two teacher residence. However, before making a recommendation in this connection I would require to discuss it further with Mr. Unsworth, who has seen the building in question".

Re: Bella Bella School Addition
Your File 162-3-5 W.T.1

With reference to Mr. Neary's letter of December 19th and reports by the Lands and Development Services Branch regarding the proposed removal of the building from the Bella Bella Air Base as an addition to the above mentioned school, the information provided indicates that the proposal would probably not be economical.

I have discussed this matter recently with the local office of the Lands and Development Services Branch who are presently moving buildings from the Port Hardy Military Camp to Campbell River and Cape Mudge by freighter, and feel that it would be advisable to leave the question of an addition to the Bella Bella school in abeyance until the cost of transferring buildings from Port Hardy by freighter is determined. A copy of my letter of December 11th to Mr. C.E. Webb in this connection is enclosed for your information.

I am enclosing a copy of Mr. Indian Agent
Pruden's letter of November 26th in connection with
building requirements at Bella Bella for day school use.

In your letter of October 23rd you advised
that the proposed use of one of the buildings from the

recommendation following discussion of the matter with
Mr. Unsworth but I now understand from my recent discussion
with Col. Whyte that it might be feasible and more economical
to transfer buildings from Port Hardy by freighter and that
you will be in a position to advise definitely regarding
this point at a later date when costs of transferring
buildings to Campbell River in this manner have been
determined.

I am also enclosing a letter dated November 15th
from Mr. Pruden regarding the transfer of another building
from the Bella Bella Air Base to Klemtu for school use. It
is understood that this proposal also will be given consider-
ation in the light of information secured regarding transfer

The application of the Rev. Dr. Sutherland for the usual grant (\$300) for a school proposed to be opened at Bella Coola, B.C., by the Methodist Church deserves consideration.

Approved

At present there is no school at this point, where there is a population of 209. As 72 are Protestants and the rest pagans, it would be very proper that a Protestant school should be started at Bella Coola.

Sir:-

I have the honor to forward herewith for the consideration of the Department a letter dated the 5th instant and its enclosure received from Mr. Agent Todd of the North West Coast Agency. It relates to an application made by the Reverend Dr. Spencer of Bella Coola for a grant for a teacher's salary for the Indian day school at the village of the Bella Coola band of Indians. In view of the statements made by the applicant and by the Agent I would recommend that provision be made by the Department for the payment of a teacher's salary at the village named.

Sir

I have the honour to forward herein for your approval a copy of an application by the Medical Missionary amongst the Bella Coola Indians of this Agency for the usual grant in aid of the recognized Indian Day schools, under the auspices of the Methodist Missionary Society of Canada.

There were at the late census a population of thirty one Indian of school age at Bella Coola.

I would recommend that the usual grant of \$300 per annum be made to the Bella Coola Indian Day School and thus enable the Missionary to procure an assistant teacher for the school during his absence.

Dear Sir

I beg to lay before you the fact that we have in our village between 25 and 30 children of school age

I have personally conducted a school for them, when at home, but being called away on professional duties and visiting other villages the school is much broken and progress not satisfactory.

We would prefer a boarding school with a capacity for 15 or 20 pupils where the children could be kept while parents are away. failing this I hereby make application for the regular school grant for Indian schools

Yours Truly

Mr. Inspector Green in his report on the Bella Coola day school, inspected on the 30th ult., states that the teacher wants the compulsory clause of the regulations enforced and that it would greatly help the attendance.

Mr. Green's report shows that the attendance for the two months previous to his visit averaged only 6.5, which is a very unsatisfactory showing.

You will be good enough to let the Department have an expression of your opinion as to the advisability of enforcing the regulations.

I have the honor to acknowledge receipt of your letter of 19th instant referring to the remark made by Mr. School Inspector Green in his recent report on the Bella Coola Indian Day School and replying I beg to state for your information that on the 2nd instant Mr. Agent Morrow was written to as follows:-

"In Mr. School Inspector Green's recent report on the Bella Coola Indian day school he states the teacher wants the compulsory clause of the Education Act put in force and that it would greatly help the attendance. I have to request you to kindly give this matter your attention and take such steps as may seem advisable to secure better attendance at this school."

I may state for your information that I see no reason why the compulsory clause of the regulations governing schools should not be enforced in this instance providing necessity demands it.

Dear Sir,

In answer to yours received by last mail I would say that I am quite satisfied with my position as teacher of Bella Coola Indian School. I cannot honestly say, however, that I like the work with the present accomodation. When I first accepted this school (three years come June) the Indian agent promised a new building. Then Mr. Lorenz - the late agent - visited us, and said he would lay the urgency of the need before the Government. Mr. Green - Inspector for British Columbia - also assured us that we would have a new school house as soon as possible. But there has been no official word of commencing work

on one as yet. Last year we built a very nice Church, but as we fully expected that school accomodation would be provided, we made no provision for the children. For many reasons it is impossible to hold sessions in the Church, so we are using a small room at the rear which was erected as a small class room. It is 12' x 14' and only about 7'6" high. The light is very poor as the windows are small and placed very high. The desks are placed against this wall and at times, in fact as a general thing, the children, especially those sitting at the rear of the room, cannot see the blackboard at all. I find it utterly impossible to give proper instruction as the little ones have to sit three and four in an ordinary school desk and I cannot reach the inside ones at all. There is no ventilation at all except

PUBLIC ARCHIVES

ARCHIVES PUBLIQUES

CANADA

by doors, there are no cupboards whatever and the black board space is very small. These, and many more inconveniences, make the work very hard and most discouraging. The children here are increasing in numbers and are a strong healthy lot. I would like to see a thoroughly equipped school in Bella Coola for I know it would be taken advantage of by many who do not at present attend and the value of the work would be increased one hundred fold.

As regards the salary, I may say that I think it is not in proportion with the work. The poorest paid public school teacher receives \$600⁰⁰ a year, and by experience fits herself for a higher position. An Indian school unfits one for an advanced position and not only that, but even with the greatest care, ^{higher} ~~any~~ education previously gained by the teacher, is

PUBLIC ARCHIVES

forgotten. One has to simplify everything to the last degree in order to be understood, as the children cannot understand any English when first entering school. The position looks easy, but I believe it is one of the most trying in the world; - the sameness of it all - the drilling to get one single idea into their heads and the very simplicity of everything, decreases the teacher's intellectual value. For this reason I think the salary should be increased. I had notice from our Indian Agent last August that I was to receive \$5-00⁰⁰ instead of \$400⁰⁰. But the Chairman of this District has had no word of such an increase, so it remains as before - \$400⁰⁰.

Yes - I am quite willing to accept the position for the coming year and will do my best with the children. I do hope that a new school will be provided, however.

Dear Sir

I enclose you a letter from
the Teacher at Bella Coola B.C. This
is written in answer to a number of questions
I have been asking all our teachers
in the Indian work.

The Department will see from
this the great need of a new school
building at this point. Which I trust
will receive immediate attention.

It will be also seen that unless
we give our teachers every encouragement
possible, it will be impossible to
retain them in our service.

Would you be kind enough to let
me know if any thing can be done at Bella
Coola for a building this year.

Yours sincerely
T. Ferrier.

Ottawa, April 25, 1910.

Rev. Sir,

I have to acknowledge the receipt of your letter of the 12th instant enclosing a communication from the teacher of the Bella Ooola school, in which, among other things, she asks for an increase in salary from \$400.00 to \$500.00.

In reply I beg to say that the records of the Department show that the average attendance at this school is very poor, as you will see from the following statement—

Enrolment	September quarter	35	Average attendance	5
"	December	31	"	7.6
"	March	32	"	7.5

It is recognized that the poor accommodation may be responsible to some extent for this ^{low} ~~poor~~ attendance, but, even under the present conditions, there is room for a great improvement. The Department, as you have already been advised, hopes to erect a new building this summer and, should the attendance then warrant it, a further increase in Miss Gibson's salary will be granted.

Dear Mr. Fouquier

There is always more or less sickness among the Indians here. and many of the women know very little about the cure of new born babies. and as a result there is much disease of eyes. and other sicknesses that might have been obviated had there been a nurse or deaconess that would visit the people in their homes, and teach them how to care for. and look after the sick, especially the children.

I understand the Dept. at some points have appointed or made a grant for such a person. (would be a nurse) whose duty is to visit the sick etc. Do you think it would be possible to have a grant made for a such a person at Bella Coola. I think maybe our Church might be able to get a nurse if you could get a grant for her. Trusting this matter will receive your favorable consideration.

I have the honor to enclose herewith a letter from the Methodist missionary at Bella Coola, asking for the appointment of a field-nurse. I can endorse the statements made in the letter. It would, no doubt, be a good thing for the Indians if the Department could see its way clear to make the necessary grant. The matter was discussed when the Inspector was here; and he will likely send in his report on the subject.

Your letter 164513-1 June 30th received, and in reply beg to say that this question of appointing a field nurse at Bella Coola was discussed with Mr. Fougner on my recent visit to that district, but owing to the absence of Mr. Gibson, the missionary in charge of the Methodist Church, nothing definite was decided on. Mr. Gibson only arrived on the steamer by which I was leaving there, and I had but a few minutes conversation with him on the subject. He, however, promised to discuss the question with Mr. Fougner and report to me at a later date. As the Methodist Church has charge of this field it was thought advisable that if a nurse should be appointed, it would be well to select one in sympathy with this Church. However, on receipt of Mr. Gibson's report I will communicate with you further.

Reverend Sir,-

I beg to inform you that on account of the very poor attendance it has been decided to close the Bella Coola Indian Day School at the end of the current quarter, namely, June 30th next.

The quarterly returns of attendance received during the past year show an average attendance of only four children. It is only a waste of money to continue this school under the present conditions of attendance. If, in future, the Indians promise to send their children regularly and there is a sufficient number of children to warrant it, the question of re-opening this school will then receive consideration.

Mr. Agent Fougner is being instructed to advise the teacher that her services will not be required after June 30th next.

Sir,-

Referring to your report of inspection of the Bella Coola Indian Day School for the month of April last, forwarded under cover of your letter of the 9th instant, I beg to say that it is noted that the attendance at this school is so low as not to warrant the school being kept open after the end of the present quarter.

The quarterly returns received during the past year show that there was an average attendance of about four children. As you state that the older children of this band are attending boarding schools, it is considered that the day school should be closed from June 30th, next. You will, therefore, be good enough to inform the teacher that her services will not be required after the 30th of June next. Before leaving she should forward her quarterly return of attendance for the current quarter and also see that all school material is put under lock.

If, at a future date, there are sufficient children that would attend regularly the question of re-opening this school will then be considered. To continue the school with the present attendance is only a waste of money. Rev. T. Ferrier, Superintendent of Methodist Indian Schools, is being informed accordingly.

Referring to your letter of May 24 received last week, after an absence from the office of six weeks, I have the honor to state that the teacher has been notified of the closing of the day school at Bella Coola owing to poor attendance. She had previously received notice, presumably through Mr. Ferrier, Superintendent of Indian Schools, Methodist Church.

Personally I have often urged the parents to send the children to school more regularly, and they have promised to do so; but added that the children do not learn anything at school. As in other coast villages the parents take the children with them when they go away handlogging, or to the canneries. Last winter the influenza was followed at Bella Coola by the whooping cough; this of course reduced the attendance to a minimum.

Viewing the declaration made by the parents at Bella Coola in the letter to Mr. Ferrier, copy of which is enclosed herewith, I most respectfully ask that the natives be given another chance of proving their interest in the education of their children, and that this school be re-opened on October 1st. this year. It would also be important that Mr. Ferrier recommends a teacher in whom the natives have confidence, if there is to be a change of teacher.

Sir;

We, the undersigned men of the Bella Coola Band, have heard with much trouble that the Indian day School at Bella Coola is to be closed on account of poor attendance. This is the first time this has been brought to our attention. We therefore called a meeting of our people & talked the matter over. We now make our request that this school be not closed & we promise to see that the attendance is kept up to what it should be.

We wish to draw your attention to the fact that we have 25 children attending various Boarding Schools; remaining in the village are 30 children under 6 years of age & 28 of school age. We do not want these to be without education, therefore we urge you to use your influence in having the school kept open.

We wish also to draw attention to our request, made so often, for a boarding school to be built here at an early date. It could be filled by our own children & those living near.

Reverend Sir,-

Mr. Agent Fougner, Bella Coola, informs the Department that Miss Phyllis Gibson, teacher of the Indian day school at that point, has sent in her resignation. He nominates Miss Margaret Fougner to succeed her and states that during the past year she has attended the Columbian College, New Westminster, and has been requested by the authorities of the Methodist Church to take up the work in this school. She has had no experience as a teacher, but has had two years at High School work.

Mr. Agent Fougner is being informed that, as this school is conducted under the auspices of your church, that all nominations are made by the church authorities. I shall be pleased to hear as to whether you will approve of the appointment of Miss Fougner.

I may add that the Department would prefer a qualified teacher for this school, where there is an opportunity of carrying on successful work as there is a good attendance.

Sir.-

I have to acknowledge the receipt of your letter of the 15th instant, in which you inform the Department that Miss Phyllis Gibson, teacher of the Bella Coola Indian Day School, has sent in her resignation and nominating Miss Margaret Fougner to succeed her.

In reply I beg to say that this school is conducted under the auspices of the Methodist Church, who nominate the teacher. This matter is being referred to Rev. T. Ferrier, Superintendent of Methodist Indian Schools, Brandon. It might be well for you to communicate with him regarding the appointment of Miss Fougner. It is noted that she has no professional qualifications.

Dear Sir,-

Replying to yours of June 28th, No. 164513-1:

Our missionary Mr. Gibson is being moved from Bella Coola to Koksilah B. C. His daughter Phyllis Gibson is prepared to take charge of the school at Koksilah. I would like the sanction of the Department to this appointment. Miss Margaret Fougner has been recommended to me as an excellent young woman. She has made good progress in college work and while she has had no normal training I think would do good work at Bella Coola. She is the daughter of your Agent and if there is no objection to her appointment I would be pleased to have the Department endorse her as teacher. As the Department is aware it is very difficult to secure properly qualified teachers for the Indian schools for the salaries we are able to offer. Before taking further action I shall await your reply.

Yours sincerely,

Special Report in accordance with Departmental
Letter 4-210 dated January 14, 1931, and attached to my Report
on the Bella Coola Indian Day School

In accordance with the instructions issued to me by the
Department of Indian Affairs, I am forwarding this special
report for your information:-

I beg to state that I do not consider the services of
Mrs. Isabella Snodgrass, at present teacher of the Indian Day
School at Bella Coola, to be satisfactory. I have therefore
to request that she be removed from her position as teacher of
this school. My reasons for making this special report and
recommendation are that, as you will see from my report on the
Bella Coola Indian Day School, the teaching is not satisfactory,
the progress of the children most unsatisfactory, and the health
of the teacher a very doubtful quantity.

Below will be found a copy of a letter from the teacher
in which she requests me to cancel her application for a transfer,
and in which she admits that even to herself the progress of the
children is unsatisfactory.

Copy:-

Bella Coola, B.C.
May 18, 1932.

Dear Captain Barry,

By this letter I wish to cancel my application
for a change of school. A suitable change would be pretty hard
to find for me. I have been worried over what you think of the
school. The progress is not at all satisfactory to myself. But
I worked hard & faithfully & did a lot which is not seen.

At first I felt like resigning but I'm young
yet, only 48, and surely with the facilities now available I
can do as well as any other teacher, I'll do my best.

Yours faithfully,
Isabel Snodgrass.

I do not consider that Mrs Snodgrass will make a success of
teaching in an Indian Day School. When inspecting at Bella
Coola I advised her to try to get an appointment in an Indian
Residential School if she could hear of an opening. She might
be able to supervise the laundry or kitchens. She is certainly
not fit enough in my opinion to teach school at Bella Coola, and
to visit around the Indian homes to look after the interests of
the children. She admits to heart disease and lameness.

If it is not considered that the above are sufficient grounds
for a change of teacher, I shall be very glad indeed; but from
a professional point of view I have no other course open but
to recommend the Department to remove Mrs Snodgrass from her
present position. Last year she resigned as Field Matron as
she did not feel she could carry on as both Teacher & Field Matron.

Sir:

I have your letter of the 8th instant, informing the Department that Mrs. Isabel Snodgrass, teacher and field matron at Bella Coola, desires to give up her duties as field matron, provided she suffers no loss in salary. The reasons stated for Mrs. Snodgrass' desire to relinquish the position of field matron have been noted.

The Department will approve of her discontinuing field matron's duties, and will allow her an increase in her salary as teacher of the Bella Coola Indian Day School from May 1st, next. Our funds are extremely limited for the present fiscal year, and the amount of the increase we could allow her for teaching services would be at the rate of \$10 per teaching month. This will make her total salary as teacher from the above date at the rate of \$1050 per year. I shall be pleased if you will take up this matter with Mrs. Snodgrass and ascertain if she will discontinue field matron's duties, in view of the increase allowed her for teaching duties, and advise the Department accordingly.

This school has good buildings with ample play-grounds, and a teacher's residence. The teacher, Mrs. Snodgrass is an able woman, and takes interest in her work. She has a small baby to look after; but with the assistance of a grown up sister, she ought to be able to manage. The attendance has been good; primary work only.

Mr. Scott:

Relative to the advisability of offering Mrs. Isabel Snodgrass, the Teacher of the Bella Coola Indian Day School, a second position as Field Matron at a salary of \$200 a year, I wish to recommend that the Department ascertain from Mr. Agent Foughner whether or not this lady has any family.

As a teacher, she has given several years' excellent service to this Department, but her ability to hold the dual position of teacher and field matron depends, I believe, entirely on the amount of time that she could devote to field duties.

I have carefully examined the files, and there is nothing to show if she is a widow - grass or otherwise - and if she has any children.

Dear Sir:

Your File No. 162-7-1.

I am in receipt of your letter of June 24th, informing us that the Inspector of Schools for British Columbia, Mr. G. H. Barry, is dissatisfied with the services of Mrs. Snodgrass at Bella Coola. From the observations that I made when I visited Bella Coola myself a year ago, I am inclined to agree with this statement of the situation. I wish, however, that we had known three months ago that the Department was considering a change in the teacher. A letter from Mr. Barry to-day does not mention specifically this school as one for which he is planning to recommend a new teacher.

Rev. Arthur Barner, our Superintendent of Indian Missions, is at the present time in Western Canada and I would like to hear from him before writing definitely to Mrs. Snodgrass, stating that her services are no longer required. I was not in this department at the time of her engagement and I know nothing of the circumstances under which she came to us. As soon as I hear from Mr. Barner, I will communicate with you again.

I visited the Indian Day School on the Bella Coola Indian Reserve. The teacher in charge seems to be rather a hot tempered person and imagines our school Inspector has it in for her. There were 23 in attendance when I visited the school, though this attendance will not probably keep up, as directly hunting or fishing starts they will be taken away by their parents. I spoke earnestly to the Indians about this, and they promised to do their best. The school was clean and tidy, and the children had good discipline. This teacher, however, would appear to have a somewhat peremptory way with her, but perhaps as she has been at this school a long while, she requires a change, in fact she spoke to me as though she would like it.

E X T R A C T from Inspector Barry's Report regarding his visit to the BELLA COOLA INDIAN DAY SCHOOL on May 12th, 1933.

Original on File 162-7-6.

Mrs. Snodgrass was a pupil teacher in Ireland and later had training in the Church of Ireland Training College, Dublin. She held a Second Class Certificate in Ireland; but this is not valid in B. C. Attended Indian & Rural Course at Provincial Summer School, Victoria, 1932, and obtained the usual certificate.

Health is stated to have improved. Mrs. Snodgrass states she has a leaking valve in her heart. She certainly looks as if her health was not very satisfactory. She is not well enough to make a success of this school. She suffers from veins in her leg.

The standing of the school has improved since my last report. Had this not been so, and in view of Departmental letter 168-28-1 dated July 19, 1932, I should have recommended a change of teacher for the present school year. This was not done as the teacher had improved things to a certain degree; but I consider the time has arrived to appoint a properly certificated B. C. teacher at Bella Coola. I would recommend that the question of a change of teacher here be taken up with the Indian Agent and the United Church, so that a new teacher may be placed here in September, 1934.

The Indians are very much dissatisfied with Mrs. Snodgrass and the attendance is not what it should be. I understand that the Indian Agent and the Church are of much the same opinion as that expressed in this report.

I would ask however that Mrs. Snodgrass be permitted to finish the school year 1933-34 at Bella Coola, and that she be given at least three months notice should it be decided to retire her at the end of June, 1934, when she will be about 50 years of age. This teacher has had about 20 years teaching in this Province.

Dear Sir:

I have the honor to transmit herewith letter dated August 24th, ultimo, received from Capt. G.H. Barry, District Inspector of Indian Schools, B.C., covering his inspection report on the Bella Coola Indian Day School, dated May 12th, 1933.

In regard to the matter of dispensing with the services of Mrs. Snodgrass after the end of June 1934, this matter must be left to the Department to be dealt with from a technical point of view and also on the basis of its policy with respect to the matter of qualifications required for Indian Day School teachers in British Columbia. I have taken note of the fact that there are several schools in British Columbia where the teachers have no qualifying certificates such as would be required for the conduct of a Provincial school under which circumstances it would appear that the Department is not committed to a policy which requires that the teachers of the Indian Day Schools shall be qualified under British Columbia Normal Certificates as an essential indication of their efficiency.

I beg to acknowledge receipt of your 15/30890 of the first instant, enclosing the report of Inspector Barry on his visit to the Bella Coola Indian Day School on May 12th, last. The Department has carefully noted the Inspector's remarks regarding the teacher, Mrs. Snodgrass. She may continue in charge of this school for the academic year 1933-34. The question of replacing her for the school year 1934-35 will be discussed with the officers of the United Church Missionary Society.

BELLA COOLA, B.C. DATED JULY 6th, 1933.

With the desire of the Department to raise the standard of teaching and leadership in Indian Day Schools, we are in entire agreement. The fact is that we could fill all of our Indian Schools with University graduates, who have taken special training along modern educational lines in recent years, if they were suddenly to become vacant. You have had a long term as teacher, and apart from the short course which you received at the Summer Normal School last year, have not been in touch recently with the technique of modern pedagogy, as it is now taught in our professional schools. I think, therefore, that it will not be regarded as unfair by anyone if we ask you to accept this as an intimation that at the end of June 1934 we intend to appoint a younger and more modernly trained teacher to our day school at Bella Coola. It will give you twelve months in which to arrange your plans and look for some type of congenial employment elsewhere.

In the meantime, we hope that you may continue to enjoy the best of health and be happy in your associations with the Indian children and their parents.

Thank you for your letter of September 8th, enclosing an extract from Inspector Barry's report regarding his visit to the Bella Coola Indian Day School. Anticipating that his Report would be somewhat of this nature, I wrote Mrs. Snodgrass on July 6th and am enclosing an extract from the letter. I feel that there is nothing more that needs to be done about the matter at the present time. My letter would reach Bella Coola during the vacation and Mrs. Snodgrass has probably not had opportunity to reply to it yet.

Again thanking you for your courtesy in giving me this information,

Special Recommendation made in accordance with standing instructions on this subject.

I have the honour to refer the Department of Indian Affairs to my reports on this Bella Coola Indian Day School made after inspections on May 13 1932, May 12, 1933 and to the special recommendation dated June 13, 1932, as well as to my present report on the school made after my inspection of May 11, 1934.

I beg to state that I do not consider that Mrs. Isabella Snodgrass should be retained as teacher of the Bella Coola Indian Day School after the end of the present School Term ending June 30th 1934.

My reasons for making such a recommendation have been stated several times. The children are not making the progress which I should like to see in this well equipped school, though it is fair to the present teacher to state that the progress lately has been much greater than in former years. The health of this teacher is a very doubtful quantity. She admits having a leaking valve in her heart. She has had inflamed veins in her leg. I have every reason to consider that her health is such that any energetic teaching is out of the question while this teacher is in charge of this school.

Mrs. Snodgrass appears to have been warned by the authorities of the United Church of Canada that her services would not be required after the end of the present term at the end of June.

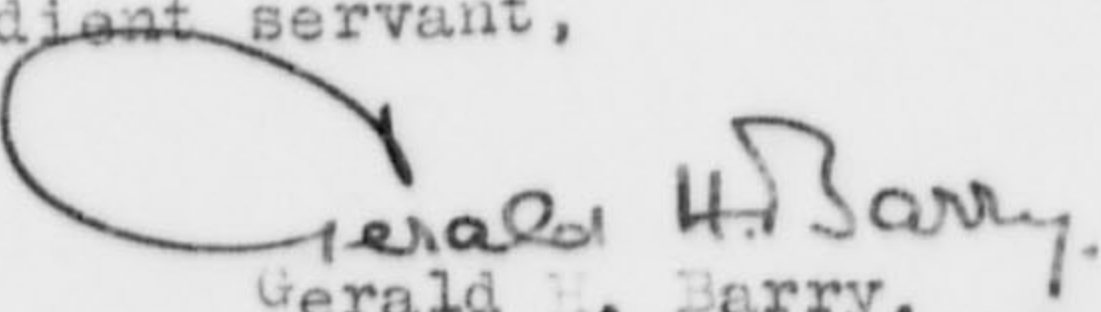

She wishes to stay on for another year for financial reasons, and will so request the Department through the Indian Agent at Bella Coola. I do not wish to be hard on this teacher; but I have a duty to the children, and I have every reason to believe that Mrs. Snodgrass will not be left without any money should her services be terminated this June. She has mentioned all about her financial resources to me during my inspection, and I have advised her to write to the Department should she so desire. I have however recommended her to take a rest from teaching in an Indian School mainly because her health may not hold out another year, and also because she has a small child of about 8 years of age growing up among the Indians where the exposure to T.B. infection must always be considered.

I would recommend that in place of making a new appointment to fill the vacancy caused by the retirement of Mrs. Snodgrass the position of teacher here be filled by the transfer of Miss Lois Kinley from Division 2 of the Skidegate Indian Day School. Miss Lois Kinley informs me that the United Church is considering recommending a Missionary as teacher at Skidegate. Of this I know nothing. I do consider that Miss Lois Kinley would be able to work a very great change in the school at Bella Coola, and that she would be able to take an active interest in the United Church work among the young Indian girls in this village. Miss Kinley is at present staying with Mr. Indian Agent Todd at Alert Bay; but will be attending the Provincial Summer School in Victoria in July.

I would ask that should the Department agree with me, this recommendation be brought to the attention of the authorities of the United Church of Canada, it being most important to place Miss Lois Kinley a very experienced teacher.

In any case I am unable to recommend the further retention of the services of the present teacher at Bella Coola, Mrs. I. Snodgrass.

Your obedient servant,

Gerald H. Barry.

While I recognize that Mrs. I. Snodgrass has made every effort to improve the standing of the school during the past two or three years, I have no hesitation in making the various recommendations contained in my report.

We require a very fine type of experienced teacher here, one who can take an active part in the out of school activities of the Indian girls. I know that Mrs. Snodgrass is physically unable to take such an active leadership as we require here. I have therefore recommended the transfer of one of our best qualified teachers to the position which will be left vacant should Mrs. Snodgrass be retired at the end of June.

Re: School matters.

Sir:

I beg to report that Mrs. Isabel Snodgrass has been teaching the Indian day school at Bella Coola for the past 12 years. She is a married woman with one minor child in her care; her husband lives in Vancouver.

As a teacher she has shown considerable energy; her manners in the school room are somewhat brusque, and at times snappish. Indians have complained of her manners at times, but not this last year as far as I can recall. Her health has not been of the best. I would say that the attainments of the children in school are like those of the average day school in the agency.

For some time it has been felt that there would be a change of teacher at Bella Coola; and when Rev. Arthur Barner was here about Easter time I understood from him that the United Church wanted a change and that Mrs. Snodgrass had been so informed. What Captain Barry, Inspector of Indian schools, desires in the matter the Department will likely know from his reports.

Today Mrs. Snodgrass came to me asking me to write to the Department recommending that she be allowed to keep on for another year. The first part of last May she had herself made a similar request to the Authorities of the United Church; to this she has not yet had a reply. If neither the Church authorities nor the Inspector has decided on a change by this time then I can say that she may be allowed to continue.

Obediently yours,

J. Fougner, Indian Agent.

This will give you another year in which to make the plans of which you spoke in your letter to Dr. Barner and must be construed as generous on the part of the Board of Home Missions, in view of the type of reports which the Inspector has been turning in about your work.

Mrs. Snodgrass looks to be in better health this year. It will be remembered that this teacher has heart disease, leaking valve, etc. Her health as previously reported has made her work here unsatisfactory.

Better school work has been done this last year. The teacher is being replaced by the United Church at the end of the present school year.

A well qualified and much younger teacher is required here. It is hoped that the Department will not sanction the appointment of any but well qualified teachers at Bella Coola. This is not one of those places where a MISSIONARY TEACHER would be a success as there are a very large number of children. These children certainly require the whole time of whatever teacher is appointed, and such teacher would not have time to carry on the actual Church work in addition to the teaching of the school.

She was formerly Miss Clarke and has been a day school teacher under the direction of the Department of Indian Affairs and the Church for over twenty years. In similar cases, the Department has been good enough to provide two months' salary in the form of an honorarium, since these teachers are not civil servants and are therefore not entitled to pensions.

Dear Mr. Sutherland:

Re: Indian Day School, Bella
Coola, B. C.

As you know, the Day School at Bella Coola is vacant, due to the retirement of Mrs. Isabel Snodgrass. I have great pleasure in nominating for the position Miss Ruth E. Young. Miss Young was born in the village of Port Simpson, B.C., where her father was a merchant and has been in contact with Indians all her life. She taught for three years in the Primary Room of the Coqualeetza Indian Residential School and, according to Dr. Raley, she was the most successful Primary Teacher that he had during his period as Principal. She was one year in the Day School at Skidegate. Four years ago she found it necessary to resign and secure a position near Vancouver, in order to assist a younger sister who was in University. The sister having graduated, she is now free to return to her "first love", namely, the teaching of Indian children.

I am quite sure that Miss Young will fulfil in every respect Captain Barry's request that we should get a younger and more energetic teacher for Bella Coola. In fact, both the Department and the Church are to be congratulated on receiving her application.

Hoping this will meet with your approval,

I am

Yours sincerely,

MEMORANDUM:

The Honourable the Superintendent General,-

Mrs. Isabel Snodgrass, teacher of the Bella
Coola Indian Day School (Bella Coola Reserve, No. 1 -
Electoral District of Skeena), B. C., has retired as from
June 30th, last.

This school is conducted under the auspices
of the United Church of Canada, and the church authorities
have nominated the services of Miss Ruth E. Young. Miss
Young has been in contact with Indians all her life. She
taught for three years in the primary room of the Coqualeetza
Indian Residential School, and, according to the principal of
that school, she was the most successful primary teacher he
had during his period as principal. She also taught one year
in the day school at Skidegate, Queen Charlotte Islands.

Mrs. Snodgrass, when teacher at this school,
was allowed salary at the rate of \$105 per teaching month,
but she had given continuous service in Indian schools for a
period of 22 years. I would suggest that salary at the rate
of \$90 per teaching month, which is the average salary rating
for British Columbia, be allowed Miss Young, and I beg to
submit, for your approval, her appointment with salary at the
rate mentioned - her duties to commence when the school
re-opens after the present summer holidays, September third,
next.

Reverend Sir:

I have your letter of the 26th ultimo, nominating the services of Miss Ruth E. Young for the position as teacher of the Bella Coola Indian Day School, to succeed Mrs. Isabel Snodgrass, who retired.

The Department will approve the appointment of Miss Young, with salary at the rate of \$90 per teaching month. Miss Young should begin duties when the school re-opens after the present holidays, on September third, next.

Mr. I. Fougner, Indian Agent, and Mr. C. C. Perry, Assistant Indian Commissioner, are being informed of the approval granted for the appointment of Miss Young. It is hoped that she will meet with every success in the work at Bella Coola.

Dear Sir: Re: BELLA COOLA INDIAN DAY SCHOOL

I have to thank you for your communication of August 3rd approving the appointment of Miss Ruth E. Young as teacher of the Bella Coola Indian Day School, to succeed Mrs. Isabella Snodgrass.

I would like to know why a teacher of Miss Young's experience with the Department and elsewhere and general qualifications for work in an Indian School should be expected to teach for \$900 a year when Mrs. Snodgrass who is being retired at the request of the Inspector was being paid at the rate of \$1050. I understood that these salary scales attached to positions and had already communicated with Miss Young in asking her to accept this position concerning the salary standing which was being paid at this particular school. I presume that this is merely a mistake and that it can easily be rectified. After having gone through a long list of applicants to find one who possessed the qualifications requested by the Inspector, I feel that we should treat her at least as generously as her predecessor.

Yours very sincerely,

I have your letter of the 6th instant, regarding the salary rating allowed Miss Ruth E. Young, who has been appointed teacher of the Bella Coola Indian Day School, to succeed Mrs. Isabella Snodgrass.

In this connection I have to say that Mrs. Snodgrass had many years' teaching experience and had reached the salary rating of \$105 per month. It was considered, as Miss Young is starting in as a new teacher, the the salary rating allowed her, viz.: \$90.00 per teaching month, equalled the average salary paid in the province of British Columbia.

In Mr. Beaton's absence I wish to acknowledge your letter of the 12th instant, #162-7-1 dealing with the rate of salary for Miss Ruth E. Young.

I know that Mr. Beaton will be disappointed in the response you make to his request as he had given Miss Young to understand that in all probability the salary would be more than \$90 a month. Miss Young taught for a number of years in the schools of B.C. and was looked upon as one of our most experienced teachers. However, I will correspond with her and see if she is willing to accept the \$90 per teaching month salary.

Dear Mr. Sutherland:

Re: Salary of Teacher, Bella Coola
Indian Day School

Following our conversation the other day and my reference to your communication of August 12th, in regard to the serious decrease in the salary allowed to Miss Ruth E. Young, the teacher of the Bella Coola Indian Day School, I would like to put something on file in regard to the matter.

When Mrs. Snodgrass retired, it was the wish of the Inspector and of our Superintendent in British Columbia that we should appoint a married teacher at that point. The school is large and very difficult to control, due to the fact that there is a white village in such close proximity. The teacherage, however, was in poor shape and devoid of furniture, as Mrs. Snodgrass had supplied her own furnishings. Miss Young understood in going there that the question of appointing a married teacher was under consideration. I presume that in setting her salary the Department files were not consulted and that she was regarded as a new appointee, although she had previously served the Department for years.

I am not objecting so much to the rate of \$900.00 which has been set for Miss Young for this current year as to the fact that the salary rating having been lowered, it will be difficult, if not impossible, to get it raised again when the teacherage has been repaired and furnished and a suitable married man is available. Miss Young is not using the teacherage but is living in the white village. It might be advisable to get a report from the Indian Agent as to what it would cost to put the teacherage in shape.

With very kind regards,

I am

Yours sincerely,

INSPECTION REPORT, BELLA COOLA INDIAN AGENCY (NO.6.)
(Cont'd)

SCHOOL:

I visited the Indian Day School on the Bella Coola Reserve. I was most agreeably surprised at the tremendous improvement since my last visit, in every way.

Miss Young, the new teacher, deserves every congratulation. There were 35 children present at the time of my visit out of a roll of 38. This is a big improvement in attendance. The children were clean, happy and attentive, instead of scared to death as they were before.

The discipline, however, had not suffered, in fact was really better. Grades 1a and 2 read very well for their ages. Grade 4 was good at reading. Their arithmetic was quite fair and their writing good. The singing of the whole school was good as was their physical training. The scholastic side also was therefore vastly improved. The school room was nice and clean and tidy. Altogether the school is a credit to the teacher and a pleasure to the Indian parents.

Miss Young informs me that her orders for school supplies was delivered very short of request or necessity, particularly in writing paper.

Yours truly,

Geo. S. Pragnell

EX'D. X

I visited and inspected the day school at Bella Coola. Both Indian Agent Gillett and myself were perfectly satisfied with the ability of the teacher and the response given to my questioning by the children. There were 28 in class on the date of my visit, the 4th of June, out of a total roll of 46. All grades up to Grade 4 were very good. Those in the higher grades read well. They sing well and were all clean and tidy as was the school itself. If I recollect correctly this is a big increase in attendance to what it used to be.

One thing has struck me in connection with the day schools in this agency and that is the large increase in attendance, really beyond the accommodation we have and the number of teachers.

However, this agency is not alone in this as I have found the same large increase in nearly all the day schools I have visited this year. Day school accommodation is now one of the most pressing and urgent necessities before the Department.

Sir:

I beg to report that Mr. Indian Agent Gillett of Bella Coola Agency has furnished me with copy of his report addressed to the Department on November 23rd, instant, in regard to the recent flood which he believes makes it necessary and advisable to change the location of the Indian settlement, day school, etc.

In view of Mr. Gillett's report above referred to I would recommend that arrangements be made immediately with the Bureau's Director to have Mr. Warren make a complete and comprehensive report bearing upon all the suggestions which Mr. Agent Gillett has offered for Departmental consideration.

The school would have to be established wherever the new village will be as the present site across the river would not be accessible without a bridge save by boats which would be hazardous. I feel that it will scarcely be necessary to emphasize the serious predicament in which this band of Indians finds itself at present and that most sympathetic and serious consideration should mark the progress of the investigation, which is now recommended.

E X T R A C T S from Inspector Barry's Report regarding his inspection of the BELLA COOLA INDIAN DAY SCHOOL on June 2nd, 1937.

Name of teacher: Miss Ruth E. Young.

This teacher is old-fashioned in her teaching of Reading. As mentioned in my last report on this school, she attempts to teach the beginners by a Phonic Method accompanied by pictures which she leaves on the blackboard. She thinks that this is the modern Look and Say Method, which it is not. As mentioned last year, this foolish method of teaching Indian children has led to a very slow "Word for Word" type of Reading now spreading up the school as far as Grade 3.

Though Miss Young is so certain that she is right and that I am wrong, she is not carrying out any modern type of education here that I could discover. Miss Young has purchased the new B. C. Programme of Studies and states that she is following it in part AS THE INDIAN AFFAIRS BRANCH HAS INSTRUCTED HER TO DO ON THE BACK OF HER REGISTER. She intends to ignore my own instruction that this course must only be used as an aid to teachers owing to the fact that in great part it is quite unsuited to our Indian children and their needs.

Much time was given during the previous inspection to outlining limits for the various Grades and Sub Grades and in the teaching of short Demonstration or Type Lessons. This time as well as additional time during the present visit to the school appears to have been wasted. For various reasons touched on later, Miss Ruth Young tells me she has no intention of following my instructions or suggestions, except where she wishes to do so. She states that she has had greater experience of Indians than I have had, having been born and brought up amongst them.

I may say that I was much disturbed by the very strong and hostile statements made by this teacher, as last year she appeared to be very anxious to learn.

The reason for her refusal to follow my suggestions, and I may say that those made last year HAVE NOT BEEN FOLLOWED in any great part, is as follows:-

The last Indian Agent, here, Mr. Fougner, while waiting to hand over the Agency to the present Agent, Mr. Gillett, received a copy of my report on the inspection of April 24th, 1936. This report was sent to him from the Assistant Indian Commissioner in Victoria in the usual way. For some undetermined reason, Mr. Fougner permitted Miss Young to have access to and in fact to read my report on the school.

There

PUBLIC ARCHIVES

ARCHIVES PUBLIQUES

CANADA

There were other factors in the case also and I am of the opinion that Miss Young was very badly advised by others. Mr. Indian Agent Gillett is aware of some of these factors and will no doubt report in confidence to the Indian Affairs Branch if necessary.

The result of all this was that Miss Young became unwilling to follow my advice in her work. She tells me she does not use Two Little Indians as a Pre Primer because she does not like the pictures of the Indians. She says it humiliates the Indian pupils and upsets her to see these pictures. I may say that even if the pictures are not very like the Coast Indians it is the first time in any part of the Province that I have heard that the pictures upset the Indians or teachers.

She tells me that she will not use the Alberta Writing Manuals sent by the Branch to the schools. She is quite hostile to the Indian Affairs Branch and its administration of the Indians as far as I could understand.

There are no teaching posters such as I asked should be made on display. There is little if any of the children's work on display. I regret to say that my efforts to help this teacher have not succeeded.

X X

General:-

The school is clean and well ventilated.

The teacher was very impertinent in general. While entitled to consider me useless as an Inspector and teacher if she wishes to do this, I do not consider that she is within her rights in speaking to an official of any Government Department in the way she did.

I was so much upset that I asked the Indian Agent to come back into the schoolroom and listen to the definite statements of Miss Young so that there should be no error on my part in recording them.

Miss Young asked if there was no way she could have an independent inspection of the school made, and I replied that as far as I knew there was not, as I was at the moment the only Indian School Inspector in B. C.

The teacher stated that she would make an effort to have someone see my report, probably the Member of Parliament for her own constituency, as the Provincial School Inspectors who had seen her work gave her good reports. I may say that so far I have not investigated this matter.

The teacher was most insubordinate.

I have done my very best for her, but I am afraid that fact that she considered my last report on this school adverse, though it was not intended to be such in general, has made it impossible for me to do anything more for Miss Ruth Young.

Dear Sir,-

I am transmitting herewith the resignation of Miss Ruth Young, teacher of the Bella Coola Indian Day School, together with a letter giving her reasons for the resignation.

I sent two copies of these to Indian Commissioner Major MacKay, thinking he would forward one copy to the Department at Ottawa, but he writes that an unsigned copy is not suitable for this, hence I am now sending the originals, and have advised Major MacKay accordingly.

I wish to state that I consider Miss Young a capable and suitable teacher and that I visited her school and examined the pupils, at least once a month, and noted progress each time. The progress was particularly notable among those children who began school last September. They knew no English whatever when Miss Young took them, but at my last examination they were able to answer ordinary questions about their surroundings, etc. To my mind, whatever the method used, she has obtained good results. I am not saying this to cast any reflection on Captain Barry's inspection, but I am just stating facts as I have found them.

Both this year and last his inspection of the school was perfunctory.

This year he stayed about an hour. Many subjects were in no wise examined. He antagonized the children by his manner and his utter lack of sympathy and understanding.

He spent much time complaining because we had followed the Provincial Curriculum in accordance with instructions from the Registrar. In any case where I had not used his systems it was because they were utterly impracticable in this school where the children speak little English and are rather nomadic. Captain Barrie has had little experience teaching Indian children and his systems are not always practical.

I feel his criticisms of teaching methods, school management etc. are utterly unjustified.

I have taught in white and Indian schools and have excellent credentials.

 school satisfactory. You have
 examined the children every
 month and have been satisfied.
 Other qualified persons who have
 visited the school have commended
 it.

Surely the observations of such
 unprejudiced persons should attest
 to the fact that Captain Barrie's
 report is doing a grave
 injustice to the teacher
 and the school.

Reverend Sir,-

The Department is in receipt of Inspector Barry's report regarding his inspection of the Bella Coola Indian Day School on the 2nd instant. I enclose extracts from Mr. Barry's report.

The Department cannot understand Miss Young's attitude towards Inspector Barry. When teaching in Indian day schools, teachers are expected to carry out our Inspector's instructions regarding teaching methods. Apparently, Miss Young is not prepared to do so and, under these circumstances, I trust that you will nominate a fully qualified teacher to replace Miss Young at the Bella Coola School when it reopens on September 1st, next.

Dear Major MacKay:-

The file of correspondence forwarded with your 15/2/2576 of the 17th instant is returned herewith.

Mr. T.R.Kelly is the only Indian we have on the teaching staff of the Indian Schools in this Province at the present time.

He was moved from Kitselas Indian Day School, Skeena River Agency, to Bella Coola, in September 1937. This transfer was made as he much desired a wider field of action than he could possibly have at Kitselas. His total experience has been a little over one and one half years.

When he called at my office in Vancouver at Christmas time he gave me no warning whatever of a desire to resign.

While I am much displeased, as I know that Dr. Osterhout will also be, at this young man's curt letter of resignation following the hours of work given to aiding him in his professional work, I would recommend that such resignation be accepted by the Department as from Friday afternoon, April 15th and that he be paid up to and including that day only.

I could not recommend the Department to accept a substitute provided by Mr. Kelly, whether such a substitute hold a B.C.Certificate or not. I particularly do not wish to have a local Bella Coola girl placed in charge of the school, where we had so much trouble during my inspection last year.

I would recommend that The Rev. S.S.Osterhout, D.D. 411 Dominion Bank Building, Vancouver, B.C. be supplied with a copy of this file of correspondence, and that he be asked to nominate through you and his own church authorities in Toronto a United Church certificated teacher to take charge of the Bella Coola Indian Day School till June 30th 1938.

I happen to know that Dr. Osterhout has on his list of candidates a well qualified and experienced male teacher, a member of the United Church with Provincial School experience, who would be just the person for Bella Coola in this emergency. I spoke to Dr. Osterhout about this candidate when last in Vancouver.

Following the receipt by telephone or otherwise of the name and qualifications of a qualified teacher nominated by Dr. Osterhout, I would recommend that such teacher be appointed as temporary teacher of the Bella Coola Indian Day School as from April 25th till the end of the school term on June 30th, that is following the Easter vacation. I do not believe that Mr. Kelly is entitled to pay for the period of the Easter Holidays as he does not intend to teach for the remainder of the school year.

Yours very truly,

GHB.

Dear Sir:-

I am forwarding herewith a letter of resignation received from Mr. T. R. Kelly, Indian, the present teacher of the Bella Coola Indian Day School, together with a copy of Mr. Indian Agent Gillett's covering letter, my letter to Inspector Barry and his reply to same.

On receipt of this correspondence, I requested Rev. S. S. Osterhout, D.D. to nominate, on behalf of the United Church authorities, a suitable trained teacher to fill the unexpected vacancy at Bella Coola until the end of the present school year.

I am now in receipt of the following night letter from Dr. Osterhout, who is at present in Toronto:-

"FOLLOWING RESIGNATION OF MR. T. R. KELLY FROM BELLA COOLA DAY SCHOOL AND CONFERENCE WITH OUR TORONTO I BEG TO NOMINATE MR. CECIL E. MCLAUGHLIN ELEVEN THIRTY EIGHT BURNABY STREET VANCOUVER FOR THE BALANCE OF THE SCHOOL YEAR. APRIL SALARY PAYMENTS TO TEACHERS TO BE ADJUSTED BY YOUR DEPARTMENT."

Mr. Cecil E. McLaughlin was trained at the Victoria Normal School 1932-33, and holds a Permanent First-Class Certificate in British Columbia. He is 32 years of age, a member of the United Church, and has had about 4 years experience in Provincial rural schools. In addition to the ordinary qualifications, this man knows something of manual training, tinsmithing, and machine shop practice. He is unmarried, and strongly recommended by Provincial Inspector of Schools V. Z. Manning.

I consider that the resignation of Mr. T. R. Kelly should be accepted as from April 15th, 1938, and would recommend that Mr. C. E. McLaughlin be appointed as temporary teacher of

the Bella Coola Indian Day School as from April 16th, although his actual school work would naturally commence on April 25th following the authorized Easter vacation. This would appear to be the simplest method of adjusting the salaries of the teachers for the month of April, as each would receive a salary for exactly one-half of the month.

Would you please inform me by nightletter if the resignation of Mr. Kelly and the appointment of Mr. McLaughlin is approved by the Department.

REPRESENTATIVE OF THE TREASURY

Re: Bella Coola Indian Day School No. 803

Mr. T. R. Kelly, teacher of the above-mentioned school, has tendered his resignation effective April 15, 1938. He should therefore be paid one half month's salary or \$50.00. This cheque should be sent to T. R. Kelly, Suite 15, 2930 Cambie Street, Vancouver, B. C.

To succeed him the Department is approving the appointment of Mr. Cecil E. McLaughlin. He will begin duties on April 25 at the same salary as Mr. Kelly, namely \$100.00 a teaching month and he should receive a salary of \$20.00 ($6/30 \times \100). His cheque should be sent to Cecil E. McLaughlin, Bella Coola Indian Day School, Bella Coola, B. C.

I enclose copy of letter of appointment. Staff questionnaire will be supplied as soon as it is forwarded by Mr. McLaughlin.

WITH REFERENCE TO YOUR LETTER THIRTY FIRST ULTIMO DEPARTMENT ACCEPTS RESIGNATION OF MR T R KELLY AS TEACHER OF BELLA COOLA INDIAN DAY SCHOOL AND APPROVES APPOINTMENT MR CECIL E MCLAUGHLIN TO SUCCEED HIM STOP MR KELLY WILL BE ALLOWED SALARY TO APRIL FIFTEENTH BUT REGULATIONS WILL ONLY PERMIT OUR PAYING MR MCLAUGHLIN FROM APRIL TWENTY FIFTH

As stated in our radiogram it will not be possible to allow Mr. McLaughlin a full half month's salary. Regulations will only permit our paying him from April 25, the date on which Indian Day Schools re-open after the Easter holidays.

Mr. McLaughlin will be allowed the same salary as Mr. Kelly, namely \$100.00 a teaching month. His appointment is temporary until the end of June. If his services are satisfactory during the next two months the Department will be prepared to re-appoint him for the academic year 1938-39.

Dear Mr. Hoey:

Re: Bella Coola Day School

While Dr. Osterhout was in attendance at our Board meeting, he received a communication from Mr. Reginald Kelly, the teacher at Bella Coola, intimating that he had placed his resignation in the hands of a representative of your Department, to take effect on April 25th. My understanding is that it has been accepted as from April 15th.

In any case, we beg to nominate Mr. Cecil McLachlan as his successor. I believe that this is satisfactory to your representatives in British Columbia. Mr. McLachlan is, however, nominated only to June 30th, to complete the term of service of Mr. Kelly.

We regret that Mr. Kelly has seen fit to sever his connection at this particular time of the year and that he seems to have consulted chiefly his own private interests.

Yours sincerely,

My dear Mr. Phelan:

Re: Bella Coola Indian Day
School

On July 30th we received your communication, approving of the appointment of Mr. Cecil McLachlan as permanent teacher of the Bella Coola Indian Day School. This morning, however, we are in receipt of a letter from Dr. S. S. Osterhout, our Superintendent of Missions in British Columbia, informing us that Mr. McLachlan has been offered and accepted an appointment as teacher in the Coqualeetza Residential School, leaving a vacancy in the school at Bella Coola. For this position, I now beg to nominate Miss Florence Elford, a record of whose previous work I understand is on file in your Department.

Miss Elford taught in the Indian Day School at Caughnawaga, Quebec, and has just recently served as Assistant Matron in the Port Simpson Girls' School. I believe that she is in every way qualified to fill the position of teacher of the Bella Coola Day School.

Please let me know at your earliest convenience whether or not this nomination meets with the approval of the Department; and, if the appointment is confirmed, please state salary which will be allowed.

Believe me,

Very sincerely yours,

The Day Schools at Bella Bella, Klemtu and Bella Coola opened on the first of October and an increased attendance due in some measure to the closing of Coqualeetza has resulted in overcrowding. At Kitimat there were 64 on the roll in the beginning of October with a possible attendance of 75 which is far too many pupils for one teacher. This situation may be alleviated when certain families go down to Butedale. At Bella Coola there were 55 pupils on the roll and 46 in attendance at the time of my visit on October 24. A second room with an additional teacher is required at this point. The Bella Bella School was visited and appeared to be away to a very good start this year but one of the basement rooms will have to be utilised as a classroom in the near future employing a third teacher.

Dear Sir:

Approval has been granted for the following changes in teaching services:-

1. Bella Coola Day School:

Miss Ruby F. Lau appointed teacher October 1, 1941. She taught last year at the Port Essington Indian Day School.

2. Port Essington Day School:

Mr. Roy B. Vannatter appointed teacher, effective October 1, 1941. He taught last year at the Klemtu Indian Day School.

3. Cape Mudge Day School:

Mrs. C. L. Goodridge appointed teacher effective October 1, 1941. Mrs. Goodridge is a widow, age 46, with 21 years' teaching experience, 17 of them exclusively in primary work. She holds a Second Class Saskatchewan Certificate and has attended a summer school session in Victoria.

It will not be necessary to have new staff questionnaires for the first two mentioned teachers, but staff questionnaire should be forwarded for Mrs. C. L. Goodridge. I enclose form for the purpose.

Mr. Wm. Christie,
Indian Agent,
Bella Coola, B.C.

Dear Mr Christie;

Some time ago I wrote to Captain Barry asking for permission to teach the Bella Coola Indian Day School on the half day system, and was told to write you all the details.

The average attendance for October was 33.1, November 35.3, December 45.7 and for January 5 & 6, 51, with an enrollment of 59. Attendance can not be enforced as the school is already overcrowded, and there is no room for more seats. At present two girls are using my desk, four are using an old table and others are sitting at makeshift desks.

There are 29 pupils in Grade 1, and 6 in Grade 2, that need individual attention, which can not be given with all the grades in attendance. Consequently all are losing interest in school work. The half day system, starting at 9 o'clock instead of 9.30 for the older pupils, would enable me to accomplish much more than can be done at present.

Another matter which I would like to bring to your attention is the matter of lighting in the school. The school is finished with dark varnish, so it is very dark most of the time. Due to the high Mountains to the East and South of us the sun can only shine for about an hour during the winter, and we have no artificial light. It is impossible for those sitting at the front to see their work. I would suggest that the walls and ceiling be painted white.

Yours truly,

Ruby F. Lau

Bella Coola, B. C.,
January 12, 1942.

Dear Sir:

With reference to your letter of December 22, regarding Miss R. Lau's application to operate the Bella Coola Indian Day School on a half-day basis, this matter has been discussed before with Miss Lau, who was asked to make a full report so that I could lay the matter before the Department.

There is no doubt that this school is badly crowded at certain seasons of the year, but on account of the poor attendance during the last quarter--1941 and 1940, I have hesitated in recommending an additional room and teacher. The quarterly average attendance for the past years is as follows:-

	<u>1939-40</u>	<u>1940-41</u>	<u>1941-42</u>
September	6.6	-	-
December	16.6	46.32	36.6
March	33.8	37.6	
June	16.3	13.3	

December and January are usually the months showing largest attendance no doubt due to the fact that all the Indians are home during these months.

There are 51 children on this Reserve now under school age and about 8 children on the average will be available for school yearly for the next six years. Those discontinuing school will possibly average about four yearly for the next four years.

The question of a second room and an additional teacher has also been considered and the Indians have been approached with a view to obtaining their consent to sell the old school house back to the Department. It has not been possible to get a vote

on this yet but I have spoken to some of the Band members who purchased this building for Band practice. They will be prepared I think to move the old building and do the necessary work to make the two buildings into one unit of two rooms for \$500.00.

However, the Department will no doubt seriously consider the advisability of employing two teachers at this point for longer than six months, that is from October to March since the attendance has always dropped very sharply during the remaining quarter the average for the last two years being 16.3 for 1940 and 13.3 for 1941. There is no question, however, that an increased attendance can be expected with the right kind of teachers and more time by them for individual instruction.

It is of course too late this season to consider the employment of another teacher should same be available, but I would suggest that since the present Missionary apparently expects to retire this year, that the United Church should be asked to find a young missionary capable of teaching the older grades from October to March, 1942-43.

In conclusion I would strongly recommend that the Department approve of Miss Lau's suggestion to operate the Bella Coola Indian Day School on a half-day system until the end of March or such time as the average attendance drops to thirty. I am quite sure that more will be accomplished by the children and I have always noted that much more can be got from the junior grades when they are separated from the older pupils.

With the half-day system the teacher will be able to intensify the instruction with a smaller class without the distractions attendant upon trying to teach an overcrowded room of 50 or more pupils in seven different grades.

Miss Lau is in my opinion a conscientious teacher and it will be noted she is prepared to open school half an hour earlier should the Department decide in authorizing the half-day system.

W. Christie

Dear Sir:

I enclose herewith copy of a letter dated the 12th instant, with enclosure as stated, received from Mr. Indian Agent Christie requesting authority to conduct the Bella Coola Indian Day School on a half day basis during the period that the school attendance remains abnormally high. I have discussed the matter with Mr. Inspector Barry and he concurs that I recommend approval of the application and that Mr. Christie be authorized to have the school maintained on a half day basis at his discretion during the period that the attendance justifies such a course, thereafter the school to return to a normal full day period. It is understood that the older children will take the morning session from 9 a.m. to 12 noon, and the primary classes the afternoon session.

The question of enlarging the school accommodation mentioned by Mr. Christie by addition of the old school building to the existing school is one that will necessarily have to await further information on the likelihood of sufficient increase in attendance to warrant such action and the willingness of the Bella Coola Indian musical band to transfer back to the Department the old school building which was purchased by them. A report in this connection will be made at a later date.

INDEMNITÉ DE VIE CHÈRE (AOÛT) 1941
DÉCLARATION À REMPLIR PAR LES CHEFS DE FAMILLE

Cette déclaration doit être remplie, en trois exemplaires, par les titulaires d'un emploi continu, susceptibles d'être considérés comme chefs de famille, et dont la rétribution est inférieure à \$108 par mois, et par toutes les femmes mariées au service de l'Administration et recevant un salaire annuel inférieur à \$2,100. Elle doit être remise au ministère, qui en garde un exemplaire et envoie les deux autres au délégué en chef du Trésor.

"Chef de famille" signifie une personne mariée, homme ou femme, une personne (homme ou femme) célibataire ou divorcée, ou veuve, qui entretient un établissement domestique d'un seul tenant, et qui y fait vivre réellement une personne entièrement à sa charge, lui étant unie par les liens du sang, du mariage ou de l'adoption.

- (i) "Etablissement domestique d'un seul tenant" signifie un logis, un appartement ou autre semblable lieu de résidence contenant au moins une chambre à coucher, et dans lequel, en règle générale, l'employé couche et où ses repas sont préparés et servis.
- (ii) Une personne unie à l'employé par les liens du mariage signifie son époux ou épouse, les père, mère, oncles, tantes, neveux, nièces, grands-parents et arrière-grands-parents du conjoint de l'employé, les beaux-fils, belles-filles, beaux-frères et belles-sœurs de l'employé.
- (iii) Une personne unie à l'employé par les liens du sang signifie ses parents, parents nourriciers, grands-parents, arrière-grands-parents, enfants, petits-enfants, arrière-petits-enfants, frères ou sœurs, oncles ou tantes, neveux ou nièces.
- (iv) L'expression "unie à l'employé par les liens de l'adoption" comprend l'adoption de fait aussi bien que l'adoption légale.

Schools; Day.

All schools in operation were visited and inspected. It is a shame that no teachers are available for Kitamaat and Bella Coola. Attendance at Bella Bella is fairly good, but I am afraid that after the new year, it will take a slump as many of these people are due to go to Namu Cannery for work. The school at Bella Coola is over crowded. Repairs have been done at Klemtu and the building at leasts looks clean inside. It will last until better days come and a proper unit can be put up, with teachers quarters attached. It is suggested that at Kitamaat a local Indian with Grade XI standing be appointed interim teacher, to get one room going at least. He seems a fine kind of young man, and he could not be any worse than some white interim or temporary appointments at present in action.

Schools;

Bella Coola Day School was not operated during the month of October. Rev. Thos. Moore, U. Church Missionary offered to teach half time, and his offer was accepted by Comm'r MacKay, In the meantime a man was engaged to paint the interior of this School, and a fine job has been done. School, on a half day basis will commence on November 1st, with Rev. T. Moore as interim teacher. There will be at least 45 pupils in attendance, and it may be necessary to restrict attendance to pupils above Grade 1.

With further reference to my letter of the 29th ultimo regarding the appointment of a temporary teacher at Bella Coola Indian Day School, I enclose herewith Mr. Indian Agent Anfield's letter of the 25th ultimo pointing out that he had made a mistake in the name and that the intention was to recommend the Reverend Thomas Moore for the work.

Since the above was written by Mr. Anfield, he has forwarded me another letter dated the 28th ultimo advising that a Miss N. L. Paul, the daughter of the Dominion Government Telegraph Service employee and a fully qualified teacher with a First Class B. C. Certificate, would be available on January 1st for three or four months at this school but did not wish to be "frozen" as a teacher. As she is a Protestant, I have submitted the matter to the Reverend W. P. Bunt for his nomination with the hope that she could be induced to finish out the term. As teachers are not available, particularly for schools without teacher's quarters, there does not seem to be much we can do about the matter for the time being except make the best possible arrangements. It is noted that the Department has approved of the temporary appointment of Reverend Thomas Moore on the basis recommended in my letter of the 29th ultimo.

Major D.M. MacKay, Indian Commissioner, Vancouver, B.C.

Re teacher, Indian Day School, Bella Coola.

Answering your 215-2-7377 of the 16th instant, there was a mistake in the wire as received by your office. The wire was despatched as follows :-

" Retel fifteenth airforce plan twenty two hundred volt power line same poles as telephone have arranged for tracings etcetara and will have compensation plan ready for Coleman (stop) United Church missionary offers teach day school afternoons only until teadher appointed recommend acceptance as village swarming with children"

The Missionary's name is Rev. Thomas Moore, but his offer has not yet been accepted as on the day following my wire to you, it was possible to obtain the services of a local man to paint the inside of this School, and it was considered essential that this work be put in hand at once. It will completed tomorrow, the 26th instant, and the school will be opened as soon as the paint is thoroughly dried.

It is recommended that Mr. Moore be paid proportionately for such time as he gives to teaching in the day school. He has not expressed any wish to be paid, but if he does the work reasonably well, it would seem good policy to pay him for his services. Please instruct me as to your wishes in this regard, and advise as to rate etc, and how this item shall be vouchered.

With reference to your letter of the 22nd instant- file 162-7-1 - regarding the appointment of a temporary part-time teacher at Bella Coola Indian Day School, for which Mr. Indian Agent Anfield recommended Mr. Coleman United Church Missionary, I would advise that his telegram was, apparently, an error in the name, the name being the Reverend Thomas Moore.

In respect to the payment of salary, I would suggest that as Mr. Moore would be teaching for half a day, and the salary for a full time teacher is \$100.00, that \$50.00 would meet the case. I discussed this with the office of the Superintendent of Missions, the Reverend Mr. Bunt, and he considers that this amount will be satisfactory.

As it would take two weeks, at least, to check the obvious error in the name given by Mr. Anfield, owing to the infrequency of mail to Bella Coola, I would recommend approval of the application by air mail, if possible, as Mr. Inspector Coleman is leaving for Bella Coola on the evening of the 2nd proximo.

Dear Mr. Hoey: Re - Bella Coola Indian Day School

Mr. Bunt writes, suggesting the appointment of Miss N. L. Paul as teacher of the above School. She is an experienced teacher, with a first-class British Columbia certificate, and is a Protestant. She wishes, however, her appointment to be considered as temporary and does not promise to stay longer than the end of June. This is the best we can do and we beg to nominate her on this basis. Mr. Bunt says that Commissioner MacKay and Mr. Anfield are recommending this.

Yours sincerely,

I received a letter today from the Board of Home Missions of the United Church of Canada nominating Miss N.L. Paul as teacher of the Bella Coola Indian Day School for the period January 1 to June 30, 1944. We are advised that she is an experienced teacher holding a first-class, British Columbia certificate. We are approving of her appointment and salary will be allowed her at the rate of \$100.00 a teaching month, plus bonus. This will mean that the services of Reverend Thomas Moore will not be required after the end of this month. Please have Miss Paul complete and return the usual forms as soon as possible.

Re Teacher, Bella Cools, Indian Day School.

The following wire was received from you on December 21st, a.m.

"Employment Miss Paul one hundred dollars and bonus January first as teacher Bella Cools authorised stop present temporary teacher's services could then be discontinued" (Signed) D.M. MacKay.

Miss Paul was wired as follows :-

"Your appointment as teacher Bella Cools Indian Day School authorised as from January first at one hundred dollars per month and bonus. wire decision." (Signed) Indian Agent Anfield.

She replied by wire ;

"Unable accept now" (Signed) N.J. Paul.

If the Church are unable to nominate anybody for this school, it is recommended that the school be closed for the balance of the year. Mr. Moore has done his best, but there is no control and the children are getting out of hand. In my opinion it would be better for the children to be out of school entirely than to continue with the present arrangement. Mr. Moore only offered out of the goodness of his heart, and on the understanding and hope that it would only be for a few weeks until a qualified teacher was appointed.

Unless advised to the contrary, I shall assume that the school will close, and will have all the water connections etc. shut off, and the building properly cleaned out and locked.

,Re Bella Coola Day School

Commissioner Mackay has telephoned that he has had a wire from Mr. Anfield, saying that for some reason or other Miss Paul cannot take the school at Bella Coola. What the reason is I do not know, but it will necessitate your advising Ottawa to cancel the appointment. (I can assure you that it is no joy to me to have to write you so often to withdraw or cancel nominations previously sent forward). Mr. Mackay is recommending the temporary closing of the school, inasmuch as Mr. Moore, who has been giving half time to an attempt at teaching is making no headway whatever with the pupils and the school as a whole is getting out of control. As we have no nomination to offer, there is no other course to take.

Yours most sincerely,

Schools;

Day schools at Bella Coola, Klemtu, Bella Bella (2 division and the empty schoolhouse at Kitamaat were all carefully inspected. Attendance is not satisfactory at all; Klemtu and Bella Coola have most unsuitable persons as teachers; and the closing of the latter school has been recommended. I am afraid that the School at Bella Bella will suffer a serious attendance lapse. War services take men and women in a wholesale manner from the villages winter as well as summer, and if the war goes on much longer, the entire social economy of these Indians will require ~~serious~~ serious review. In the old days there were at least six months in which the parents would be home; today in some villages, they are home for two weeks at Xmas or for a wedding or funeral; and children by the score are not attending school at all. It is very moot point in my opinion, as to whether home life in Indian villages will ever return to its former status, and I foresee the possibility of "ghost Villages" not long hence. Just where Councils will fit in to the picture of the future is a baffling problem, and future objectives along these lines will need careful study.

I have received an application from Miss Grace L.M. Farr of 2771 Burdick Avenue, Victoria, for a position as teacher at Bella Coola Indian Day School which has been vacant during the entire term owing to the serious shortage of teachers for such positions.

Miss Farr has had no previous teaching experience but took her Senior Matriculation in 1940 and her second year University in 1942, followed by two years under graduate nursing training at Victoria Jubilee Hospital. She holds a St. John's Ambulance Certificate and completed a business course including typewriting and shorthand. She is the daughter of Professor Farr who is well known in Victoria.

In view of the lack of professional experience, I referred Miss Farr to Mr. MacKenzie, the Provincial School Inspector in Vancouver, who interviewed her and gave a most enthusiastic report on her fitness for the position considering her lack of training. I also referred her to the Rev. W.P. Bunt of the United Church Home Missions in Vancouver and I understand that he is asking Dr. Dorey to nominate her for the position, expressing himself very well satisfied with her.

As the boat leaves for Bella Coola only once a week, it would be appreciated if you would kindly air mail your approval of this appointment subject to Dr. Dorey's nomination which I am satisfied will be forthcoming and I will then have Miss Farr take the boat sailing on May 2nd as it is felt that she could complete the term and enable both the Department and herself to judge her fitness for continuation of this work for the duration of the war. I understand that it is Miss Farr's intention to take summer school during the vacation. She will have experienced guidance in her work by Mr. Indian Agent Anfield.

on the Bella Coola Indian Day School.

This teacher continues to make a fair effort and with her summer school experience, she should do fairly well, though I am not at all sure that she will be able to handle this room when the full attendance turns up after fishing. It might be necessary to put the school on a division basis, with the little ones attending in the afternoons only.

This teacher is not giving as much time to preparation of her work as she should, due I think to a bad case of heart trouble with a local R.C.A.F. man. I have asked her to pay more attention to business.

Indian Affairs Branch,
Department of Mines and Resources,
O t t a w a, Ontario.

Dear Mr. Hoey:

Re - Bella Coola Day School

I beg to nominate for the vacancy Miss Laura Fleming. Miss Fleming holds a permanent teacher's certificate from the Province of Manitoba and is highly recommended by Dr. Cormie. She is forty years of age and has taught for a number of years.

Following our telephone conversation this morning, we shall be glad to get written confirmation of this appointment, together with the rate of salary paid.

GD.MLT

Yours sincerely,

[Signature: G. Dorey]

Dear Doctor Dorey:

[Handwritten initials: JRM]

I have your letter of the 15th instant, nominating Miss Laura Fleming as teacher of the Bella Coola Indian Day School. On reviewing our file I find that we have not received any resignation from Miss Grace L.M. Farr, who was nominated as teacher of this school in your letter of April 25, 1944. The last information we had from the Indian Agent regarding Miss Farr was to the effect that she had taken a summer course and under these circumstances we hoped that her services would be more satisfactory during the academic year 1944-45. It is possible, of course, that she has submitted her resignation to you. Please let me hear further from you regarding this school, in order that I can communicate with Indian Commissioner MacKay.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Schools;

classrooms at Bella Bella, 2 divisions; and Klemtu opened on September 5th with fair attendances. These schools were inspected during the month and reports rendered to the Dept. and Commissioner. An appointment at Bella Coola was made late in September, and the new teacher, Miss Laura Fleming reported on Sept. 28th, and started duty in October. No appointments were made to the school at Kitamaat, and as a large number of these people plan to spend the winter at Butedale, on the herring operations, it is doubtful if the school could support a teacher at Kitamaat. The suggestion has been made to the Commissioner that a winter school be established at Butedale if a suitable building and teacher can be secured.

SCHOOLS

Due to absence of the agent, no day schools were visited in November. An interview was had with Archbishop Duke of the Vancouver Archdiocese (R.C.) relative to securing a teacher for the Ulkatcho Seasonal school. Following interviews with Rev. W.P. Hunt (U.C.) a nomination was presented to the Department, and accepted for the appointment of Gordon Robinson, a Kitamaat Indian with Grade XII standing, as pro tem teacher at the Kitamaat Indian Day School. Following discussion with Major MacKay, Indian Commissioner, it was decided to try and secure accommodation at Bella Coola to open a second classroom at that point, where overcrowding has compelled the use of a platoon system of attendance.

Re: Bella Coola Indian Day
School, No. 803.

We have just been informed that Miss Grace L.M. Farr did not return to duties at the above-mentioned school on September 1. I understand she has been paid to June 30 and no further payment should be made to her.

To succeed her the Department has appointed Miss Laura Fleming at a salary of \$105 a teaching month, effective September 29, 1944. We have just been notified of her taking over duties at the school on the date mentioned and it would be appreciated if you would arrange to issue immediately a cheque for her services for the period September 29 to November 30 at the rate mentioned above. As soon as we receive the necessary forms they will be forwarded to you. I enclose copy of letter of appointment.

Miss Fleming's cheque should be sent by air mail.

Major D.M. MacKay, Indian Commissioner, P.O.

In September we received a letter from the Board of Home Missions of the United Church of Canada nominating Miss Laura Fleming as teacher of the Bella Coola Indian Day School. We advised Doctor Dorey, in a letter dated September 18, that we had not received any resignation from the former teacher, Miss Grace L.M. Farr.

Today I am definitely advised that Miss Farr did not return to duties at this school on September 1 and that Miss Fleming began duties on September 29. Consequently we are requesting the Treasury Branch to issue a cheque to Miss Fleming for her services for the period September 29 to November 30 and it is hoped that this cheque will reach her before Christmas.

It would be appreciated if you would have Miss Fleming prepare and forward the usual forms at the earliest possible date.

A copy of this letter is going forward to Indian Agent Anfield.

Schools;

During the month inspections were carried out at the Bella Coola, Bella Bella (two division) and Klemtu Day Schools. In all three schools, satisfactory teaching is being carried on, but the problem is still one of securing better attendance.

If the herring run materializes, the attendance at Bella Bella will drop sharply. In Bella Coola we are fortunate in securing an exceptionally good teacher in Miss Fleming and the response of the pupils is excellent. If a continuity of this type of teacher could be secured, better progress would be noticeable among the Indian children.

Re Bella Coola Indian Day School

Further to our conversation on the possibility of opening a second classroom for this very over-crowded school, a meeting was held with the Bella Coola Silver Band, owners of the old school building of this Reserve, and a resolution was secured granting the use of this building rent free to the Department as a second classroom.

You will recall that it was agreed that funds would be available for a teacher for this unit if one can be secured.

We shall require thirty desks.. Authority is requested to bring them from Kitimaat Indian Day School on a loan basis; also such further equipment as may be required in the way of texts, exercise books, pencils etc.

It will be necessary for the Department to provide two, twelve foot sheets of green hyloplate board for this room, and a sum of \$40.00 for paint, vello etc. for redecoration of the room. A teacher's desk will also be required.

Fuel can be taken care of from present funds on hand for Agency Schools fuel account. The building has a good stove which the Band will loan until a new one can be purchased later.

In conversation with Rev. W. P. Bunt, I presume that he may be able to nominate a teacher within a reasonable time. Arrangements can be made to board her at the Agency and to provide a room at the Mission House.

Your advice will be appreciated.

I enclose herewith Mr. Indian Agent Anfield's letter of the 14th instant, together with copy of a resolution of the Bella Coola Band requesting authority to open a second classroom for the Indian Day School at Bella Coola using the former Indian Day School which the Department sold to the Band. The Band are agreeing to the use of this building by the Department for school purposes rent free. I also enclose a survey of the children on this Reserve as at March 31, 1944, from which it will be noted that there are 74 children of school age and 56 children of pre-school age, a number that is hopelessly beyond the capacity of one teacher.

It will be noted that desks can be taken from Kitamaat Indian Day School together with other classroom equipment but that it will be necessary to provide two sheets of blackboarding, redecoration of the room at a cost of \$40.00 for material, and a teacher's desk. If authority can be given for the opening of this additional classroom, the United Church could be asked to nominate a teacher for the position.

In view of Inspector Thorsteinsson's reports of over crowding and the conditions as known to us, I would recommend approval of the application.

Further to yours of January 3rd, 1945, file 2-11-1, I have had the temporary room finished and the blackboards installed. The work cost more than anticipated, but a good job has been done and the set up will make a very nice classroom.

Re desks, there are only very old ones at Kitamaat and really they are not worth moving, especially as there is no steamer service from Kitamaat any more. We would have to hire a boat to bring them to Butedale; then they would have to be shipped to Vancouver and up to Bella Coola. They are the old fashioned type, large and cumbersome and would occupy a high capacity freight rate.

There are desks in the present Bella Coola Day School. Some of these could be moved to the temporary room.

Could you purchase twenty-one desks for pupils as follows:

Size 4	fronts - 3
" 4	backs - 3

It will be noted that Mr. Anfield does not consider the desks at Kitamaat worth moving for the reasons stated, in view of which, and particularly as it is unlikely that the average pupilage at Bella Coola will decrease, I would recommend that authority be granted for the purchase of the new desks required. The estimated expenditure for this purpose will be approximately \$200.00.

Education:

All day schools in operation in the Agency have been inspected by the Agent at least once during the quarter and in some case more often. There has been real improvement noticed in pupils standing in the day school this academic year. Preparations are now complete to open a second classroom at Bella Coola as soon as a teacher can be secured.

Mr. F. Earl Anfield, Indian Agent,
Bella Coola, B.C.

I am in receipt of a letter dated the 28th ultimo from Miss Laura Fleming, teacher of the Bella Coola Indian Day School, in which she requests that the amount deducted from her salary for the Retirement Fund be paid to her at the end of June. As you know, this amount is not refunded until the person leaves our employ. Is it Miss Fleming's intention to give up duties at the Bella Coola School at the end of the current month?

MP

Miss Fleming also requests that the amount due for janitor services reach her before June 30. If you forward a voucher for this amount, we will arrange to have cheque go forward at once.

Attached please find resignation of
Miss L. M. Fleming as teacher of the Bella Coola
Indian Day School, effective the end of June 1945.

In recommending the acceptance of this
resignation, it should be stated that Miss Fleming
has done an outstandingly fine piece of work at
this School and she will certainly be missed by
the Indian children and their parents.

It is presumed from conversations with
Miss Fleming that her reason for resigning is
the need of protecting her teacher's pension rights
in her home province and the difficulty in
Bella Coola of securing adequate living accommodation.

Education Day Schools in the Agency closed at the end of June, following an academic year of real progress. Schools at Bella Coola, Bella Bella and Kitamaat were inspected by the Provincial Inspector of Schools with very satisfactory reports in all cases. The school at Klemtu was inspected on several occasions by the Agent, who found teaching and other conditions satisfactory. In general there is a noticeably improved interest being shown in all day schools by pupils and parents and the standing of the children is good. Attendance at all schools has improved with the exception of Kitamaat, where the industrial requirements of the adult population resulted in a very unsatisfactory attendance record. At Bella Coola, a second room has been prepared. The teacher during the past year, Miss L. Fleming, has resigned. At Bella Bella, Mrs. D. Martin, senior room teacher resigned and a successor, Mrs. Scott, has been appointed for Sept. 1st at Kitamaat, Mr. Gordon Robinson, senior room teacher has resigned in order to attend Normal School this winter. Only one teacher will be required at this School this winter.

These letters please to 16/11/45

With reference to Mr. Allan's letter of October 1st approving the appointment of Miss Anne Wright as teacher of the Bella Coola Indian Day School, I enclose herewith Mr. Indian Agent Anfield's letters of September 7th and 28th wherein he advises that he has secured accommodation for the teachers at this school and has assumed responsibility for payment of the rent of \$10.00 per month. There is no doubt that lack of accommodation at this point has contributed largely to our difficulty in obtaining and keeping satisfactory teachers and Mr. Anfield's proposal to reduce the teachers' salaries by \$5.00 a month each and to provide accommodation this way has considerable merit. I would, therefore, recommend that Miss Wright and any subsequent appointee for the second classroom be paid at the rate of \$100 per teaching month plus bonus and that the Department pay the rent of the furnished house secured by Mr. Anfield.

I have your letter of the 10th instant, with reference to the Bella Coola Indian Day School. I note that Agent Anfield has secured a furnished cottage, which he considers suitable for a teacher's residence. We are prepared to pay rental for this building at the rate of \$10.00 a month, effective from September 1, 1945.

We have already promised to allow Miss Wright a salary of \$105.00 a month and consequently I feel that we should not make the suggested deduction of \$5.00 a month from her salary.

Evidently two teachers are required, and if a second teacher can be secured we will allow her \$100.00 a teaching month. Possibly you have already taken up this matter with Reverend Mr. Bunt.

Information on our file indicates that a second classroom is available. If there are a few extra articles of furniture that you think should be supplied, you may purchase same, but it is not our practice to purchase either quilts, blankets or linen for teachers' residences. We expect teachers to supply these, and they can be removed when the teacher gives up duties.

Education:

Day Schools have re-opened at Bella Bella, 2 divisions; Klentu, 1 division, and Kitamaat, 1 division. No teacher is yet in residence at Bella Coola, but advice has been received of the appointment of Miss Anne Wright to this post. There is a need of a second teacher at Bella Coola where some 70 children of school age are now at home. At this village, the Agent is negotiating for the rental of a nice little cottage as a teachers' residence.

Attendance at the Day Schools opened to date has been very good, reflecting in some measure the value of the Family Allowance payments. A few children from the Agency were admitted to the Residential School at Alert Bay, none to Alberni.

Education: During the past quarter the senior teacher at Bella Bella resigned and has been replaced. It has not been possible to secure a second teacher for Bella Coola. A new school has been established at Upper Dean River at Anahim Lake, but so far no appointment has been made. A second teacher was secured for the Kitamaat school. Attendance on the whole has improved but education in the broader sense of the word is the real weak link in the Indian programme. Right now in B.C. there is no inspector of Indian Schools, qualifications for teaching and calibre of appointments made is generally very low and most schools are seriously overcrowded. These conditions are not conducive of a good response by the pupils and a complete overhauling of the entire educational policy of the Department appears more and more urgent as time goes on. There is a great deal of criticism by the parents of the operation of the Residential Schools and some of this is undoubtedly based on real grievances, caused by unsuitable staffing of the schools in question.

Mr. J. Findlay,
Indian Agent,
Bella Coola, B. C.

Dear Mr. Findlay,

Would you kindly forward to the Department of Indian Affairs, Ottawa, this letter - and I would be grateful if you would give my request your favorable recommendation.

Altogether, my experience as a teacher covers thirty-three years, plus, - as follows, - in Ireland as a pupil teacher 3 years, in a teachers' college 2 years as principal of a school 2 years. in Indian schools in British Columbia 26 years - 9 being in Home schools and 17 in Day schools.

In addition I have always taught in Sunday school, given music lessons and helped in various ways. But this year I have taken on no extra work. My age is 63.

When I came here last September it was my intention to stay at least two years, but circumstances may not permit me to do so. The doctor has advised me that I have a heart condition which demands rest and care, which fact coupled with advancing years makes me think that perhaps I should not attempt another year, but retire at the end of this year, instead. I am sure it would be advisable in the interests both of the school and myself.

I am fully aware that there is no pension scheme, in effect, for teachers in Indian schools and knowing this fact I have always been very economical and saving, but it takes a lot of saved money, invested safely (Government Annuity) to give one a liveable return. I feel that after serving the Department as a teacher for over a quarter of a century I would deserve some consideration in the line of a pension. Therefore I would ask the Indian Department for, say, \$20.00 per month, which along with what I have would, I think, meet my needs and would help to make the last lap of the journey of life somewhat more comfortable.

Yours faithfully,

(Signed)

(Mrs.) Isabel Snodgrass

Bella Coola, B. C.
March 12th, 1947.

Major D. M. MacKay, Indian Commissioner for B. C., Vancouver, B. C.

Enclosed is copy in triplicate, of a letter received from Mrs. Isabel Snodgrass at present teacher in the Indian Day School, Bella Coola. Mrs. Snodgrass, during her teaching career, has spent some twenty-six years in Indian Schools.

In her letter she is making application to the Indian Affairs Branch, Dept. of Mines & Resources for a pension. She realizes that no provision is in effect at the present time for such a scheme but on the basis of long service in teaching in Indian schools, she requests special consideration of her application.

I requested Mrs. Snodgrass to furnish me with details as to her years of service in Indian schools, which information is herewith listed.

Coqualeetza Institute	1909-1912	3 years 3 months
Kitamaat Girls Home (W.M.S.)	1913-1918	5 years 3 months
Port Simpson Girls Home (W.M.S.)	1919-1920	1 year
Bella Coola Day School	1922-1935	13 years
Klemtu Day School	1943-1946	3 years
Bella Coola Day School	1946-1947	1 year
		26 years 6 months

I am thoroughly convinced that Mrs. Snodgrass has, on the basis of the above record, every right to expect the most careful and favorable consideration on the part of the Department to her request for a pension. Despite the fact that no pension scheme is in effect, the granting of Mrs. Snodgrass' request would not, in my opinion, necessarily be setting a precedent, since to my knowledge there are very few teachers with such a service record to warrant any consideration of such a request.

I most urgently recommend that favorable consideration be given to the application made by Mrs. Isabel Snodgrass.

Re: Application of Mrs. Isabel

In view of the fact that Mrs. Snodgrass was re-appointed to her present position on a temporary basis and understood this at the time of her appointment, I am not prepared to recommend that her request be granted.

However, it is regretted that no provision is made for a pension scheme for teachers in Indian Schools. The absence of such a scheme makes it very difficult to retain efficient teachers in our schools. It is hoped that in the near future some scheme will be developed which will provide for the retirement of our teachers.

Ottawa, Ont.

I am enclosing Mr. J. A. Findlay's letter of March 12th and a copy of a letter from Mrs. Isabel Snodgrass, teacher at the Bella Coola Indian Day School, making application for a pension in consideration of the teaching services she has rendered to Indians over a period in excess of twenty-six years. School Inspector Davey's memorandum of March 24th in this connection is also enclosed.

The matter of contribution by Indian Day School teachers to the Provincial Teachers' Pension Fund was the subject of correspondence between us in 1945, reference Mr. Hoey's letter of March 14th, 1945, at which time the question was in abeyance pending discussion with the Minister.

Superannuation of Teachers

Mrs. Isabel Snodgrass,
Bella Coola Indian Day School -

Reference your 2-11-2 of March 28, 1947.

At present we are completing the details on the Teachers' Salary Scale and grading classifications. We have also begun preliminary work on having our Indian day school teachers classified as permanent for the purposes of the Civil Service Superannuation Act. We anticipate writing to the teachers at some length concerning this within the next two months. If the required Treasury Board approval is received, it will be necessary for Mrs. Snodgrass to pay back a considerable sum of money if she is to be eligible for superannuation. However, you are doubtless aware of the provisions of the Civil Service Superannuation Act in this regard.

Dear Mr. Pruden,

Would you kindly forward to the Department this letter with your comments.

In my letter of March 22 I stated that on account of a heart condition which at the time was giving me trouble I felt that I should make arrangements to retire, end of June, and I asked that the Department consider granting me a small pension. As yet I have had no answer to that letter, therefore, I believe it will be in order for me to regard myself as teacher, here, for the 1947-48 term.

During the past several weeks I have had excellent health. In fact always have had and I believe that with judicious care and rest I could carry on the work of the Senior Division for another year. I have not missed a day from work during the past year and probably wouldn't during this next year. I like these people and I like the Senior work. Teaching does not involve

However the matter rests with the Department
and if they grant me a pension as requested,
I shall quit; otherwise, I shall return here

be very happy indeed to do so.

I would appreciate very much the favor of

Application for Permanent Position.

This application is being made by Mrs. Snodgrass in the hope that she may be able to qualify for a pension. It is to be noted that she is 64 years of age and has been re-appointed to her various positions over the last several years on a year to year basis, because of unfavorable reports on her work by the former Inspector, Captain Barry. It is also to be noted that Mrs. Snodgrass intends to retire at the end of the 1947-48 year.

In view of these facts I cannot recommend her for appointment as a permanent civil servant.

I am forwarding application by Mrs. Isabel Snodgrass, teacher of the Bella Coola Indian Day School for appointment as a permanent Civil Servant, together with memorandum dated July 18th from District School Inspector Davey in this connection.

Inasmuch as Mrs. Snodgrass is 64 years of age and intends to retire at the end of the 1947-48 academic year it is not thought that her appointment as a permanent Civil Servant would be of any advantage either to herself or this Department. The application is not recommended.

Ottawa, December 18, 1947.

Dear Mr. Matthews:

You will recall that during your recent visit to my office you inquired about superannuation for Mrs. I. Snodgrass, teacher at the Bella Coola Indian Day School.

Our records show that Mrs. Snodgrass was born on October 3rd, 1883. This means that she is now sixty-four years of age. It is, therefore, most unlikely that she will be accepted for superannuation. As I previously pointed out to you, it is most unfortunate that we were never able in the past to have these teachers accepted into the Civil Service Superannuation Plan.

Furthermore, Mrs. Snodgrass does not hold a Canadian Teaching Certificate. The regulations for classification as a Permanent Civil Servant for Indian School Teachers require that teachers be in possession of a Permanent Teachers' Certificate as granted by the Provincial Departments of Education. It is regretted that Mrs. Snodgrass has not attempted to convert her Irish Certificate to a Canadian one during her twenty-seven years of teaching in Canada.

Yours sincerely,

Director.

You will recall that at the last Session of Parliament, amendments were passed to the Civil Service Act whereby it was made increasingly difficult to employ anyone as a Civil Servant, either temporary or permanent after they had reached the age of sixty-five.

Our records indicate that it will be necessary to obtain an Order-in-Council before we can retain the services of the following teachers in your Province:

- (1) Miss H.D. Sawyer - Shulus Indian Day School
(Date of Birth - January 10, 1884).
- (2) Mrs. I. Snodgrass - Bella Coola Indian Day School
(Date of Birth - October 3, 1883).

It is felt that this matter should be brought to your attention now so that you can give an expression of opinion as to whether you feel that an attempt should be made to have such an Order-in-Council obtained covering the employment of these teachers.

There has been a considerable increase in the number of applications of teachers for positions in our Protestant Indian Day Schools and in view of this it is felt that there is no necessity for retaining the services of teachers in Protestant Schools in B.C. who have reached the age of 65.

It is recommended that these teachers be notified as soon as possible of the fact that their services cannot be retained.

Re: Bella Coola Indian Day School

Miss Ann Wright, former teacher at the above mentioned school received her cheque for the latter part of November which she cashed and paid Mrs. Blanche Bishop as substitute for her up to the end of November. This arrangement was made locally without our consent or knowledge. It would seem that the simplest way of correcting this is to make Mrs. Bishop's appointment effective December 1st and grant Miss Wright leave of absence from November 15th to 20th as Mrs. Bishop did not assume her duties until November 22nd.

Mrs. Bishop has also requested leave without pay from December 14th to January 4th. Prior to Miss Wright's illness Mrs. Bishop had made plans which she is unable to change and she had not expected to assume her duties until the beginning of January.

Bella Coola Indian Day School

Enclosed please find Application, Employee
Questionnaire and T.D. 1 forms completed by Mrs. Blanche
Elaine Bishop for the position of primary teacher at
the above mentioned school.

Miss Wright terminated her duties on November
15th and the Department will be informed as soon as
possible of the date on which Mrs. Bishop will commence
teaching at Bella Coola.

Mrs. Bishop's appointment to the Primary room
of the Bella Coola Indian Day School is recommended for
approval.

Col. Neary:-

Re: our 'phone conversation regarding this mix-up. As the adjustment of the overpayment had to be made with C.P.O. before 1st January in order to adjust income tax for 1948, we have requested a refund of overpayment of salary to Miss Wright from Retirement Fund A/c. Mrs. Bishop will therefore have to ~~settle~~ settle with Miss Wright the salary she has/paid by her.

The Indian Dep.
Ottawa

Gentlemen,

I am teacher at the above school.
My salary which I receive through the
United Church (Meth.) is \$50⁰⁰/₁₀₀, & in addition
I was receiving \$50⁰⁰/₁₀₀ bonus direct
from the Ind. Dep. I have received
no bonus since March 31. Would you
kindly let me know if bonus is
being discontinued? I understood
that it was to be added to salary,
but so far it has not been
done in my case. I would be
gratified for information on this
point.

Yours Faithfully

Ottawa, September 30, 1925.

Madam,-

In reply to your letter of the 19th instant, I beg to say that the payment of bonus to teachers on Indian day schools has been discontinued from March 31st, last.

The Department has decided to increase the salaries of teachers in Indian day schools by \$150.00 from April 1st, last. Your salary is now at the rate of \$90.00 for each teaching month and a cheque for \$270.00, being the amount for the June quarter, was sent to the treasurer of the Methodist Missionary Society.

I note from your letter that you have already received from him \$225.00 and I understand that he has recently forwarded to you a cheque for the balance, namely, \$45.00.

Your obedient servant,

Russell T. Ferrier

Ottawa, April 4, 1930.

Sir:

I have to inform you that the Department has approved of an increase of \$5 per teaching month in the salary of Mrs. Isabel Snodgrass, teacher of the Bella Coola Indian Day School, from the 1st instant. This will make Mrs. Snodgrass' salary from that date at the rate of \$95 per teaching month. The Church authorities are being requested to inform Mrs. Snodgrass accordingly.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy and Secretary.

Ottawa, April 23, 1931.

Sir:

I have your letter of the 8th instant, informing the Department that Mrs. Isabel Snodgrass, teacher and field matron at Bella Coola, desires to give up her duties as field matron, provided she suffers no loss in salary. The reasons stated for Mrs. Snodgrass' desire to relinquish the position of field matron have been noted.

The Department will approve of her discontinuing field matron's duties, and will allow her an increase in her salary as teacher of the Bella Coola Indian Day School from May 1st, next. Our funds are extremely limited for the present fiscal year, and the amount of the increase we could allow her for teaching services would be at the rate of \$10 per teaching month. This will make her total salary as teacher from the above date at the rate of \$1050 per year. I shall be pleased if you will take up this matter with Mrs. Snodgrass and ascertain if she will discontinue field matron's duties, in view of the increase allowed her for teaching duties, and advise the Department accordingly.

Your obedient servant,

A. F. Mackenzie

Sir:

I have your letter of the 5th instant, informing the Department that Mrs. Isabel Snodgrass will discontinue duties as field matron at Bella Coola as from the 1st instant, and will accept an increase in her salary for the performing of the teaching services only. The total salary allowed her as teacher will be as stated in official letter of the 23rd ultimo, viz., \$105 per teaching month, ten months in the year. You will, therefore, discontinue her name on the pay list from the above date. Vouchers in payment of her salary as teacher will be prepared in the Department.

Sir:-

I beg to advise that there are more pupils attending the day school at Bella Coola than before, and the seating accommodation is inadequate. There are two empty single desks without seats; and two chairs with shortened legs would meet the need, and are requested.

A few pupils have to sit quite close to the stove. A screen (wooden frame with asbestos sides) would give protection from the heat, and authority to get screens made is requested.

I cannot say exactly what the cost will be of chairs and screen, but should be below \$15.00

Sir:

I have your letter of the 24th ultimo, regarding the providing of more seating accommodation for the pupils of the Bella Coola Indian Day School.

You may arrange to have two chairs supplied for the two empty single desks without seats. You may also arrange to have a suitable screen installed near the stove, in order to give protection from the heat. It is noted that the cost of supplying the chairs and the screen will be approximately \$15. After this equipment has been installed, please forward an account, in triplicate, properly certified, covering the cost.

Dear Sir:

I beg to report that the fence round the day school ground at Bella Coola is in so dilapidated condition that it is necessary to have repairs made. The fence along the road is made of six inch boards, now so broken that it should be renewed; a new gate is also needed. The fence round the other sides of the ground is made of split cedar rails, and this should be repaired. The total cost of this work is estimated to be \$30.00.

New shingles were placed on the roof of the school house and the woodshed. These were not painted or stained. To preserve the roofs from rotting it would be well to have them painted. The cost of this work will be about \$50.00.

Obediently yours,

J. Fonguer

Ottawa, July 4, 1935.

Sir:

I have your letter of the 19th ultimo, in further reference to the work required at the Bella Coola Indian Day School in connection with removing the partition in the classroom, to provide more space. It is noted you recommend, also, that an enclosed entrance be erected at the front of the building.

In reply I have to say that you may arrange, during the present summer holidays, to have the partition removed and the enclosed entrance provided. The entire cost, for materials and labour, should not exceed your estimate, viz.: \$150. I enclose an encumbrance certificate, authorizing an expenditure to that amount.

E.R.
3429

You should arrange for the purchase of any materials required, from firms on the approved list, and also for the labour. Indian labour should be utilized as far as possible. Please obtain itemized accounts, in triplicate, covering the cost of the materials. These, you should attach to proper voucher forms, certify in the usual manner and forward for payment. Please state, on each copy of the voucher, that the expenditure was authorized by E. R. No. 3429. You should also prepare vouchers, in triplicate, covering the cost of the labour. Please state definitely the number of days or hours employed and the rate paid. The Department will expect you to see that a satisfactory job is completed.

Your obedient servant,

A. F. MacKenzie

Sir:

Referring to your letter No. 162-7-5 of May 29th, I beg to say that the removal of the partition in the school-room at Bella Coola would give an additional floor space of 6 x 20ft. When this is taken away it would appear necessary to add an inclosed entrance to the front of the building, where pupils could hang their caps etc. This could be made 6 x 12 ft., and the entire cost of this work should not exceed \$150.00.

The cost of putting up a new fence along the three sides of the school lot, with clearing off some brush growing up on the grounds, would cost about \$50.00.

Yours obediently,

J. Gougner.

Sir:

Mr. Inspector Barry, in a report on his recent inspection of the Bella Coola Indian Day School, recommends that, in order to accommodate the increasing number of children at this school, the partition between the actual schoolroom and hall be removed. He states that this would not cost much and would provide space for the number of children expected in September. He states that, if this is done, and a number of extra desks supplied, it would not be necessary to conduct the school on the half-day system, as there would be ample accommodation for all the children.

I have to request that you will furnish an estimate of the cost of having the partition removed and the enlarged classroom placed in good condition. Your early reply is requested, in order that, if the work is authorized, it can be carried out during the coming summer holidays.

The Inspector has given the number and sizes of the extra desks that would be required if the classroom is enlarged, and we would be prepared to supply same.

The Inspector recommends that the new fence, which was placed along the front of the school lot only, be continued around the remaining three sides. You should furnish an estimate of the cost of the material and labour required in fencing the balance of the school lot.

A small looking glass is required at this school, and you may arrange for the purchase of same, forwarding a certified account, in triplicate, covering the cost.

Your obedient servant,

A. F. MacKenzie,

Bella Coola,
September 14, 1935.

Sir:

Referring to your letter No. 162-7-5 of July 4, last, I beg to report that the work outlined has been performed in a satisfactory manner. In addition to removing the partition, and building the new entrance, it was found necessary to lay new floor in the part added to the school room. Indians were not available for the work, as it had to be done during vacation time, when they are all engaged at fishing for the canneries. An Indian was employed to take material to school house in his gas boat.

I enclose herewith the following accounts to pay for material, and work:

Voucher No. 20/73	for \$65.16	in favor of	Telegraf Cove Mills,		
"	21/73	"	8.00	"	I. Fougner, Ind. Ag't,
Labor Sheets	"	72.70	"	"	Milo A. Fougner &
		\$ 142.86			Ray Collard.
		381			
		\$ 146.67			

A cement chimney was built against the partition, now removed, and away from the outside wall. It is now unsightly, and takes up the room for a desk. It would be well to build a brick chimney outside the wall of the school, removing the one built of cement. The cost would be about \$ 50.00.

Nov. 25th, 1906

Sir,-

On account of the recent floods taking out the bridges between the white townsite and the Indian village of Bella Coola, I have found it necessary to make temporary arrangements for Miss Young, the teacher, to be taken by Indian canoe back and forth across the river daily. As the Department no doubt knows, Miss Young boards in the white settlement, as the teacher's residence in the village is not equipped with a stove or furniture of any kind, and apart from this the house requires extensive repairs. I do not think it worth while for the Department to spend any money on the residence, as the village people have determined to leave the present site, because of its dangerous position in regard to floods. I shall, however, secure a few necessities from the hatchery equipment which the Department has acquired at Rivers Inlet, and have one room at the teacher's residence fitted up for Miss Young, in case at any time ice or storms prevent her from getting across to the white settlement. I do not consider it wise for the teacher to stay alone in the village permanently.

Kindly advise if the Department approves of the transportation arrangement. I have guaranteed payment to the Indian of \$1.00 per day, until I hear from the Department. I recommend that I be allowed to continue the arrangement at the cost mentioned.

Dear Sir:

In view of the contents of your letter of the 25th ultimo, the Department approves the arrangement you have made for transporting the teacher of the Bella Coola Indian Day School across the river, at a cost of \$1.00 a day. I may add, however, that this seems a very high rate if it is found necessary to transport the teacher for any considerable length of time.

It should be understood that, in approving the arrangement that you have made, the Department only intends this rate to be allowed for a short period.

OFFICE OF

Bella Coola, B.C.
Feb. 25th, 1927

Dear Sir,-

When the Bella Coola Indians move to their new townsite, it will be necessary to make some arrangements in regard to a school. There is now a school building and a teacher's residence on their present site. I recommend that both these buildings be taken down and the lumber from same put into one school building, as I think a teacher's residence will not be needed in the new locality because it is so close to the white townsite.

As both the present buildings are old, and some of the lumber will be useless, I believe there will only be sufficient saved to build a one room school a little larger than the one now standing.

The approximate cost of partly clearing a lot on the new site, dismantling the old buildings, transferring the lumber and the erection of a new school, including nails etc., will be about \$750.00. This is, of course, by using Indian labour. If a contract is given white people it is likely to be considerably more.

Dear Sir,-

The Department is in receipt of your letter of the 25th ultimo, with reference to the moving of the Bella Coola Indian Day School.

It is not possible to provide the amount required from our current year's appropriation. When a definite decision has been given regarding the transfer of the Bella Coola Indians to the new site, you might write again regarding the removal of the school.

When replying, you should state the approximate amount required for labour and for material. With reference to the latter, you should give full particulars regarding the new material required.

Dear Sir,-

Has the Department a plan of a one-room school suitable to accommodate approximately forty children? The Department is aware that when the Bella Coola Indians move to their new townsite, a school will have to be erected. I had thought that it would be economical to take down the old school building and teacherage, and use the suitable lumber, but on account of the cost of transportation across the river, breakage, extra handling etc., I think it would be far more practical to provide an entirely new building. The two old buildings could possibly be sold to Indians, so that they could be taken down at their own convenience, for what good lumber there is in them.

On account of the delay in getting the new townsite sub-divided, it was not possible for the Indians to make any preparations last spring towards moving, as they had anticipated. The survey is now being carried out, but the Indians are away fishing and will not be returning until October. They will then have to clear the lots and streets, and lay in the water system etc. In the circumstances, therefore, it is not likely that they will be able to move over until well on towards Christmas.

The Bella Coola school will open in September, as usual, in their old village, but there is no doubt in my mind that the Indians will be in their new village before the end of the present fiscal year. Will funds be available, therefore, for the erection of a new school. Once the people have moved over, it would be impossible to transport the children back and forth across the river in order to continue to use the present school.

If the Department will send me a plan, I could then ascertain the approximate cost of materials etc.

J. Gillett,

I think it will not be necessary to include the teacher's residence at the end of the building, as the new townsite adjoins the white settlement where board and room or housekeeping rooms can be arranged for the teacher.

Otherwise, the plan seems very suitable, except that I would suggest a porch roof over the entrance of the school, to keep off rain and snow.

Dear Sir:

I beg to transmit herewith a letter from Indian Agent Gillett together with copy of a plan which is being returned to the Department as requested in your letter 162-7-1 of August 26th addressed to Mr. Gillett. The lot in the townsite on which it is proposed to erect this school is 150 ft. x 300 ft. and will have to be cleared to some extent of the standing timber and stumps before construction can be undertaken. Mr. Gillett estimates that approximately \$200.00 will be required for labour and stump-ing powder to do the necessary clearing. This work should be undertaken as soon as possible and could be done by Indian labour.

Yours faithfully,

Dear Sir:-

I would appreciate your advising me as soon as possible the progress you are making in transferring the Bella Coola Indians to the new townsite.

In your letter of February 25, 1937, you wrote as follows:-

" The approximate cost of partly clearing a lot on the new site, dismantling the old buildings, transferring the lumber and the erection of a new school, including mails, etc., will be about \$750.00".

The portion of your letter just quoted referred to the Bella Coola Day School. Please let me know at once if you have taken any action in this regard and, if not, you should advise if you can still have the work done for the amount mentioned above. If authority was granted you to proceed, could you have the transfer of the building completed before the end of the current fiscal year, viz: March 31st?

Dear Sir,-

Your file 162-7-5, Dec. 29th, 1937
Re: Day School on new Bella Coola townsite

At present there are six houses occupied on the new townsite, and ten more under construction. The whole matter of moving the people was delayed on account of not receiving word from the Department giving approval of the move, early enough to clear the townsite of timber etc. last spring before the Indians went fishing. It was August 26th, 1937 before the surveyor had completed the laying out of the townsite. The streets and a number of the lots were cleared last fall. The majority of the Indians have postponed moving until the spring, on account of bad weather conditions. There are only five children on the new townsite. School is being kept open in the school in the old village.

When I wrote on Feb. 25th, 1937, I thought word would be received from the Department sanctioning the move, soon enough to get the people moved before school opened in September. I had hoped therefore to get the school moved during the summer holidays. I recommended at that time that the old school be taken down. However, since school had to be opened in the old village and after going further into the matter, I thought it better to build a new school, taking into consideration the breakage of lumber in moving and the cost of transportation. Also a larger school is required. In my letter of August 12th, 1937, No. 2429, I advised the selling of the old school and teacher's residence.

The Department wrote me on August 26th and sent plans of a new school. I returned those plans with my recommendations on Sept. 13th.

I would still suggest that a new school be built. The cost of material would be approximately \$1500, if I am allowed to get competitive prices, as I already have some quotations. Cost of labour would be approximately \$2000.

It is not possible that a new school could be built before March 31st next. I would recommend however, if money is available, that the lot be cleared and the basement excavated before the end of the present fiscal year. The approximate cost would be \$500 including lumber for cement forms, which can later be used in the construction of the school building. If this meets with the Department's approval, I would suggest that an advance accountable cheque for \$300 for labour, be sent immediately. Local labour can be secured.

At present there are six houses occupied on the new townsite, and ten more under construction. The whole matter of moving the people was delayed on account of not receiving word from the Department giving approval of the move, early enough to clear the townsite of timber etc. last spring before the Indians went fishing. It was August 26th, 1937 before the surveyor had completed the laying out of the townsite. The streets and a number of the lots were cleared last fall. The majority of the Indians have postponed moving until the spring, on account of bad weather conditions. There are only five children on the new townsite. School is being kept open in the school in the old village.

When I wrote on Feb. 25th, 1937, I thought word would be received from the Department sanctioning the move, soon enough to get the people moved before school opened in September. I had hoped therefore to get the school moved during the summer holidays. I recommended at that time that the old school be taken down. However, since school had to be opened in the old village, and after going further into the matter, I thought it better to build a new school, taking into consideration the breakage of lumber in moving and the cost of transportation. Also a larger school is required. In my letter of August 12th, 1937, No. 2429, I advised the selling of the old school and teacher's residence.

The Department wrote me on August 26th and sent plans of a new school. I returned those plans with my recommendations on Sept. 13th.

I would still suggest that a new school be built. The cost of material would be approximately \$1500, if I am allowed to get competitive prices, as I already have some quotations. Cost of labour would be approximately \$2000. X X

It is not possible that a new school could be built before March 31st next. I would recommend however, if money is available, that the lot be cleared and the basement excavated before the end of the present fiscal year. The approximate cost would be \$500 including lumber for cement forms, which can later be used in the construction of the school building. If this meets with the Department's approval, I would suggest that an advance accountable cheque for \$300 for labour, be sent immediately. Local labour can be secured.

Memorandum:

MR. BAILEY

With reference to my memorandum of February 17 and your reply of February 21 regarding the material in the school and teacher's residence on the present townsite of the Bella Coola Indians the following information has been received from our Agent:

1. Day School on Bella Coola Reserve

This was erected in 1910 at an approximate cost of \$1000.00. It is 36'6" by 20'4" by 11'. The approximate amount of lumber in the building is 6,500 feet. Some of the sills are rotten. I have been offered \$125 for the building as it stands, by one of the Indians. I consider this a good offer. It would not pay the Department to take down the school and use the lumber in the new school, because of the cost of labour, transportation and breakage. Better value would be obtained by purchasing \$125.00 worth of new lumber. I would recommend that the offer of \$125.00 be accepted.

2. School Teacher's Residence Bella Coola Reserve

This building was erected in 1924 at an approximate cost of \$900.00. It is 24' by 24' by 9', and contains approximately 6000 feet of lumber, but of a poorer grade than that used in the school. I have been offered \$100.00 for it. The same conditions apply to the salvage of lumber as in the case of the school. In both cases, however, an Indian using his own time in dismantling etc., could get good value for the money paid for the buildings. I recommend that the offer of \$100.00 be accepted.

You will note from the above that the Agent recommends that these buildings be demolished after June 30, 1938.

Dr. H.W. McGill.

Reference is made to your memorandum of the 17th instant, your file 162-7-5, regarding the material in the school and teacher's residence on the present townsite of the Bella Coola Indians. It is noted that you have received offers for these buildings, which are in use until June 30th next.

As you are aware, we are unable to dispose of Government property except through the Salvage Officer and then usually by tender. It would, therefore, seem desirable to refer any tenders to that Officer.

However, I should be glad if you would let me have as soon as possible a full description of the buildings, size, material, and, if possible, the original cost. I should also be glad if you would advise me if these are to be removed to another location or demolished after June 30th, 1938, and if the successful tenderer would be required to remove any debris to the satisfaction of the Indian Agent.

I would also ask that you let me have the name and address of the parties who have already submitted offers for the buildings.

Memorandum:

MR. BAILEY

The Bella Coola Indians are being moved to a new townsite. This will involve the erection of a day school on the new site.

Indian Agent Gillett states that the material in the school and teacher's residence on the present townsite could not be economically used in the erection of the new school.

We have received an offer from an Indian of \$125.00 for the old school and an offer from another Indian of \$100.00 for the old teacher's residence.

Both these buildings would be in use until the end of the academic year; namely, June 30, 1938.

In view of the recommendation of the Indian Agent I would appreciate your securing from the Salvage Officer authority for Indian Agent Gillett to sell these buildings for the amounts mentioned above.

Bella Coola, B.C.
Feb. 22nd, 1938

Dear Sir,-

As requested by telegram of February 17th, I am forwarding herewith a list of material required for the proposed Indian Day School for the new Bella Coola Townsite. Attached also is the Rexwell Lumber Company's price on the lumber.

I may say that I have made no provision for toilets. I believe it will be possible to have inside toilets as the Indians intend putting a sewage system in the village. I will take this matter up later.

The enclosed estimates are based on the blue-print sent by the Department, No. 710, but without the teacher's quarters. The cement for the basement is figured on an 8-inch wall, instead of 10-inch. An 8-inch wall is quite sufficient in this locality.

I have estimated on a building 24 feet wide, instead of 25 feet as shown in plan, as 25 is an odd size and would require each piece of lumber to be cut.

The nearest sawmill to Bella Coola is the Telegraph Cove Mills, and I have sent them a list of the material and asked them to furnish their quotations to the Department direct. The freight rates from Telegraph Cove would be less than from Vancouver.

Cement can be landed at Bella Coola dock by Sam King, local Indian merchant, for \$1.15 per sack. This is the best local price.

Dear Sir,-

The Bella Coola Indians are being moved to a new townsite, so that after June 30th, 1938, we will have for disposal the old day school and school teachers' residence on the Bella Coola Indian Reserve, Bella Coola, B.C.

In connection with the disposal of these buildings I would enclose a copy of a memorandum from the Director of the Branch, giving certain details. We are anxious to dispose of these buildings at the earliest possible date, but one of the conditions of the sale is that they will not become available until June 30th next. I should, therefore, be glad if you would take steps to dispose of these buildings for us as soon as possible.

Interested parties might see the buildings upon application to Indian Agent, Gillette, Bella Coola Indian Reserve, Bella Coola, B.C.

Memorandum:

MR. WARDLERe: Bella Coola Indian Day School
Bella Coola Indian Agency, B. C.

Provision has been made in our estimates for the fiscal year 1938-39 for a new one-roomed day school on the Bella Coola Indian Reserve. This school is officially known by the name mentioned at the top of this memorandum. The enclosed blue print was sent to the Indian Agent for his consideration last September and in replying he states that it will be satisfactory with the exception that he does not consider teacher's living quarters necessary.

The Indian Agent considers that this building should be erected by day labour and as funds for the purchase of material are available in our appropriation for the present fiscal year he has obtained prices from two different firms. I enclose, for your consideration, the following quotations:

Rexwell Lumber Company, Vancouver, B.C., \$920.00

Telegraph Cove Mills Ltd., Telegraph
Cove, B.C., \$720.00

I would appreciate if you would review these quotations at once and let me know if you consider that the quotations include the lumber that would be required. As soon as your reply is received the matter will be placed before the Purchasing Agent. As pointed out above, it is hoped to make payment for this lumber from the current year's appropriation and it is, therefore, necessary that the matter receive immediate attention. I also enclose a list of the hardware which the Agent considers is required for the new school and I would appreciate if you would review this and advise me if it is complete.

Re: Bill of Materials required for new Day School,
Bella Coola, B.C.

Recommendations.

1. Cement. Based on the use of 8" foundation walls. 1'6" x 9" footings, and a 4" floor slab, it is estimated that using a 1:6 mix, 300 sacks cement will be required.
2. Brick. Based on a 4" brick chimney with 8½" x 13" flue, erected on concrete base below 1st floor line, 800 brick will be satisfactory. If, however, chimney is erected in brick from basement floor slab, 1000 brick will be required.
3. Flue lining. It is noted that flue lining is not provided in the bill of material, and if a 4" brick chimney is used, it will be necessary to provide a clay tile flue lining. 12 pcs. 8½" x 13" x 2'0" flue lining will be required.
4. Building Paper. Based on lining roof under shingles, both sides exterior walls, ceiling sheathing and subflooring. 6,000 sq.ft. of building paper would be required.
5. Furnace. No provision is made for pipe connection from furnace pipe to chimney. This would require 1 only 9" black iron flue thimble for 8" wall (maximum)

No provision is made for chimney cleanout.
This would require:
1 only 8" x 10" C.I. Cleanout Door & Frame for 8" wall.

MEMORANDUM:

Mr. Wardle.

Re: Bella Coola Indian Day
School, B.C.

With reference to your memorandum of March 11th forwarding a bill of materials for the above school and two tenders on the lumber requirements, which were received from the Director of the Indian Affairs Branch, the quotations and bill have been checked as requested.

In connection with the bill of materials, it should be noted that without working drawings the bill of materials cannot be accurately checked, however, with the exceptions as noted on the attached recommendations, the bill of materials as submitted appears satisfactory for the construction of the proposed school.

Regarding the two tenders submitted, the price of \$720.00 would be a fair and just charge for the lumber materials as listed in the tenders received.

The two tenders and the bill of materials received with your memorandum are returned herewith.

Respectfully submitted,

Memorandum:

DEPUTY MINISTER

Provision has been made in our estimates for the fiscal year 1938-39 for the erection of a new day school on the Bella Coola Indian Reserve, Bella Coola Agency, Electoral District of Skeena, Province of British Columbia.

If the materials for this building were purchased before the end of March and paid for out of the current year's appropriation it would greatly assist us in carrying out our proposed building program during the fiscal year 1938-39. Funds are available for the purchase of the material for this school from our appropriation for the fiscal year 1937-38. I enclose two quotations which the Indian Agent obtained from firms near the proposed school. These quotations were submitted to the Surveys & Engineering Branch and they state that if either tender is accepted there would be practically all the lumber etc. that will be required.

I also enclose list showing hardware, paint and cement that would be necessary. If a list of these articles were forwarded to Indian Commissioner Mackay of Vancouver he could arrange for purchase before the end of March. Vancouver would be the best point to purchase the hardware etc. as there is direct boat connection from Vancouver to Bella Coola.

I enclose two requisitions, one for the lumber and the other for the hardware.

I would appreciate if the Honourable the Minister would authorize the Purchasing Agent to proceed at once with the purchase of the materials required for the erection of this building. Dear Sir:

With reference to your letter of February 22 I desire to advise you that an order is being placed with Telegraph Cove Mills Limited for the lumber and mill work required for the Bella Coola Indian Day School at the amount mentioned in their quotation to you; namely, \$720.00. The Department is also arranging to purchase the hardware, paint, cement and furnace that will be required for this school.

It is hoped to have these supplies delivered in the near future in order that the accounts may be dated previous to March 31 and this will permit our paying them from the current year's appropriation.

Please let me know at once if you consider that this building should be erected by day labour or by contract. If you recommend day labour--presumably employing Indians--will it be necessary to secure a white foreman or any other skilled labour. If so you should let me know exactly what tradesmen will be necessary.

Yours truly,

Tender must be made on the enclosed form, and forwarded in the accompanying envelope, properly sealed, marked "Buildings, Bella Coola, due June 1st, 1938", and addressed to The Treasury Office, Salvage Division, Ottawa, Ont.

ALL REQUIREMENTS OF THE FAIR WAGES AND HOURS OF LABOUR ACT, 1935 --MUST BE FULFILLED BY THE CONTRACTOR. THESE MAY BE SEEN ON APPLICATION TO THE OFFICE OF THE SALVAGE OFFICER, ROYAL BANK BUILDING, OTTAWA, OR SUPPLIED ON APPLICATION.

The successful tenderer will be promptly advised of the acceptance of his bid, and must make payment in full upon being notified of the acceptance of his tender.

Demolition of buildings to commence after June 30th and must be completed within twenty-one(21) days of that date. Purchaser to pay all expenses in connection with removal.

The Purchaser will be responsible for, and will be required to make good any damage of any nature from any cause to the remaining Government property, or other property adjacent thereto, or persons, or animals, during the time the buildings are being demolished and removed.

No tender will be considered unless accompanied by a CERTIFIED CHEQUE for twenty-five (25) per cent of the approximate total value of this tender, made payable to the credit of the Receiver General of Canada. These cheques will be returned to unsuccessful tenderers. The successful tenderer will then be required to forward a further CERTIFIED CHEQUE for the full amount of his bid, payable to the credit of the Receiver General of Canada. The deposit cheque of 25% will be returned to the contractor after the work has been completed to the satisfaction of the Department of Mines and Resources, and will be subject to forfeiture in the event of contractor's default. UNLESS DEPOSIT CHEQUE IS FORWARDED, TENDER WILL BE DISREGARDED.

The right to reject any or all tenders or part of any tender, is reserved.

Memorandum:

DEPUTY MINISTER

With reference to Mr. Jackson's memorandum of March 18 and my reply of March 22 in connection with the Bella Coola Indian Day School the following telegram has just been received from Indian Agent Gillett:

RE DEPARTMENTAL LETTER MARCH TWENTY SECOND RECOMMEND SCHOOL
ERECTED BY INDIAN DAY LABOR ONE WHITE LOCAL FOREMAN STOP
OTHER SKILLED LABOR UNNECESSARY STOP ALL NECESSARY MATERIAL
NOW ON THE GROUND STOP RECOMMEND IMMEDIATE START ON
CONSTRUCTION AND THAT ADVANCE CHEQUE FOR EIGHT HUNDRED
DOLLARS BE SENT

In view of the fact that with the exception of a white foreman skilled Indian labour is available and that the necessary material is now on the ground I heartily concur with the recommendation of Mr. Gillett to erect this building by day labour.

In Vote 168, for the fiscal year 1938-39, the amount of \$56,000.00 was provided for new day schools. This included an item of \$4,000.00 for the Bella Coola day school. Application has recently been made to the Treasury Board for the transfer of the amount of \$56,000.00 to the Surveys and Engineering Branch. If this transfer is approved the advance requested by Indian Agent Gillett would have to be forwarded by the Surveys and Engineering Branch.

As you have been previously informed the amount of \$56,000.00 was provided in our estimates for the fiscal year 1938-39 for the erection of new Indian Day Schools. Included in this amount was an item of \$4,000.00 for the Bella Coola School. Application has recently been made to the Treasury Branch to transfer the \$56,000.00 to your Branch. If this application is approved the advance requested by Mr. Gillett should be forwarded by your Branch:

Bella Coola, B.C.
March 31st, 1938

Dear Sir,-

I enclose herewith the Returns of Labour in connection with clearing the lot for the new school on Bella Coola Reserve, and also a statement showing the expenditure of the cheque for \$300.00. The cost of clearing lot and excavating the basement has cost up to date, \$500. This was authorized by letter No. 162-7-5 of January 22nd, 1938.

This was a harder proposition than was anticipated. After we had the timber off we found just below the surface large boulders, covering the whole lot, 150 ft by 300 ft. Fortunately we were able to hire a bulldozer, otherwise the work could never have been done satisfactorily by hand labour, and the cost would have been tremendous. There are still a number of boulders to be removed, and the stumps to be burned after they have dried out. The lot is now fairly level, but still very stoney and gravel should be hauled to make it suitable for a playground. Another hundred dollars should complete the work. The basement is ready for the cement forms.

I am enclosing some pictures taken as the work progressed. I will secure one of the lot as it now is, and send later.

Your obedient servant,

J. Gillett

Dear Sir:

The Bella Bella and Klemtu Bands were visited during the month, although most of my time was spent on the Bella Coola Reserve.

x

x

x

Three schools were visited during March. There was a good attendance at Bella Bella and at Klemtu. At Bella Coola the attendance averaged nine pupils, due to the fact that the majority of the people have moved to their new townsite. After giving due consideration to the transportation of the pupils across the river, I decided that the risks were too great. It therefore means that until the new school is built the majority of the Bella Coola children are without schooling. If I have word early in April to begin construction, there is no reason why the school could not be ready by the middle of May. By that time it is likely that all the children will be living on their side of the river. I may say that most of the building material for the new school is already on the ground and the basement excavation ready for the cement forms.

Memorandum:

MR. WARDLERe: Bella Coola Indian Day School,
Bella Coola Indian Agency, B.C.

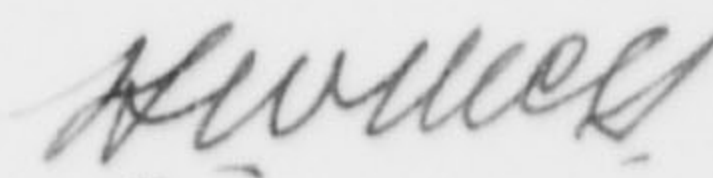

I desire to refer you to my memorandum of April 4 and previous memoranda in connection with the erection of the above school by day labour.

I am today in receipt of the following information from the Indian Agent:

"If I have word early in April to begin construction there is no reason why the school could not be ready by the middle of May. By that time it is likely that all the children will be living on their side of the river. I may say that the building material for the new school is already on the ground and the basement excavation ready for the cement forms."

As you are aware the new school is being erected on the new townsite and you will note from the above quotation that all the Indians will be residing on the new townsite by the middle of May.

I would appreciate any action you could take to expedite authority being given to Indian Agent Gillett to proceed with the erection of this school by day labour.

Mr. Wardle.

Re - Bella Coola Indian Day School,
Bella Coola Indian Agency,
British Columbia.

In reference to your memorandum of the 8th instant relative to the above and to the Indian Agent's recommendation that this school be erected by Indian labour with one white local foreman, I might say we understand from the Indian Affairs Branch that the local Agent can satisfactorily supervise this work with the foregoing assistance. Under the circumstances, and as the material is on the ground, this would seem satisfactory.

If you approve of this procedure, would you kindly advise as to local white foreman to be employed for this work. Possibly the Indian Agent already has a suitable person in view. It will be necessary for us to deal directly with Mr. Gillett and we would request him to furnish our usual reports, paylists, etc.

In regard to the matter of funds for commencing operations we understand that the Vote of \$56,000.00, which includes the amount for the building has not yet been transferred to our Service.

Respectfully submitted,

J. M. Wardle, Esq.,
Director,

DEPUTY MINISTER

With reference to Mr. Jackson's memorandum of March 13 and my reply of March 22 in connection with the Bella Coola Indian Day School the following telegram has just been received from Indian Agent Gillett:

RE DEPARTMENTAL LETTER MARCH TWENTY SECOND RECOMMEND SCHOOL
ERECTED BY INDIAN DAY LABOR ONE WHITE LOCAL FOREMAN STOP
OTHER SKILLED LABOR UNNECESSARY STOP ALL NECESSARY MATERIAL
NOW ON THE GROUND STOP RECOMMEND IMMEDIATE START ON
CONSTRUCTION AND THAT ADVANCE CHECK FOR EIGHT HUNDRED
DOLLARS BE SENT

In view of the fact that with the exception of a white foreman skilled Indian labour is available and that the necessary material is now on the ground I heartily concur with the recommendation of Mr. Gillett to erect this building by day labour.

In Vote 163, for the fiscal year 1938-39, the amount of \$56,000.00 was provided for new day schools. This included an item of \$4,000.00 for the Bella Coola day school. Application has recently been made to the Treasury Board for the transfer of the amount of \$56,000.00 to the Surveys and Engineering Branch. If this transfer is approved the advance requested by Indian Agent Gillett would have to be forwarded by the Surveys and Engineering Branch.

With reference to your memorandum of April 22 I am advised by the Deputy Minister's office that Mr. Miles Faugner, Bella Coola, B. C., should be employed as foreman.

From our appropriation for the fiscal year 1937-38 the following was purchased and paid for:

1. Lumber and mill work for Bella Coola School --
Telegraph Cove Mills, Telegraph Cove, B.C. 720.00
2. Hardware, paint, cement and furnace --
Messrs Gordon & Belyea Limited,

Bella Coola, B.C.
April 30th, 1938

Dear Sir,-

I have today moved all the school furnishings, desks etc., from the old school on Bella Coola Reserve to the Church on the new townsite, where school will be held until the end of this term. I found this action necessary, as there are now no school children left in the old village, and it does not appear that the new school will be built in time to be of use this spring.

I secured permission from the Clergyman in charge, to use the Church on the understanding that I would recommend to the Department ~~xxxx~~ a rental of \$10.00 per month for the next two months. The Church was recently moved over intact, and the rental will help towards defraying the cost of this.

I trust that the Department will approve of the above and that permission will be given to send in vouchers for the moving of the desks etc. and for the rental of the Church.

Dear Sir:

In view of the information contained in your letter of the 30th ultimo the Department will allow a rental of \$10.00 a month for the Church on the Bella Coola Reserve in order that the Bella Coola Indian Day School may continue in operation.

It is felt that the Indians should have been sufficiently interested in the education of their children to move the desks etc. free of charge. However, if you found it necessary to incur any expenditure in this regard you may forward a voucher.

MEMORANDUM

Dr. McGill.

Reference is made to your memorandum of February 17th last, file 162-7-5, regarding the old day school and teacher's residence at the Bella Coola Indian Reserve. These were duly offered for sale under Tender No. G.S. 2745 of March 30th, 1938, and I would now enclose for your records a copy of Salvage Minute No. 11293 and 11294. The former disposing of the old day school building to Mr. George Nelson, of Bella Coola, B.C., for the sum of \$100.00 and the latter covering the teacher's residence, sold to Mr. Samson Schooner, of Bella Coola, B.C., for the same amount. With a copy of this memorandum the purchase price in full is being forwarded to the Chief Treasury Officer. In each case the purchaser has deposited with the Salvage Officer a guaranty cheque for \$25.00 to be returned when the conditions of the tender have been fulfilled. It would, therefore, be appreciated if you would advise me when these conditions have been satisfied in order that the Salvage Officer may be informed accordingly.

Dear Sir:

I am advised by the Salvage Officer that arrangements have been completed for selling the old Bella Coola school to Mr. George Nelson and the teacher's residence to Mr. Samson Schooner.

I am also informed that each of these men has deposited with the Salvage Officer a guaranty cheque for \$25.00, to be returned when the conditions of the tender have been fulfilled.

You have received a copy of the tender in each case, and I would appreciate your advising me as soon as Messrs. Nelson and Schooner have complied with its conditions. When I hear from you to that effect, the guaranty cheques will be returned to each of them.

Yours very truly,

Re - Water supply for new Bella Bella School,
Bella Coola Indian Reserve, B.C.

ON
The Indian Agent has suggested a plan for providing a water service to the new school from the village water system. It appears that as the school is on fairly high ground, the pressure will not ensure an adequate supply unless certain tank storage is available. The Indian Agent has suggested that a small tank be installed and connected to the standard equipment planned for the school. The total cost of the tank installation, plus some 500 feet of piping to connect the school system with the village system, is estimated at approximately \$300.

It would not be proposed to undertake this installation or make any expenditure until one of our Engineers has checked the matter up on the ground, but in the meantime, you might kindly advise me if you would be willing to make the above expenditure.

Number of desks in each classroom: 11 single desks NO. 5

There are in addition seven old double desks two front sections and one rear section. These the Indian Agent wishes to cut to make satisfactory single desks at a cost of about \$1.00 per desk. Such action is recommended.

A total of 21 new single desks Crown if possible and made up of 5 size No. 4 and 16 size No. 3 is urgently required, and it is recommended that the necessary authority be given for the purchase of these 21 desk sections.

As has been explained to the Indian Agent the whole of the desks should then be placed on strips of wood as has been done in nearly all Provincial and Indian schools. Desks can then be moved easily for cleaning purposes, while at the same time the seats and desks are kept at the proper distance to insure the posture of the children is correct.

(Sgd.) Gerald H. Barry,
Inspector of Indian Schools, B.C

I have obtained quotations on the new desks which Inspector Barry states are necessary. These Crown single desks may be purchased from the Anthes Tait Foundry Company, of Vancouver, for an amount of \$151.20 f.o.b. Bella Coola.

Dear Sir:-

With reference to your letter No. 162-7-5 of October 20th last giving authority for Mr. Gillett, the Indian Agent at Bella Coola to spend the sum of \$100.00 in clearing the Bella Coola Indian Day School grounds, Mr. Gillett has now requested that a cheque for \$99.20 be sent to him to pay the accounts already contracted. This will be the total amount required.

If this cheque can be sent by airmail so as to reach this Office by the 19th instant, it could be forwarded to Mr. Gillett on the 20th. If not, there is no other mail until January 3rd from here.

Yours faithfully,

AIR MAIL

Dear Sir:

I desire to refer to my letter of September 25 to which no reply has been received regarding the removal of the old Bella Coola School building by George Nelson.

In July, 1938, Nelson deposited a cheque with the Salvage Officer toward the guarantee that he would remove one of the old buildings at the site of the Bella Coola School. Although we have written to you on several occasions there has always been some reason given for Nelson delaying the carrying out of this work. As a consequence his cheque is still here and the Salvage Officer is continually writing to us with reference to the matter.

Please see Nelson at once and ascertain if he intends to carry out his agreement with regard to this building. If he does not intend to do so he should so advise you. In any event let me have something definite in order that the matter may be finally closed. An immediate reply will be expected.

Yours truly,

R.A. Hoey,

MR. BAILEY

I desire to refer to your memorandum of May 3 and my reply of May 6 regarding the building sold to Mr. George Nelson under Salvage Minute No. 11293.

In a letter dated the 18th instant Indian Agent Wm. Christie writes as follows:

"In reply to your letter of the 6th instant, George Nelson has not yet removed the old Bella Coola School building. The Bella Coola Indians have now got a tractor with which George intended to move this building, but they are at present working against time in order to get their logs out before fishing starts, and it is unlikely that removal of the old school will be possible until next fall."

The School Returns for the Quarter ending December 31, 1941 indicate a slight increase in average attendance over the same period last year. It is noted that the average attendance for Bella Coola was 46.32 out of a total of 57 pupils on the register, and that of the Kitimat Indian Day School was 44.71 out of a total of 69 pupils on the register. This is all the more a matter of concern in view of the fact that most of the pupils at Kitimat are enrolled at the Residential School. An extra room should be provided at Bella Coola in the near future.

EXT

Await further report from Agent

SCHOOL This was visited while in session and an endeavour made to give the teacher some assistance, but no inspection was made of the academic work of the children. The school is too small to accommodate all the children of school age in the village and the teacher finds difficulty in dealing with a large class, with the result that interest in the school is falling off. Matters could be improved considerably by enlarging the school to two rooms. There is an excellent school building in the old village but unfortunately the Department sold this to the Band for \$100 for use as a Band Practice Hall; at present it is standing idle. It may be found possible to purchase it back at a slightly higher price and move it over next to the present school and connect the two buildings together, as the old school appears to be quite sound. If this could be done for about \$500 and another teacher secured the attendance would probably double and the quality of the teaching be improved by division of the junior grades from the senior. The matter is being taken up by the Agent and if the proposal appears possibly by the Band agreeing to the sale of the old building, he will make application to the Department, furnishing a survey of all the children of the village up to the age of fifteen years.

The appearance of the school grounds could be considerably improved by the planting of a few trees along the edge of the lot and some shrubs around the base of the building. At present it is very bare in appearance.

The present teacher, Miss Lau, appears to be capable but not at all cheerful by nature.

SCHOOL

This was visited while in session and an endeavor made to give the teacher some assistance, but no inspection was made of the academic work of the children. The school is too small to accommodate all the children of school age in the village and the teacher finds difficulty in dealing with a large class, with the result that interest in the school is falling off. Matters could be improved considerably by enlarging the school to two rooms. There is an excellent school building in the old village but unfortunately the Department sold this to the Band for \$100 for use as a Band practice hall; at present it is standing idle. It may be found possible to purchase it back at a slightly higher price and move it over next to the present school and connect the two buildings together, as the old school appears to be quite sound. If this could be done for about \$500 and another teacher secured the attendance would probably double and the quality of the teaching be improved by division of the junior grades from the senior. Dear Sir:

I beg to forward herewith Inspector Coleman's report on his inspection of the Bella Coola Indian Agency. Although the inspection of the Agency was completed in October last, certain delays occurred in the preparation of the report which accounts for the delay in its submission to the Department.

March 27th. 1943

I am enclosing herewith Return of labour, for work performed at the Bella Coola Indian Day School.

There were several windows broken, in the basement, and hall way, both front door locks were loose, and the doors loose on the hinges, so I had new glass put in, the locks repaired, and doors properly hung again.

The teacher also complained of lack of seating space in the class room, I investigated this and found several children sitting on boxes and broken chairs, there is seating for about 38 children, and this included two double desks, which is not a satisfactory arrangement, but under the circumstances these will have to be used for the time being.

I had two old double desks which I found in the basement, put together again, and these are also used, as there has been over 45 pupils attending some days.

I have paid the cost of this labour out of personal funds, and receipt for same is attached to Return of labour.

A large cupboard is badly needed in the basement, for keeping paper towels, toilet paper, soap, and other materials in.

The children will waste about half the items mentioned, if they can get their hands on them, so I would suggest a locked cupboard.

Major D.M. MacKay, Indian Commissioner for B.C. Vancouver B.C.

I have for acknowledgement your letter of April 1st.
No. 215-2-3457, re the Bella Coola Indian Day School.

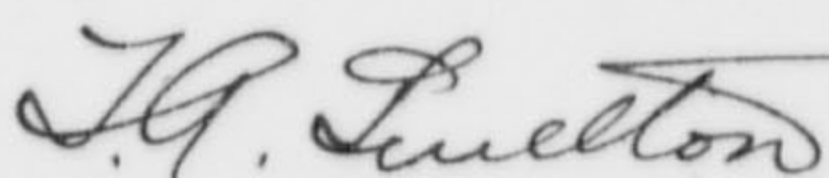

At the time of Inspector Thorsteinson's visit, he also pointed out the fact that this school, class room should be painted a lighter color, as the room was entirely too dark.

He will most likely make some reference to this in his report on the school.

I am enclosing herewith a detailed estimate, in triplicate of the repairs and material needed, also the cost of labour.

Some of these prices are approximate, as I have no catalogue showing the price of paint, but would think that they are fairly close.

The proper time to have this work done would be after the school closes in June, but we may find it difficult to secure any labour at that time, as nearly all able-bodied men go fishing or out to other jobs.

Indian Affairs Branch, Department of Mines and Resources,
Ottawa, Ontario.

I have received an application from Mr. Indian Agent Anfield for authority to expend the sum of \$75.00 for the improvement of the school grounds at Bella Coola. It is proposed to commence fencing the grounds and make other improvements and continue the work in another fiscal year when funds may be available to complete the scheme in mind. Mr. Anfield does not state what the total cost of the project will be.

In this connection, I would advise that unless the Department particularly wishes to commence the work this year, I would suggest that the matter of these improvements be left until the new addition to the school to provide for a teacher's quarters and another classroom has been approved. Provision was made for this construction in the program of worthwhile works to be undertaken immediately following the close of the war and I should think that the improvements Mr. Anfield has in mind could best be made at that time.

There is no regular teacher at Bella Coola at present. It will be recalled that the Department approved the temporary employment of the local United Church missionary as teacher for this school until such time as the services of a properly qualified teacher could be secured.

Re: Improvement - Bella Coola School Grounds.

I have for acknowledgment your letter of the 7th instant and have noted with interest your comments on Indian Agent Anfield's request for the sum of \$75.00 for the improvement of the school grounds at Bella Coola.

In view of the comparatively small expenditure involved, the Department would be prepared to approve this outlay at any time during the present fiscal year. As the addition to the school, to which you refer, may not be undertaken at any time in the immediate future, it might be well to proceed with the improvement to the school grounds in the meantime. However, the matter is one that can be left to your judgment and the judgment of Mr. Anfield.

Supt. of Welfare & Training.

Your file 215-2-9342, December 31st, 1943

Attached please find vouchers and work sheets covering the work sanctioned for improving land and fencing on the Bella Coola I.R. No. 1. (School fence.)

One hundred posts and two hundred rails have been cut and piled on the school grounds through the medium of this appropriation; and the work of installing same will be requisitioned from appropriations from next years votes.

As the men were anxious to get supplies for halibut fishing which starts shortly, I paid them off in cash from personal funds, and have made the voucher payable to myself.

I enclose herewith Mr. Indian Agent Anfield's letter of October 27th in connection with an expenditure of \$48.00 required to complete the second classroom at the Bella Coola Indian Day School.

Although we have as yet been unsuccessful in securing a second teacher for this school, it is considered advisable to have the classroom ready in the hope that we may secure a teacher for the start of the new term on January 2nd. It is recommended that an accountable advance of \$48.00 be forwarded to Mr. Anfield for this purpose.

Re: Temporary classroom - Bella Coola Day School

Authority is requested to spend \$48.00 to complete the work on this classroom. Cupboards will have to be built; floors lined up and oiled and the new and old deks uncrated, set up and put on runners on the floor.

We have sufficient lumber on hand in the Agency to put in a full set of cupboards and an accountable cheque for the labour is requested.

The one room in operation is filled to capacity and has been put on a half day basis. A second teacher is needed. The room can be put in condition to open with three days work for a carpenter and two helpers.

Attached please find requisition for the Bella Coola Day School for the year 1946-47. It is noted that the Department has approved the opening of a second room and the teacher has already been appointed. The requisition is based on the needs of two rooms.

One sheet is made up for requirements at the teacherage rented by the Department. Enough furniture was purchased early this year to provide for the needs of one teacher. The additional items are for the second teacher and to complete the furnishings of this cottage which should then make very comfortable quarters for the two teachers at this School.

Bella Coola, B. C.
September 4th, 1946.

Major D. M. MacKay, Indian Commissioner for B. C.,
Vancouver, B. C.

When arrangements were made for the opening of a second classroom at Bella Coola, the matter of toilet facilities was seemingly entirely overlooked.

The building is some considerable distance from the school (the new one) and some sanitary arrangements will have to be made for the convenience of the pupils. I would suggest that separate outside toilets be erected a short distance behind the school.

Since no provisions had been made to protect the wood supply which is piled up near the school inclement weather, I would also suggest that a lean-to wood shed be erected at the rear of the building.

Shelves have been erected inside the school for storing supplies and doors should be provided to turn these into a cupboard.

Lumber and labour costs for the above are estimated as follows:

Wood shed

200 feet shiplap at \$35.00 per M	\$ 7.00	
Labour 8 hours at 75¢	<u>6.00</u>	\$13.00

Toilets

200 feet 2" x 4	140 f.b.m.	
16 " 2" x 12"	32 "	
Shiplap	500 "	
	<u>672 f.b.m.</u>	
672 f.b.m. at \$35.00 per M		23.52

3 lbs. 4" nails @ .12	\$.36
2 lbs. 6" nails @ .12	.24
Cartage	3.50
Labour 24 hours at .75	<u>18.00</u>
	\$46.22

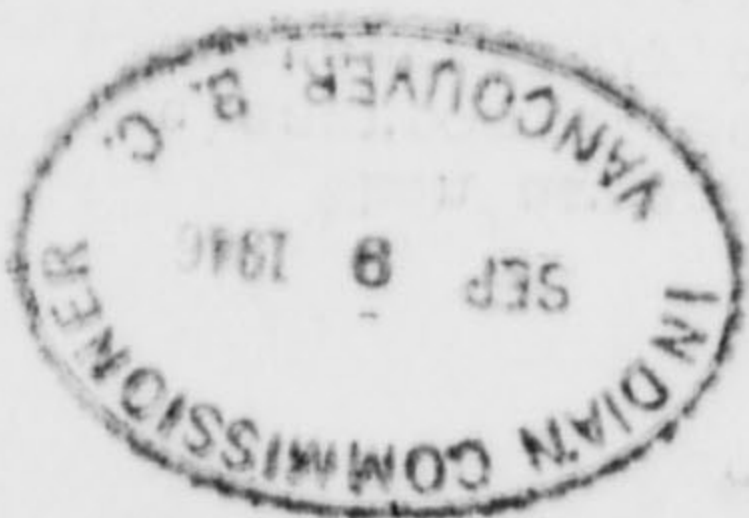

There is sufficient scrap lumber on hand at the Agency to provide for doors for the cupboard as well as some extra shingles for the roof of the toilets if there should not be sufficient shiplap.

Since this is a matter of extreme urgency, I would recommend that approval be granted for the material to be obtained and the work done.

Vouchers, supported by paylists could be submitted upon completion of the work.

I am forwarding herewith Mr. Indian Agent Pruden's letter of August 6th in connection with improvements to the Bella Coola Day School. As an amount of \$365.00 has been provided in the current year's estimates for this work and also as Major Davey confirms the information contained in Mr. Pruden's letter, I would recommend that authority be granted to Mr. Pruden to purchase the necessary supplies.

The paint can be purchased from Marshall Wells, Vancouver, B.C. at a cost of \$27.90.

It is also recommended that an accountable advance be forwarded to Mr. Pruden to cover labour charges.

Re: Bella Coola Indian Day School - Senior Room

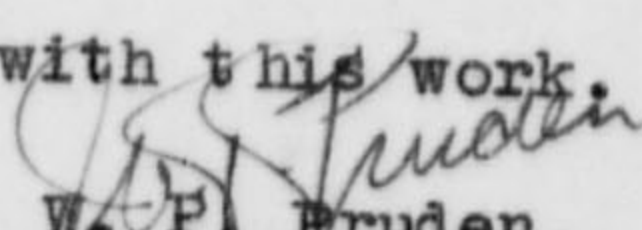

In this mail is going forward my proposal for certain additions to the above building in co-eration with the Indian owners who have donated the use of the building to the school for the past year and are willing to continue the arrangement meantime.

It is many years since the interior of this building has been decorated and it presents a most drab and dirty appearance. The floor is particularly in need of attention. I have been trying for some time to secure a tender for the work of painting the floor, wainscoting, walls, and ceilings, also removing desks from floor and screwing them onto strips in accordance with more recent accepted practice. Floors, wainscoting will require two coats of paint, walls and ceiling will require washing to remove old calcimine and two coats of paint to finish. There is no one here either white or Indian, capable and willing to do the work just now. However had I the materials on hand I might find someone with the time to spare within the next month or so. I estimate that this work should be finished in about seven man days and if I had authority to spend \$60.00 should be able to pay the labor and buy the stripping for the desks and any other small items of material that may be required, in addition to the following list of paint which I would appreciate your assistance in purchasing providing the work is approved:

2 gal. Medium Gray Floor enamel
2½ " Cream Inside paint
1½ " Pearl house paint (for ceiling).

Attached are duplicate quotations that Mr. Levelton has secured from three firms. Marshall-Wells price is slightly the more favorable. Paint should be shipped via Union S.S. marked "For Day School" and addressed c/o Indian Agent, Bella Coola, B. C.

May I have your early authority to proceed with this work.

W. P. Bruden,
Indian Agent.

I am enclosing Mr. Indian Agent Pruden's letter of August 6, in connection with improvements required to the building used as a senior classroom, Bella Coola Indian Day School.

Inasmuch as the building has been used rent free for some time and will continue to be used until new construction is provided, it is considered reasonable that the Department make some expenditure for improvements. The requirements listed by Mr. Pruden will cost approximately \$140.00 and it will be appreciated if you would advise if this amount can be made available.

Re: Bella Coola Indian Day School
Senior Room (Gordon Band Hall)

During the past year a Bella Coola Indian musical organization known as the Gordon Band have kindly donated their band practice hall to the use of the senior room of the Day School, rent free. During the coming year they are willing to continue the arrangement and it would appear in view of the amount of school construction urgently required in this Agency that I may have to ask them to forego the use of their practice hall in the interests of the school children for several years to come.

The building is not suitable for a school room as it stands. It is the same building that was used as a school in the old village across the river. On being reconstructed on this side there was not sufficient lumber to construct an entry or vestibule and the present door way opens directly from the classroom to the open air. Last winter rain beating against the door caused pools of water on the floor.

The wood was piled in the open and as a result was covered with wet snow and considerable difficulty was experienced in keeping the fires going.

Since the building is occupied rent free, the owners can hardly be asked to make good these deficiencies. However several Indians have expressed their willingness to donate labor to remedying the situation. I propose that in recognition of the obligation of the Department to house the school that materials be donated for the construction of an entry of sufficient size to accommodate the childrens wraps and a small quantity of fuel for day to day use and where washing facilities may be placed. Further, that materials also be donated for a wood shed to accommodate the annual fuel supply. All of the above on the understanding that the Bella Coola Indians supply the labor in recognition of the permanent improvement to the building.

Re: Bella Coola Indian Day School

With reference to Mr. Neary's letter of August 21st approving an expenditure of \$87.90 for material and labour required to redecorate the interior of the senior room at the above mentioned school, it should be noted that an accountable advance of \$60.00 only is required for labour costs.

The paint is being purchased in Vancouver at a cost of \$27.90, plus freight.

March 3rd, 1948.

Indian Affairs Branch, Dept. of Mines and Resources, Ottawa.

Under date of September 5th the Department approved an expenditure of \$140 for improvements required to the building used as a senior classroom at the Bella Coola Indian Day School. This amount was intended to cover the cost of materials only, it being understood at that time that the owner of the building, which the Department has the use of rent free, would provide the necessary labour. Mr. Indian Agent Pruden has advised, however, that in spite of many promises that the work would be done immediately the repairs and improvements have not yet been attended to.

OK
The cost of labour is estimated at \$120.00 and I would recommend that the Department approve an expenditure of this amount as it would appear that we will have to use the building in question for classroom purposes for at least another year. I would recommend that an accountable advance of \$120 be forwarded to Mr. Pruden after April 1st and that in the meantime he be authorized to have the work proceeded with.

We have your letter of the 3rd instant, file 2-11-3, with reference to the building used as senior classroom at the Bella Coola Indian Day School.

In view of the information contained in your letter we approve an expenditure of \$120.00 for making the repairs that are required. It is understood that we will be able to continue the use of the building free of rent.

As you request, an accountable advance will be sent to Mr. Pruden after April 1st.

Re: Bella Coola Indian Day
School
Your file 162- 7-5 (W T)

Under date of August 21st the Department approved an expenditure of \$87.90 for the purchase of paint and the payment of labour required to redecorate the interior of the senior room of the above mentioned school.

Mr. Pruden's letter of March 30th attached indicates however that although the materials were secured the work was not proceeded with. In order to complete it at this time an additional amount of \$43.30 will be required to meet labour costs.

While his reference to a balance of \$41.70 of an accountable advance on hand is not entirely clear it would appear that he has had some of the work done and has communicated for the advance direct to the Department. I would recommend that a further advance of \$43.30 be forwarded to him when funds are available.

Re: Bella Coola Day School (Senior Room)

Thank you for your 2-11-3 of March 17th giving authority to proceed with the construction of wood-shed and entry to the above named school building.

Work is now in hand and should be completed within a week. With reference to the last paragraph of your letter, since this work is being completed by contract and not by day labor I believe I am correct in assuming that paylists and hour rates will not be applicable, since these are entirely the concern of the contractor.

The same native contractor has undertaken to paint the interior and as the school is now on holiday and this is the first offer of painting I have had since the painting materials arrived last September, I have ordered the work to proceed. This work will also be on a contract basis and the price will be higher than I estimated originally. The contractor has agreed to do the work for \$85.00 and considering the very exacting work needed to remove the old calcimine I agree that this is not excessive.

There remains on hand from Accountable advance of August 21st (B22 cheque 61840) the sum of \$41.70. This is being paid on account to the contractor. Accounting voucher with receipts is going forward to Ottawa. Additional authority for \$43.30 to complete payment for the paint work is therefore required. I trust an accountable advance may be allowed in that amount.

Attached is copy of signed contract to complete the paint work.

Dear Sir:

Attached is requisition from Miss A. Wright,
Bella Coola Indian Day School, for kindergarten tables,
the need for which I believe was discussed during your
recent inspection.

There will be eleven beginners in this school
next September and it is to accommodate them that the
tables will be used.

I recommend that this purchase be approved
and forwarded.

Re: Bella Coola Day School supplies
Your file 803-5 (E)

1948 file
ext.
I have to refer to Mr. Neary's letter of October 12th regarding supplies for the Bella Coola Indian Day school and in particular the second paragraph wherein it is stated "it is not our practice to supply fire extinguishers to day schools." Inasmuch as the supply of such equipment has, in the past, been approved will you please advise if it is intended to entirely discontinue the supply of fire extinguishers to day schools and if so if Agents requisitioning for such equipment should be advised accordingly.

With reference to your letter of the 18th instant, file 2-11-4, official letter of October 12th was probably not as clear as it should have been.

It is not our practice to supply fire extinguishers to day schools in Eastern Canada. However, I note from your letter that fire extinguishers have been supplied to some day schools in British Columbia and we, therefore, authorize the purchase of a one quart fire extinguisher for use at the Bella Coola School.

The attached voucher is for work and materials supplied in installing a sink and drainage to the water tap at the senior school, Bella Coola.

When the new entry was built last spring the water tap which had been outside, was enclosed in the new structure. I have asked for estimates on this work but have had no offers until the man now submitting his account offered to do it as economically as he could, but would not commit himself on a contract. As ice was starting to form in the entry from the leaking of the old tap I instructed him to proceed.

Considering the materials supplied and time involved in this work I believe his account is quite fair.

Ref. your 803-5 of January 24

The Department is prepared to pay rental of \$15.00 per month on a temporary basis towards the amount being paid by Mrs. Bishop, teacher at this school. This amount can be paid providing the accommodation is rented from an Indian family. If not, you should advise the Department further concerning the party from whom the house is rented.

Re: Bella Coola School

Following Miss Wright's resignation from the above school, Mrs. Bishop was employed as teacher of the second classroom at this school. I am now in receipt of a request from Supt. Pruden that consideration be given to the payment of rental for the house occupied by Mrs. Bishop and her family.

The teacherage rented presently by the Department for Miss Bray, the other teacher at this school, consists of two small rooms and there is no space for a second teacher. As previously advised it is thought that possibly next year we may reach an agreement with the local School Board whereby a number of the Indian pupils will be enrolled in the Bella Coola white school, which will obviate the necessity for a second Indian school classroom at this point. We also hope it may be possible to construct our own teacherage at this point during the next fiscal year. In any event this particular problem should not face us during the next academic year.

In the meantime, for the balance of the present academic year I would recommend that the Department pay \$15.00 a month toward the \$22.00 being paid by Mr. and Mrs. Bishop, as the usual housing accommodation is not provided for this teacher.

We have received the following self-explanatory letter from Dr. Dorey and would appreciate your comments:-

"I understand that for some time your school has been receiving electric current for lighting purposes from the hospital. We have lately installed a new engine, which will give more satisfactory service. Dr. Darby raises the question of the possibility of your making a grant towards the installation of the power plant, or, in the alternative, increasing the payment for light supplied, very materially. We shall be glad if you will give consideration to the matter and possibly have the Indian Agent make a suitable recommendation."

Re: Bella Coola Senior Day School

Replying to your 2-11-3 of January 21st and reference this Agency's vouchers #50 and 51. May I refer to my 2-11-3 of March 30th, 1948 which was in reply to your 2-11-3 of March 17th, 1948. With reference to the funds covered by voucher #51 my letter states "with reference to the last paragraph of your letter (2-11-3 of March 17) since this work is being completed by contract and not by day labor, I believe I am correct in assuming that paylists and hour rates will not be applicable, since these are entirely the concern of the contractor".

No reply was received to that paragraph and copy of contract is attached to the voucher. I can certify that the work was efficiently completed and full value received.

With reference to voucher #50, may I again refer to my 2-11-3 of March 30th, third and fourth paragraphs. You will note that \$41.70 had already been paid on that contract and the \$43.30 which was then requested is the amount covered by voucher #50. I am attaching a copy of the total contract for the paint work which was paid for by the two amounts of \$41.70 and \$43.30. Had this job been done on day labor basis, the cost would have been much higher since I recall that the contractor remarked when he was paid that he lost out on that job owing to the difficulty encountered in removing the old calcimine.

I am forwarding herewith Bella Coola Agency Credit Vouchers No.50 and 51, covering accountable advances for improvements to the above-mentioned School.

It will be noted from the contract attached to Voucher No.50 that there is a difference of \$41.70 between the amount of the voucher (\$43.30) and the contract price, however, it would appear from Superintendent Pruden's letter of January 29th, 1949, attached, that he has vouchered direct for the amount of \$41.70 as we have no record of the account being passed through this Office.

Bella Coola Vouchers No.50 and 51 are recommended for payment.

Re: Furnace - Bella Coola Indian Day School

With reference to Supt. Pruden's letter of December 13th attached, following an extensive exchange of correspondence with the agents for the manufacturers of Good Cheer furnaces, and Mr. Pruden, we have ascertained that it will cost approximately \$125 for the parts required to repair the furnace at the Bella Coola Day School.

Purchase and installation of these parts will give us the equivalent of a new furnace which is badly needed and I would recommend that the Department approve the necessary expenditure.

Re: Bella Coola School

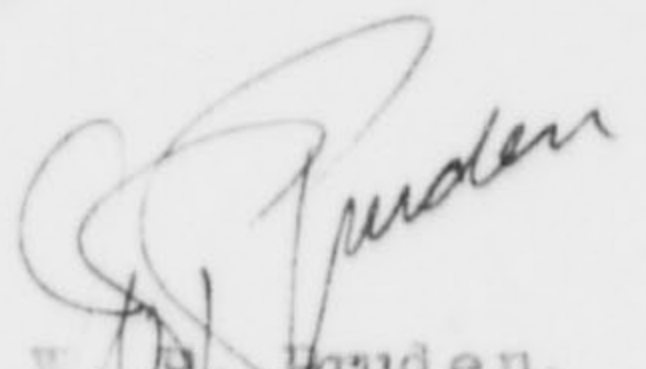

For some time I have tried to find someone who would repair the furnace in use at the above school building. The need has now become imperative as cracks in the inner casting of the furnace are opening to such an extent that sparks are rising into the school room through the heating register.

I still do not have a prospective workman to do the repair work, but repairs should be on hand. I will probably have to use unskilled native labor and costs may be high.

I recommend that the following be purchased and shipped via Union Steamship, addressed to this Agency.

One inside core complete for No. 36 "Good Cheer" pipeless wood and coal furnace, manufactured by James Stewart.

One full set of grates will also be required.

Re: Bella Coola Day School
Senior Room

The building occupied by the above school is the property of the "Gordon Band" a musical organization made up of members of the Bella Coola Band of Indians. This organization have given the building without charge to the Department for the past three school terms.

In the meantime, the musical group having no place to practice, neglected what had been a very fine silver band. During the past year I have been told by individuals of the Bella Coola Band that they considered the neglect of music an important factor in the increase of drunkenness in the village. Acting on this theory last autumn, some of the head men of the village reorganized the band and began practising in the homes. By Christmas they were doing very well. It was then decided to start a Junior Band to train the young men. The group has now grown so large that it is impossible to accommodate them in a dwelling. It is desired to hold classes often with so many beginners.

In view of this, the Council reluctantly approached me to enquire about the senior school building. They had originally been told that the loan was for only one year. Now I have had to tell them that it would appear that a school room could not be constructed here for several years and that if their band hall is returned, then the senior room must be closed. This of course they do not wish. A very poor second choice for the band classes is to try to squeeze in practice sessions between other events in the large village hall. This building is normally busy every week night with basketball, ring hockey, moving pictures, banquets, concerts and the occasional dance. In order to improve the finances of this building an increased scale of rentals has been imposed. Since most of the activity in this hall is of a community nature, it is not possible to modify the rates schedule without upsetting the hall's finances. The band must therefore pay rental for use of this hall and they have not enough funds to do so.

It seems to me that the time has come to allow the "Gordon Band" some rental for the use of their building. This rental could be applied toward the rental they must pay for the larger hall. The minimum they will require will be about \$2.50 per practice, ten times per month, covering the Junior and Senior groups.

I recommend that a rental of \$15.00 per month be authorized to be paid to the Gordon Band for the use of their building as Senior Day School room, this rental to be re-troactive to September 1948.

Re: Senior Room Bella Coola Day School

The Senior class of the Bella Coola School has, for the past three school terms, been conducted in a hall, property of the Indians, and you will note from Mr. Pruden's letter of February 21st, 1949, attached, that the musical organization who own the hall have had to rent other accommodation for their community activities.

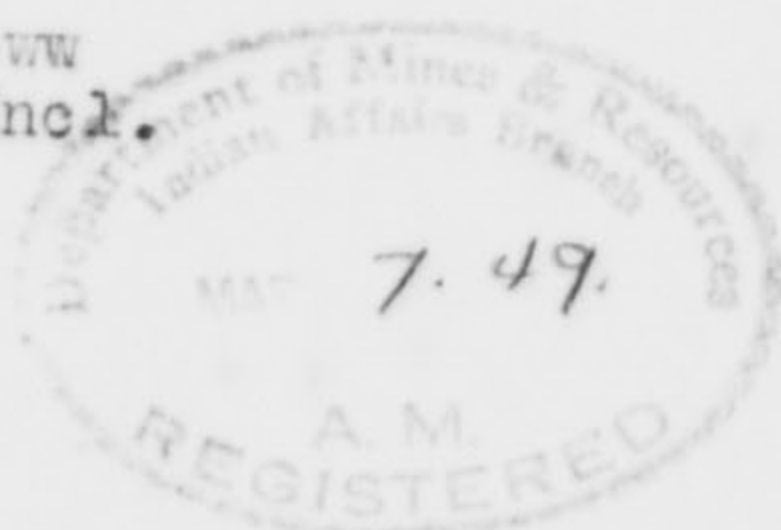

In view of this and until such time as we arrange for the enrolment of Indian pupils in the local white school, or provide our own accommodation, I would recommend that the Department pay rental for the hall at the rate of \$15.00 per month and that this payment be retroactive to September, 1948.

Re: Bella Coola Day School

Attached is signed tender from Mr. George Nelson, Indian of the Bella Coola Band for the work of repairing and painting the above school building, both interior and exterior throughout. Mr. Nelson and his family are dependable and efficient workmen and have a number of satisfactory painting jobs to their credit.

The only materials item obtainable locally is the one bundle of shingles which will cost about \$2.75. All other materials noted will be required from Vancouver.

I recommend that this work be authorized as early as possible. The school house is decidedly shabby and it is desired to make use of the Nelson family on this work during the month of May if possible, before they leave for sockeye fishing.

If the work is authorized I will appreciate your help in securing the materials, paint, stain and wallboard from Vancouver. Accountable advance for \$300.00 should be forwarded to this Agency to cover labour, shingles, coat room hooks, nails, and a small quantity of lumber for repairing steps.

Re: Bella Coola Indian Day School

Attached is a requisition from Superintendent Pruden for 8 school desks, involving an expenditure of \$140.80.

It is recommended that the traditional school desks be supplied, rather than alternatives listed on the requisition form. Inspector Davey is of the opinion that the classroom is insufficiently large to accommodate the tables requested and feels that it would be preferable to have a uniform type of desk in this classroom.

Requisition for School Material

Date June 11 1949

For Bella Coola Indian Day School Bella Coola Agency

NOTE:—

To avoid delay, teachers should give full particulars regarding each article required.

The name, series, number of grade, and name of author and publisher of all books required should be given as fully as possible.

When ordering kindergarten material, the catalogue number of some well known firm should be given for each article required.

Only one item should be specified on each line of this requisition and no entry should be made under heading "Number Authorized".

ARTICLES	NUMBER ON HAND	DATE OF LAST RECEIPT	NUMBER REQUIRED	NUMBER AUTHORIZED	REMARKS
Work tables single 30" high and Chairs for same			8 8		Owing to the increase of pupils in the school for the coming term, we shall require more seating accomodation.
OR Movable Chair Desks Height of seat 17"			8		Some pupils, even in grade V are very tall boys and require adult size seats.
OR Single desk Units large 15 to 18 years and Fronts - desk only and rears - seat only			4 2 2		I would prefer tables and chairs if possible but if these cannot be provided can we be supplied with either chair desks or old fashioned desk units?

Re PLUMBING, BELLA COOLA DAY SCHOOL

Referring to your letter of November 21, file 2-11-3, please be advised that the labour return covers repairs to the one remaining toilet tank and bowl also to dismantling and removal of broken bowl and pipes.

A voucher covering return of labour in favour of Robert Moody is herewith attached.

We shall endeavour to get an estimate on the cost of installing new toilet bowl and pipes. It is quite evident that some very necessary repairs will have to be made in connection with the flooring in the toilets as I noticed on my last visit that the floor boards appeared to be rotten.

Apparently the board floor is laid over a part of the basement floor which was not cemented at time of construction and evidently dry rot has set in owing to lack of ventilation and also to a leak in one of the pipes. It is very hard to estimate closely on the actual cost of these repairs because it may be necessary to tear out the two board walls and partition to enable the workman to get the old floor out and to renew same. If the cement floor does not extend through under the board floor, I think it would be good economy to cement in the whole floor and just sit the toilet bowls on the cement and eliminate the board floor entirely. I would estimate the total cost at approximately \$150.00 including labour and material, in addition to material ordered in your letter file 2-11-3, of 26th November, addressed to Andrew Sheret Ltd.

Supt. Pruden reported early in November that one of the toilets at the Bella Coola Day School was broken and that replacement of the bowl and other minor repairs to the plumbing facilities was necessary. We have arranged for the supply of a new bowl at an approximate cost of \$35.00 and you will note from Mr. Pruden's letter of December 2nd attached that labour, including repairs to the floor in the washrooms, will cost approximately \$150. The total expenditure should not exceed \$200.00.

I would recommend that the department endeavour to make funds to this amount available.

Bella Coola Agency voucher 85 in the amount of \$6.00 covering temporary repairs is enclosed and recommended for payment.

Re: Bella Coola School

As the Department is already aware, this Office has advised against any building programme at Bella Coola to improve our most inadequate school facilities at that point, because of the possibility of increasing the number of native children admitted to the Provincial School. I am now informed by Mr. Superintendent Pruden that Ocean Falls School District, under whose jurisdiction the Bella Coola School comes, is prepared to consider a proposal for a joint building programme. Before making any survey or proceeding with the preparation of any plans the School District would like to have assurance that our Department is interested in their proposal and would assume its share of the capital cost, if a survey indicates that the proposal is feasible.

The Bella Coola Indian Day School is at present housed in two buildings, one of which is a fairly satisfactory school constructed about ten years ago. The second building is rented from the Bella Coola Band and is quite inadequate in every respect. These two buildings house at present approximately 70 children in grades 1 to 5. The existing Provincial School is not in excess of one-half mile from the farthest Indian pupil.

It is Inspector Davey's suggestion that we retain the satisfactory building for pre-primary purposes and that all of the school age population be admitted to the Provincial School. Mr. Davey has not made a survey of the Bella Coola situation but has made this suggestion so that he may have the Department's reaction before proceeding with a comprehensive survey.

I feel that the proposal for the admission of all the school age

ARCHIVES PUBLIQUES

CANADA

children to the Provincial School is of sufficient importance to warrant the transfer of funds from some project in our proposed building programme, since no provision has been made for a contribution to the capital cost of a combined school.

I might add that the Indians at Bella Coola all have protestant affiliation.

I shall appreciate receiving the Department's decision as to whether or not they are prepared to agree in principle to the admission of the Indian children to the Provincial school and the making of a contribution towards the capital cost of this building.

RE: Proposed Bella Coola Combined School
Ref. your 803-5(E) of February 9th.

Attached is a Memorandum from Inspector Davey with regard to the above mentioned school. It is impossible at the present time to secure an accurate estimate of the cost to the Department of this new school. However, Mr. Davey has written to the Provincial School Board suggesting that use be made of the Provincial standard plans #9 which the Department is purchasing for the three-room school at the Tsartlip Reserve in Saanich. If these plans are acceptable to the School Board, it will then be possible to give a fairly accurate estimate of the cost.

When this information is received the Department will be informed.

Memorandum:

ACTING DEPUTY MINISTER

Bella Bella, B.C. - Proposed Joint School

The Indian Commissioner for British Columbia has previously advised against any new Indian school building program at Bella Bella because of the possibility of increasing the number of native children admitted to the provincial school.

Inspector Davey has been carrying on negotiations with the Ocean Falls School District, under whose jurisdiction the Bella Coola Provincial School comes.

The Bella Coola Indian Day School is at present housed in two buildings, one of which is a fairly satisfactory school, constructed about ten years ago. A second building is rented from the Bella Coola Band and is quite inadequate in every respect. These two buildings house at present approximately 70 children in grades one to five. The existing provincial school is about a half mile away from the farthest Indian pupil.

It is Inspector Davey's recommendation that we retain the satisfactory building for kindergarten and primary purposes and that all of the school age population be admitted to the provincial school. This means that all the kindergarten and primary children will receive an education in basic English at our own school and then be sent to the provincial school.

I now attach a memorandum from Inspector Davey with regard to this proposed joint school. You will note it is

impossible at the present time to secure an accurate estimate of the cost to the Department of this new school.

It is recommended that this information be placed before Colonel Fortier upon his return so that he can give the matter consideration and advise whether we should proceed with the negotiations.

Acting Director.

Re: Bella Coola Indian Day Schools

Superintendent Pruden has requested authority for an expenditure of \$60 for labor for painting the two classroom floors in the above-mentioned school buildings. He has secured a labor tender from an Indian, George Nelson, and states that an accountable advance will not be required.

He has not forwarded a copy of Mr. Nelson's tender, but I would recommend that he be authorized to have the work proceeded with on the understanding that the written tender will be forwarded so that a purchase order may be issued.

Miss A.M. Bray,
Senior Teacher,
Bella Coola Indian Day School,
Bella Coola, B.C.

Dear Miss Bray:-

Your letter of the 20th ultimo addressed to the Department of National Health and Welfare has been forwarded for my attention.

The matter of teaching boys boxing is very controversial and the modern trend in physical education, in school at least, is against such sports in so far as training for actual bouts and competitions. There are those teachers of physical education who hold that a scientific course in the noble art of self-defence is beneficial to the child. For your information I have written to the eminent authority on physiology, Dr. Arthur Steinhouse, whose paper on boxing I shall be glad to forward to you as soon as I receive it. However, your problem, as I understand it, is one with regard to your children boxing outside school hours, a matter which you can hardly control unless of course the children are hurt so much that it affects their academic standing or impairs their health.

In regard to the competency of the boxing instructor, there are of course several opinions on that question. If he is teaching physical education, the training would certainly be of benefit to the child, but if he is merely a boxing coach, he may be a successful one but there is no guarantee that the child will benefit.

The whole question of health teaching and physical education for the Indian population is under revision right now and I would suggest that before any action is taken on this matter you might discuss it more fully with me when I arrive in British Columbia some time this spring.

Sir,-

69/Schools

I have to acknowledge the receipt of your letter of the 1st instant stating that when visiting the Kanaka Bar and Boston Bar Reserves you were asked by the Indians if it were possible to have a school established at Boothroyds.

In reply I beg to say that, in view of your remarks as to the unsatisfactory attendance at the schools already established in your agency, the Department is doubtful about the expediency of opening a school at Boothroyds and will require some further assurance from you that this school, if opened, would have a fair prospect of success. The Indians, you state, are willing to put up a building if the Department will pay the salary of a teacher. Should they do so the Department will favourably consider their request.

Your obedient servant,

Sir,—

When visiting ~~North~~ and Boston Bar Reserves the Indian asked if it were not possible to get a School established at Boothroyds, this school to be kept up by Children from Boston Bar to Kanaka Bar.

There are no less than 35 small children that they are anxious to send to a day school.

The Indians say that they will build the school if the Department will pay the teacher.

Again yesterday I was ~~xxxx~~ waited upon by no less than 22 Indians from Boston Bar to Kanaka Bar, urging me to press the matter of establishing a school at Boothroyds, I told them that I was placing the matter before the Department, but I was very emphatic in explaining to them that at the present time there were two day schools in this Agency, which were far from full, and that I had the greatest difficulty in getting the parents to send their children to school, and I felt sure that if we established another school at Boothroyds that the same conditions would prevail there.

I may state here that I have found it impossible to make the parents send their children, so am going to take action under Sect 9 of the Indian Act.

I have the honor to be,

Yours obedient servant.

File No 421268 dated Oct 9th. 1912

Having reference to my letter of the 1st inst. and your reply of the above date, I would suggest that the matter of building a school at Boothroyds, or at least the supplying a Teacher for a School there, be allowed to stand over until I can more strongly recommend it.

I am perfectly well satisfied that the Indians will build the School, but as for a regular attendance, I will not guarantee.

There are no doubt plenty of children of all ages, and I impressed upon them the necessity of filling up the Schools that we have at present, and then apply to the Department for an extra School.

The Indians fully realized this and there and then they promised to send 20 of the older boys to St Georges School Lytton which is more than they can take, they promised to all meet together and decide upon the day on which they would take them up, and out of all of those only two came.

As soon as I can arrange time I will take another trip down there and see if I cant get some of these boys.

But I regret to state that there is a very bad feeling amongst the Indians towards Boarding Schools, and I wont send a child to them if they can get out of it.

Will report further on this matter later.

I have the honor to be,
Your obedient servant.

H. Graham.

Sir,-

I have received a letter from H. Graham, Indian Agent, Lytton, enclosing copy of letter which he wrote the Department with reference to establishing an Indian day school on the Boothroyd reserve of that Agency.

It seems to me that in view of the large number of children (30) on that reserve that might attend and that the Indians seem so thoroughly interested in the matter, there is every encouragement to give them what they ask.

I know there is a prejudice in certain quarters against Indian day schools, and I note that my predecessor was not in favour of them (Report 1913, page 508). That there are some good reasons for the disapproval I can readily see, but nevertheless I can also see a very wide field for usefulness in them when the spirit exists to give them a fair trial, and in this case it does seem to exist.

As for the teacher recommended by the Agent, I have every confidence in the capabilities of Miss Blachford whose work in the day school at Lytton interested

me very much. If any teacher can secure regular attendance and retain the interest of the pupils it is she. She has excellent control and marked ability to impart instruction. Besides, she has the advantage of speaking the Thompson language fluently and is most useful as interpreter. In fact it always seemed to me unfortunate that her services should have been lost to the Department in its work of Indian education.

I have no hesitation in adding my recommendation that the Indians of the Boothroyd reserve be given the school.

I beg to report that Miss Blachford the Teacher of the Boothroyd Indian Day School has just been in asking for permission to start school two weeks earlier and add those two weeks to the winter holidays.

I asked her to put her request in writing and I would forward to the Department, which she did, and I am now enclosing a copy of her letter.

I would strongly recommend that her suggestion be carried out, as I know what a difficulty some of the children had getting to School last winter, and by having these two weeks extra holidays, will help to get over some of the bad winter weather.

Trusting that I am have an early reply so that if it meets with the Departments approval, Miss Blachford may make arrangements to open the School.

Dear Sir.

I would like to suggest that the summer holidays of the Boothroyds Indian Day School be curtailed by two weeks, and these be added to the winter holidays.

My reason for suggesting this is that the Indians are inclined to forget what they learnt, and then it is much easier for them to come to school during the summer weather.

The parents will have finished their haymaking and the children will be doing nothing, and will be therefore better employed at School.

If the two weeks taken off the summer holidays were added to the winter holidays it will extend them a little over the bad weather when the snow is so deep and making it difficult for the children to walk the long distances some of them have to come.

I will be obliged if you will place this matter before the Department.

I remain

Yours truly.

Dear Sir,-

I beg to report that Willie Smith one of my pupils, who was doing very well has been taken away and sent to St. Mary's School at Mission.

I have seen the boy's father (Jimmy Smith) and he says he was never consulted nor has he been asked to sign any admission papers.

He also said that the boy had been christened by the Roman Catholic Priest without his consent as he is a Protestant and has had his younger children christened in the Anglican Church.

He would be pleased to have the boy brought back to attend the school here as he was well satisfied with the progress the boy had done during the short time since the school was opened and besides the boy was a help at home after school hours.

Hoping you will attend to this matter soon and trusting an early reply.

Miss Blachford, teacher of the Boothroyd Day School, has applied to me for permission to take the summer holidays during the month of July only, the remainder of the holidays to be put into the winter holidays and in that way take the whole of January.

Owing to the location of the school and the distance some of the children have to come, it is very difficult for them to attend during the winter and by lengthening the winter holidays it will help to get over the very bad weather during the month of January, besides it is found that the long holidays in the summer time unsettles the children very much for their work. Dear Sir:

I have to report upon the Lytton Agency No.5
as follows:-

x

x

BOOTHROYD DAY SCHOOL

There were 12 children in this school under Miss Blatchford. The school was in first class order, well kept and tidy. I examined most of the children in their work, and they seemed to be doing well and up to standard with good discipline. Nurse Borrowes was with me at the time and stated that practically every child in this school was infected with Trachoma.

BOOTHROYD RESERVE NO.6, DAY SCHOOL. I called in here and found twelve girls and seven boys under instruction of a Miss Blatchford. This school is apparently excellently run and Miss Blatchford is a first class teacher. The quality of the writing paper supplied to this school was complained of, and I examined same and found it very poor material for ink anyhow, being very porous with a scratchy surface.

Sir:

Mr. Inspector Cairns has recommended that, in view of the long and faithful service of Miss Lilly Blachford, teacher of the Boothroyd Indian Day School, she be granted an increase in salary. The Department is, therefore, pleased to approve of an increase of \$5 per teaching month from the 1st of September, next. This will make her salary from that date at the rate of \$95 per teaching month. Please inform her accordingly.

I have to refer to that portion of your report on the Boothroyd Indian Day School, dated July 17th, last, in which you recommend that the salary of Miss Lilly Blachford be increased.

In reply I beg to state that the Department cannot favourably consider this recommendation at the present time. The incumbent at this school has a high school entrance standing only, and the Department considers her salary is quite adequate for a teacher with her qualifications. I wish to assure you, however, that the faithful and efficient service of Miss Blachford is not overlooked. You will remember that in the last three and a half years her salary has been increased from \$600 to \$750, plus the bonus allowed by law. MEMORANDUM

Mr. MacKenzie,-

Replying to your inquiry as to the salaries paid in British Columbia to teachers in schools of the same class as the Boothroyd Indian Day School I beg to say that they run from \$600.00 to \$900.00 per annum.

Miss Blachford has no teacher's certificate, but her twelve years experience in Indian schools and the success with which she has met in her work would entitle her to an increase, as recommended by the Accountant. The Inspector speaks in high terms of her work.

The following will give an idea of the salaries paid at some of the schools in British Columbia,-

Cape Mudge	enrolment	14	Salary	\$700.00
Chehalis	"	35	"	750.00
Homalco	"	33	"	700.00
Katzie	"	19	"	800.00
Ucluelet	"	19	"	750.00
Kitkatla	"	34	"	900.00
Lakalsap	"	45	"	900.00
Metlakatla	"	39	"	900.00
Roche Deboile	"	24	"	900.00
Skidegate	"	30	"	900.00
Skwah	"	23	"	900.00

OK
sel

The majority of the teachers receive \$600.00 per annum, but I think that, in the case of Miss Blachford, the Department would be justified in granting her an increase of \$100.00, which would make her salary at the rate of \$700.00 per annum.

MEMO:

Mr. Scott.

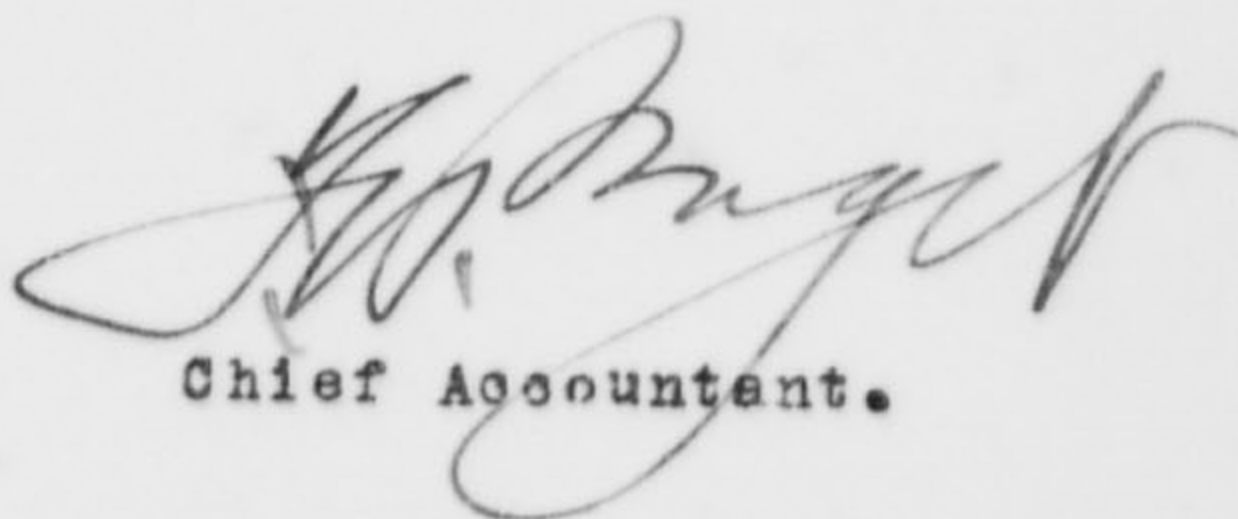

I wish to bring to your attention the case of Miss Lilly Blackford, Teacher, Boothroyd Indian Day School, Lytton Agency. Mr. Graham, the Indian Agent, has forwarded Miss Blackford's declaration as head of a household, in which she states she is the sole support of her father, 84 years of age, and two nephews aged 12 and 14 years respectively. She has been teaching Indian schools for 12 years and her salary is only \$600.00.

Mr. Cairns, School Inspector, reports that Miss Blackford is doing good and faithful work in the classroom, the pupils are making progress, they read remarkably well, spelling is accurate, knowledge of history of British Columbia is quite extensive, geography, composition, arithmetic and hygiene are receiving attention and the pupils write neatly and legibly. Order, cleanliness and discipline are satisfactory.

Miss Blackford speaks the Indian language fluently and visits the homes of the people being especially faithful in time of illness, using simple remedies and administering some medicines. She also teaches the women and girls cooking and sewing.

In view of the foregoing I would suggest that Miss Blackford's salary be increased instead of increasing her bonus. All school teachers receive a bonus of \$150.00 each with the exception of Miss Moffitt, Cape Croker, who is paid \$252.00.

Sir,—

Miss L. Blachford, the Teacher at the Boothroyd Indian Day School, has written me asking if the Department would consider an advance of \$600.00 on her salary, which she would pay back in three years, at 6% interest.

She needs this money to help in building another home, and purchasing enough furniture to live in it. Miss Blachford lost practically everything she possessed in the fire last September. She took years planning and saving to build her house and to furnish it, and when she was away on her vacation last fall it was burned at the same time so much of Lytton was destroyed. If she had been at home she could have saved a good portion of her furniture, but with so much else burning and everybody trying to save their own property, hers was absolutely cleaned up. She had some insurance but not sufficient to build again, as the rate of insurance is high in Lytton, too high for her to be able to afford more insurance.

She thinks if she could get this loan she could pay it back at the rate of \$200.00 a year, one hundred on her June cheque and one hundred from her December quarter cheque, each year for the three years, together with interest at 6%.

I advised her that I would place the matter before you although I could not give her any encouragement that she would get it.

Lumber is a way down in price at present and it would take much less to build right now than it may later on, which is why she would like to have a loan.

If possible, I would like to see her get this help, or there might be some other way you could assist her.

I have the honor to be,
Sir,
Your obedient servant,

(A. strang)
Indian Agent.

AIR MAIL

Dear Sir:

I am in receipt of your letter of the 9th instant in which you advise the Department of the death of Miss Lily Blachford, teacher of the Boothroyd Indian Day School.

If the Church authorities recommend the transfer of Miss Aylwin from Shulus to Boothroyd salary will be allowed her at the Boothroyd School at the same rate as was allowed the late Miss Blachford; namely, \$950.00 a year.

In the case of the new teacher, however, whether appointed to the Boothroyd or Shulus School, salary will only be allowed at the rate of \$850.00 a year.

With regard to the janitor services I find that we have been allowing \$50.00 a year at Boothroyd and \$30.00 a year at Shulus. This is an old arrangement made some years ago and I cannot see any reason for there being any difference in the amount allowed at the two schools. Possibly it would be fairer to allow in future \$40.00 at each of them. This would not increase the total expenditure. Please let me have your opinion regarding this suggestion.

Dear Sir:

Re Your File 165-22-1.

Mr. Indian Agent Strang will no doubt have informed the Department of the death of Miss Lily Blachford, teacher at Boothroyd Indian Day School. Miss Blachford became ill in January and went to Kamloops for treatment. She was subsequently moved to St. Paul's Hospital, Vancouver, where she died on March 1st.

B. 950
P. 900
Miss Blachford did good work for the Department; she was intensely interested in the Indian people and greatly devoted as teacher to the pupils under her charge. She will be greatly missed by the children of the Boothroyd School and by the Indian people of the central sections of the Agency who knew her well and regarded her work highly.

I have been informed that Miss Edith Aylwin, teacher at Shulus Indian Day School, might possibly consider a transfer to Boothroyd. The Church authorities have the matter of a nomination for Boothroyd in hand and should Miss Aylwin decide on a transfer to Boothroyd, the new nominee would be available for Shulus.

In the event of Miss Aylwin going to Boothroyd, what would her salary be there and what would be the rate of pay for a new teacher at Shulus? It is understood that an amount is provided for janitor service at these schools and I should appreciate being informed what this amount is in each case.

An early reply would be appreciated.

EXD.

Dear Sir:

I have your letter of the 29th ultimo in which you advise that Miss Lily Blachford will be unable to return to duties as teacher of the Boothroyd School for several months.

It is noted that you are in communication with the Church authorities in order to have them nominate a qualified teacher to take charge of the school during Miss Blachford's absence. Please let me know the name, qualifications and experience of the teacher nominated by them.

The salary schedule of teachers of Indian day schools has recently been reviewed by the Minister's office and the opinion has been expressed that our salaries are higher than those paid in rural white schools. Miss Blachford has been in our employ for several years and her salary was increased until it reached the amount of \$950.00 a year. However, for the substitute teacher we will only be able to allow payment at the rate of \$850.00. It is hoped that you will be able to obtain the nomination of a teacher for this school at an early date so as to have the school re-opened as soon as possible.

I enclose staff questionnaire which you should have the new teacher complete and return.

Dear Sir:

Your File 165-26-1.

With reference to your letter of February 12th, I beg to advise that Miss Lily Blachford, teacher at the Boothroyd Indian Day School, will be unable to resume her duties for some considerable period. Recent reports would indicate that Miss Blachford is quite ill and her return to Boothroyd as teacher in less than six months is highly improbable.

In view of the good work done by Miss Blachford at Boothroyd it has been suggested that she be granted leave of absence without pay for the balance of the current school year, and I should like to recommend that such action be taken.

This school is kept open during the months of July and August, the usual vacation being taken in September and January. Ordinarily, therefore, this school would have six months to go before the first vacation period in September and it is important that a suitable teacher be secured to replace Miss Blachford at the earliest possible date. Inspector Barry is due here tomorrow when the question of a teacher for Boothroyd will be discussed and referred to the Church authorities concerned for a nomination.

Dear Sir,- Your file 15/7/3716.

In reference to your letter of January 27th I beg to advise that Miss Blachford entered the hospital in Kamloops on about the 21st or 22nd of this month I believe. The Burris Clinic of Kamloops wrote me on the 22nd advising that Miss Blachford had asked them to tell me she would be off work for a month.

The month of January is taken as vacation period instead of during the summer months at Boothroyd school and it will mean that Miss Blachford will only be absent from the school for three weeks of February and I am sure that she will not be absent more than the month,- probably not as long because she is very interested in her work and is anxious to move into the new building as soon as possible.

I would not recommend a substitute be employed during Miss Blachford's absence because there are no facilities for living accommodation at Boothroyd and Miss Blachford's personal belongings are all in her living quarters in the old school. As mentioned in my previous letter, Miss Blachford will, in all probability, make up for the time lost by working a day or so here and there during the remainder of the term.

I trust this recommendation will meet with your approval.

Dear Major MacKay:-

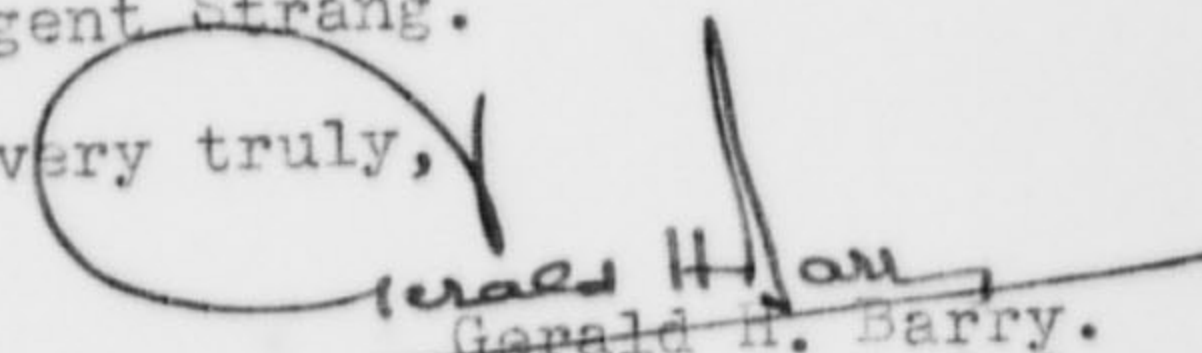

I have read a letter 14-1-1956 dated January 30th 1940 from Mr. Indian Agent Strang in which he explains the necessary absence of Miss Blachford, teacher of the Boothroyd Indian Day School, Lytton Agency, from her school.

During July and August this school is kept open and the usual vacation period taken in September and January. In September the Indians are away from the local Indian Reserves and in January the snow is as a rule so deep that the little children are unable to attend school.

I agree with the Indian Agent that it would be almost impossible to arrange for the accommodation of a substitute teacher.

I may add that in any case it would be impossible to obtain an Anglican substitute at the present time. I have no such teachers on my list and am quite unable to locate any to fill the vacancies existing in the northern part of the Province. I would therefore recommend that the Boothroyd Indian Day School be closed as suggested by Mr. Indian Agent Strang.

Sir:-

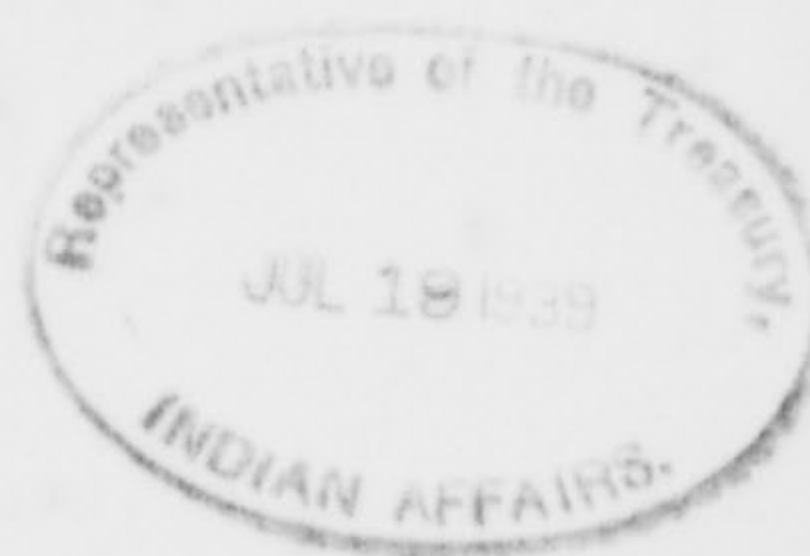

I have a request from Miss Blachford, teacher at Boothroyd Indian day school, that her salary cheques for the months of July and August be forwarded to her not later than August 28th as she wishes to leave soon after that date for her annual vacation. EX'D.

Ottawa, November 3, 1937

Dear Sir:

With reference to your letter of the 25th ultimo, it is regretted that payment was not previously made to Miss Blatchford for her services as teacher of the Boothroyd School for the months of July and August last.

Payment for these two months will be included with her November salary. At the end of the present month, a cheque for \$285.00 will be sent to her.

Yours truly,

R. A. Hoey,

MEMORANDUM:

Representative of the Treasury

Miss L. Blatchford, teacher of the Boothroyd Indian Day School, takes her holidays in January and September each year and teaches during the months of July and August.

A report from the Indian Agent shows that she took her holidays in January 1937 and September 1937 and taught during the months of July and August 1937.

The school re-opened on October 1, 1937 and payment was made to her for that month, but no payment has yet been made for the months of July and August; consequently on the November payroll she should be allowed \$285.00 (payment for months of July, August and November, 1937).

Dear Sir:

Miss L. Blatchford, teacher of the Boothroyd Indian Day School, has advised me that she has not as yet been paid her salary cheque for the months of July and August. Miss Blatchford teaches through July and August, giving holidays during the month of September, because of the Indians away hop picking, and during January as the weather is very cold and the roads are usually impassable.

I respectfully recommend the Department give this attention.

Dear Sir;

A short time ago I received from Mr. F.R. Shenstone, Duncan, V.I., B.C. an application in regard to the Boothroyde School. Since then I have received letters in his favour from the Rev. T.L. Hipp of Chemainus, and also from J.L. Watson, Registrar of the Dept. of Education, Victoria. The former says,

"You would not have cause, I am sure, to regret appointing him as teacher."

The latter says,

"Mr. F.R. Shenstone of Duncan is a University graduate, and has had some experience as a teacher in schools under the provision of this department. The greater part of his experience has been in High Schools where his work was entirely satisfactory. His last appointment was in the Little Qualicum Elementary School, a position which he was obliged to give up because of ill-health. I am of the opinion that Mr. Shenstone will give satisfactory service."

I am writing to Mr. Shenstone, telling him that I am nominating him for the position of teacher at Boothroyde School. In a letter to Captain Barry, a copy of which he forwarded to me, he says, "If you consider my application favourably, I would be glad to have some details as to accommodation at Boothroyde, the salary paid, and any essential facts." I believe that you are in a better position to go into that with Mr. Shenstone than I am. I have not visited the school and know the little that I do about the new building and quarters from others.

Trusting that this nomination will be agreeable to your department,

Yours faithfully

Dear Sir:

The Department is in receipt of a letter from Indian Commissioner MacKay in which he states that the Bishop of Cariboo has nominated Mr. F.R. Shenstone as teacher of the Boothroyd Indian Day School.

The appointment of Mr. Shenstone is approved and he will be allowed salary at the rate of \$850.00 a year.

I enclose staff questionnaire which you should have Mr. Shenstone complete and return to the Department as soon as he begins duties. At that time you should advise the Department the exact date on which Mr. Shenstone takes charge of this school as his salary will commence then.

Dear Sir:

Your File 165-26-1.

With reference to your letter of April 2nd to Mr. Indian Agent Strang, I beg to advise that Mr. Shenstone declined to accept the nomination as teacher at Boothroyd Indian Day School. Canon Bushe has now submitted the names of two teachers for the position and these will be placed before Inspector Barry when he returns to this office on the 10th instant for his recommendation, which I consider desirable in view of the fact that one of the nominees was adversely reported on by him a few months ago.

The Department is aware that the residence section of the new school at Boothroyd is unfurnished. The late Miss Blachford owned the furniture in the old school and this was removed by her heirs, following her death. It is most likely that some assistance will have to be given by the Department to furnish the teacher's quarters at Boothroyd, and I should appreciate authority to purchase plain furniture and kitchenware up to an amount of \$200 for this purpose. This was the amount authorized in the case of Bella Bella and Pemberton and was found to be sufficient. I should like to have the Department's decision in this respect at an early date.

Dear Sir:

Your File 165-26-1.

With reference to my letter of June 7th regarding the vacancy at the Boothroyd Indian Day School, I beg to advise that the Rev. Canon Bushe, acting for the Bishop of Cariboo, has submitted the names of the following teachers for the position:

Mr. John F. K. Lidstone, 2708 Thompson Avenue, Victoria, B.C.
Miss Phyllis Arrowsmith, Kingcome Inlet, B.C.

85
I discussed these nominations with Inspector Barry who informed me that Miss Arrowsmith, at present our teacher at Kingcome Inlet Indian Day School, is being recommended by Bishop Rix for one of the northern schools, and that he considers this would be a much more suitable and satisfactory arrangement than her transfer to Boothroyd. Under these circumstances I would recommend that the Department favorably consider the appointment of Mr. Lidstone to the position. If Mr. Lidstone is appointed, he will arrange for his mother, who is a widow, to live with him at the school.

Copies of letters from Canon Bushe nominating the aforementioned are attached.

I desire to refer to your letter of the 30th ultimo, enclosing Inspector Barry's report on his inspection of the Boothroyd Indian Day School.

If you can arrange the interchange of teachers we have no objection. However, it is difficult to understand why Mr. Barry considers it preferable to send a female teacher to a place which is too isolated for a male teacher. It would appear that the better course to take would be to appoint someone in Mr. Lidstone's place. It is unlikely that he will be a very successful teacher when Mr. Barry's report shows that he has not sufficient energy to purchase in advance the food which he will himself require.

From this is deducted 2% National Defence tax as it is presumed Mr. Lidstone is unmarried. In addition 5% is deducted from the salary of every teacher appointed since September 1, 1939. This amount is funded, interest allowed, and when Mr. Lidstone leaves our service it will be refunded to him. Sir,-

I herewith beg to enclose a letter from Mr. John F.K. Lidstone, teacher at the Boothroyd Indian Day School, which is self explanatory.

Mr. Lidstone, being on the strength of the Canadian Militia need only attend the two weeks training period this year from May 17th to 31st whereas if he should allow himself to be taken off the strength of the Militia, he would be subject to a call for the four months compulsory training at any time, which would seriously interfere with his teaching at Boothroyd School. In view of this and the time being so short, I am taking the liberty of notifying Mr. Lidstone that he should attend the training period with his Company during May 17th to 31st and that he can keep school open the first two weeks in July to make up for the time so lost.

I trust the Department will approve of my action in this matter.

Dear Mr. Strang:

The Major of my company, R.M.R., informed me to-day that, due to my absence from parades since last October, he would have to strike me off strength if I did not attend this year's training period-May 17 to 31.

This would mean that I could be called up any time next month or after for the four month compulsory training period as I am twenty one in May. In which situation I should have to miss one month of school at the least.

It would, I think, be more convenient both for myself and for the school if I could attend the May camp. If you think I should take the time off in May, would you be kind enough to ask the Department for a leave of absence for that period. If, however, you would rather I waited and took the compulsory training, I would be glad to.

I have to make my decision known to the Major by Tuesday, however, so that if leave is impossible or if you would rather I did not take the time off in May, would you please telephone Kamloops 733L (collect) and I will ask him to strike my name off the camp role.

Very sorry to have taken up so much of your time with such an irregular request.

We will not be able to allow him salary for this period but at the same time I doubt the advisability of keeping the school open for two weeks in July. Sir,-

I herewith acknowledge receipt of Departmental letter No. 165-26-1 dated at Ottawa, April 22, 1941 approving my action in allowing Mr. Lidstone the necessary special leave for military training.

With regard to my suggestion that Mr. Lidstone keep school open the first two weeks in July to make up for the two weeks the school will be closed during May when he is at military camp, Mr. Lidstone informs me that he is obliged to attend Summer School and will not be able to keep school open as suggested by me.

Had Mr. Lidstone been able to keep the school open during the first two weeks in July I would have no hesitation in giving my assurance that the children would attend. Mr. Lidstone has excellent control over the children and is well thought of by children and parents alike on the Boothroyd Reserve.

Your obedient servant,

A. Strang,
Indian Agent.

Dear Mr. Strang:

I wish to tender my resignation as teacher of the Boothroyd Indian Day School. When I left the school in July I had every intention of returning, however, I have just recently received a wire offering me a position which, because of an increase in salary and other benefits, I felt I should accept. As my decision had to be made by return wire I had to decide without consulting you.

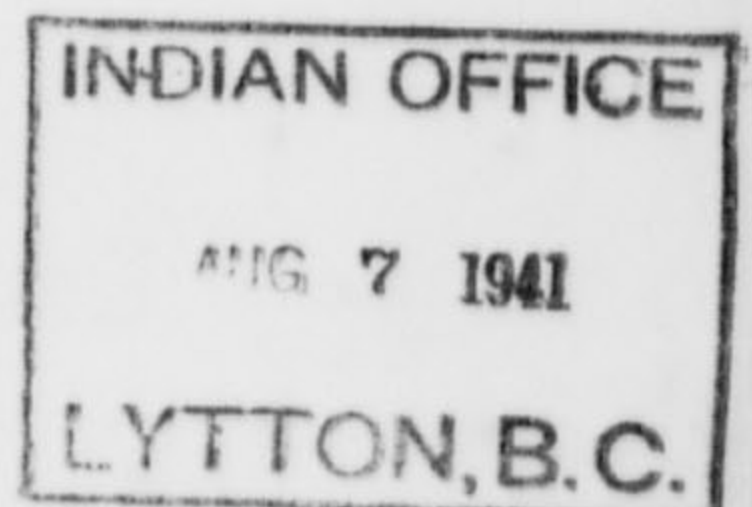

I must say I enjoyed teaching at Boothroyd and would recommend the school to any other teacher who may be considering the position.

Would you mind if I spent a night at the school in the near future in order to ship my belongings home? I would also like to pay the girls who are caring for the garden at the time. If Mr. Garland has forwarded you the other school key would you mind if I kept mine until after I have visited the school?

If you have any difficulty in finding a teacher, I would be only too glad to help you locate one. Thanking you for your kind help and advice during my teaching year, I remain,

Yours very truly,

John F. K. Lidstone

AIR MAIL

Dear Sir:-

I have just received a letter from the Rt. Rev. W.R. Adams, D.D., Bishop of Kootenay, who in consultation with the Reverend the Administrator of the Diocese of the Cariboo, nominate as teacher at the Boothroyd Indian Day School, Lytton Agency, Mrs Winifred B. Raieson
1738 Leighton Rd. VICTORIA, B.C.

Bishop Adams states that excellent reports have been received from those whom Mrs. Raieson gave as references.

This lady is a widow without children. She has taught for many years having been educated in England. She came to Canada in 1919 taught school in Saskatchewan and took the Normal School course in Regina. Mrs Raieson came to B.C. some three years ago and has been engaged in private teaching. She is a member of the Church of England, Anglican.

Mr Indian Agent Gillett interviewed the above mentioned teacher in Victoria a few days ago as teachers are required in his Agency. He reported to Inspector Barry that Mrs. Raieson had a good personality.

Inspector Barry has had several letters from Mrs Raieson and informs me that he believes she would do very well at the Boothroyd Indian Day School.

I would recommend her appointment as teacher at Boothroyd, and request that the Department's decision be communicated to me by Air Mail, mentioning the salary that she will be allowed at that school.

Yours faithfully,

I am in receipt of your letter of the 16th instant, with reference to the illness of Mrs. Raison, teacher of the Boothroyd Indian Day School. It appears from your letter that it may be some time before she returns to duty. Our usual practice is to allow one month's leave with pay, in case of illness, to teachers who have been in our employ for over a year. Regarding Mrs. Raison, she has been employed since October 1, 1941, and it has been decided to allow her salary until the end of December. If she is unable to re-open the school after the Christmas holidays, no salary will be allowed her from January 1 until the date she returns to duty.

 I note that you are communicating with Mr. Strang regarding his suggestion that the school be closed for the month of January and kept open for the month of July. There are so many reasons against this procedure that the Department will require very strong evidence that it is advisable before approving the suggestion.

The Commissioner of Indian Affairs,

Dear Sir:

May I refer to your favourable consideration, the case of Mrs. W. Raison, who is teaching at the Boothroyd School. There she is doing very excellent work with the Indian children, and if she left the School, we might have difficulty in replacing her and the School would probably close down.

She is now contemplating marriage with a man who is employed at an airport two miles away. She desires to continue teaching at the School, and, when married, would live at the School house during the week and spend the week ends at the air port house, where her husband would be compelled to live.

We have been given to understand that it is the rule of the Indian Department that married teachers should not be employed to teach in the Indian Schools. If this is indeed so, we would like to suggest that in the case of Mrs. Raison, who is indeed an excellent teacher, and under the present war conditions of a scarcity of teachers, that an exception to this rule should be made and that Mrs. Raison should be allowed to continue teaching in the Boothroyd School.

Trusting that you will be able to give this suggestion your favourable consideration.

Yours very sincerely,

"Frederick Cariboo".

From personal observation I find
that Mrs. Raison is a very good teacher and well
thought of by the children and their parents. She
has excellent reports from the School Inspector on
her capabilities as a teacher. The fact of Mrs.
Raison's intended marriage should in no way interfere
with her duties as a teacher, but should prove a benefit
as her intended husband who is in charge of the
emergency air port some two and a half miles distant
is very friendly with the Indians and has often
proved of great assistance when her forced isolation
has been a source of inconvenience.

Mr. A. Strang, Indian Agent, Lytton, B.C.

We have just received Mr. McArthur's report regarding his inspection of the Boothroyd School on March 17. On that date there were only six children present. In view of the shortage of teachers the Department considers that it is not advisable to operate a school for such a small number of children. Are all the children of school age enrolled and, if not, what steps have been taken to have them enrolled and at the same time have them attend the school regularly? What are the prospects of additional attendance at this school in the very near future? An immediate, complete report would be appreciated, in order that the Department can decide what action should be taken for the academic year 1944-45.

Boothroyd Indian Day School,

March 28, 1944.

The Indian Agent,
Lytton, B.C.

Dear Mr. Strang:

I have just received my Inspector's report on his visit to the above School last Friday March 17th.

There is one sentence to which I would like to draw your attention: "No cooking in being taught". "I consider this regrettable". I feel that this remark deserves some explanation.

The girls of this School have always been taught cooking until this year. At present, only two have not done any actual cooking because I feel they are too young, being only ten years old and in the junior grades, they have time yet to do what cooking is expected of them.

I have taken up fully, every health and nutrition and various projects with the boys and girls in an indirect way every day. They enjoy these talks and when filling in their daily health books for the Junior Red Cross I find that they are living very well. When visiting their homes I find that they are drinking milk from cows instead of from cans, eating lots of vegetables and fruit, both canned and raw apples, and fresh laid eggs as they all keep hens, fish and plenty of bread, bacon and stews etc.

I can assure you a day in our School is a busy one - not a moment is lost from the time the Union Jack is hoisted in the morning at 8:45 A.M. until taken down at 4 P.M. As closely as possible I follow the B.C. Course of Study. The children love their School, keep it clean, and together we all keep everything in repair.

I hope I have explained to you as I am afraid the above sentence might cause a little misunderstanding which I would not like to happen as my work in the School is conscientiously carried out.

Yours truly,

"Winnifred E. Raison"

I beg to acknowledge receipt of Departmental letter of the 29th ultimo with reference to the small number of children attending to the Boothroyd Indian Day School. In this connection I wish to report that there are seven children registered and attending school regularly, exceptions being only in the case of sickness as was the situation when the Inspector visited the school on March 17th, one child being home, sick. At the present time, all available children of school age are enrolled. However, there will be an addition of four beginning at the opening of the next academic year, making a total of eleven. It is expected that the enrollment will increase when the families return to the Reserve, many of them now being engaged in essential war industries away from the Reserve.

Education

Boothroyd Day School:

The teacher, Mrs. W.E. Milton, lives in the quarters attached to the school. The grounds and school are neat and clean and the children are making good progress. In the Latham Foundation Poster Contest for the Promotion of Humane Education a 2nd Prize in Group 1 was awarded Hawardy McCarty and certificates of merit were awarded several other pupils of the school.

WELFARE & TRAINING

Education:

Boothroyd Day School: The teacher, Mrs. Milton, continues to do excellent work with the pupils of this school although she has been handicapped by poor attendance for the past month. Many of the families of this Reserve are absent and those remaining do not make any serious attempt to have their children attend regularly. This condition is receiving the attention of the writer and a report will go forward at a later date. Wood for the school has not yet been received.

Dear W. Strang.

Will you please
accept my resignation as
teacher of the above named
School: at the end of the term
Dec. 31. 45. When engaged by
the Commissioner in Vancouver -
I was asked to teach at this
School. & I am sorry but I was
not given any authority to order
supplies of wood for the School.
I have always tried to co-operate
with you in every way in
improving the status of this school
district, but cannot accept
the responsibility of outside work

Major D.M. MacKay, Indian Commissioner for B.C.,
P.O. Box 70, VANCOUVER, B.C.

I beg to forward herewith a
resignation submitted me by Mrs. W.E. Milton,
teacher of the Boothroyd Indian Day School.

It will be noted that Mrs. Milton
states that she cannot accept the responsibility
of outside work. In this respect I beg to advise
that, in view of the difficulty in getting the
Indians to cut and deliver fuel to the school, I
had asked Mrs. Milton to cooperate with me and use
her influence in having wood delivered. Mrs.
Milton has evidently taken exception to my request.

In view of increasingly poor attendance
at this school I would respectfully recommend that
Mrs. Milton's resignation be accepted.

I enclose herewith Mr. Indian Agent Strang's letter of December 3rd and a letter dated November 28th from Mrs. W. E. Milton tendering her resignation as teacher of the Boothroyd Indian Day School effective December 31st, 1945.

I may say that I have had under consideration for some time a recommendation for the closing of this school as during the current term the average attendance has only been 3.7. The question of the admission of some of the pupils to the St. George's Indian Residential School is at present under discussion with Mr. Strang and I would recommend that Mrs. Milton's resignation be accepted and that the school be closed until such time as sufficient pupils are available to warrant re-opening it.

With reference to your letter of the 7th instant, the Department accepts the resignation of Mrs. W. E. Milton as teacher of the Boothroyd Indian Day School, effective December 31, 1945.

It is noted that the average attendance is so small that you consider the school should be closed. I agree with this decision and, if possible, you should arrange to have the few children who are attending Boothroyd enrolled at the St. George's Indian Residential School.

Boothroyd Indian Day School: Owing to a lack of possible attendance at the Boothroyd School it was recommended by the writer in the month of December that the school be closed. Future prospects with regard to attendance are not good. These Indians have become decidedly transient in the last year or so and many of their children are pupils of the local residential school.

In the month of December, however, the resignation of the teacher, Mrs. Milton, was accepted and the school closed as a result of the poor attendance.

Boothroyd Indian Day School.

The Department is taking a review of the files concerning Indian Day Schools which have been closed during the war years.

One of these schools is the Boothroyd Indian Day School in the Iytkon Agency.

This school is a modern building and presumably is one that we should re-open when a teacher is available. It was last used for school purposes in the academic year 1945-46 and we would request that an investigation be made to ascertain if it can be re-opened. A copy of this letter is being sent to Mr. Indian Superintendent Strang.

Sir:

I beg to acknowledge receipt of your letter dated September 23rd, in regard to the September quarter return of the Boothroyd Indian Day School, which I forwarded to you on the 8th instant.

In regard to the way this is paid, I beg to say that the Department wrote a letter to Mr. Graham, then Indian Agent at Lytton, telling him, that although Miss Blachford did not work the full quarter between the 1st of January and the 1st of April, she was to be paid the same as if she did, and that her September quarter salary was to be paid as if she had been teaching only the one month, the same as other school teachers were, as the Department wished to have the payments made the same in all cases. We did not expect to get any more than the one month's cheque for September quarter.

The letter to Mr. Graham mentioned above was destroyed when the Office was burnt, so I cannot give either the number or the date, as it was several years ago.

With further reference to my letter of the September 29th, in reply to yours of the 23rd, I beg to say that I saw Miss Blachford, who has now returned from her vacation. She says that she only received two months pay or \$190.00 for the March quarter, and thought she would get two months for the September quarter. She says that this was done in 1930, and she thought she was being paid the same way this year. She says the Department owes her for one month's pay or \$95.00.

Sir,-

I beg to acknowledge the receipt of your 10289-01-2 of the 5th instant, with reference to the payments of salary made to Miss Blachford, teacher of the Boothroyd Indian Day School. For your information, the following statement is given regarding payments during the school years 1929-30 and 1930-31:-

December quarter, 1929	-	\$285.
March quarter, 1930	-	190.
June quarter, 1930	-	285.
September quarter, 1930	-	190.

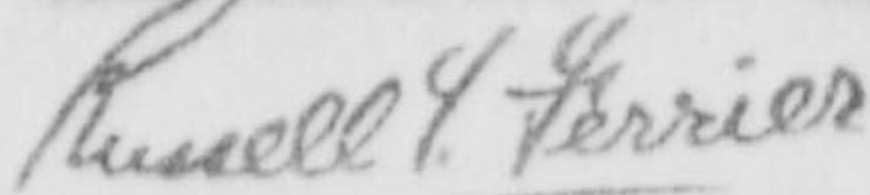

Total for school year 1929-30
(10 months @ \$95 per month) - \$950.

December quarter, 1930	-	\$285.
March quarter, 1931	-	285.
June quarter, 1931	-	285.
September quarter, 1931	-	95.

Total for school year 1930-31
(10 months @ \$95 per month) - \$950.

The Department regrets that an error was made in March and that the teacher was overpaid one month's salary at that time. Our records distinctly show this and Miss Blachford must have forgotten the amount of the cheque which she received at that time. You will, also, see from the above statement that, during the school year 1929-30, two months' salary was paid for the March quarter and two months for September. There is, therefore, no further balance due Miss Blachford for the last school year.

Sir:-

I beg to acknowledge receipt of your letter of October 14th, in reference to Miss L. Blachford's salary, which she thought had not all been paid to her.

I showed Miss Blachford your letter and she said of course she must have been mistaken, but as she lost her home and about everything she had in the Lytton fire, probably owing to excitement and worry she got mixed up.

She says she would be very much obliged if you could arrange to pay her the same as you did in 1930, namely, two months salary in March quarter, and two months in September, which would make it much easier for her. It makes it bad to only get one month's salary in the September quarter as she needs the money for two months during her vacation.

She also made the suggestion that it would make it much easier for teachers if they were paid the same as other employees, that is once a month, instead of every three months. In her case she has groceries to pay for, and the storekeepers don't like waiting the three months for their pay. The other teachers are of the same opinion.

I would like to suggest that her idea be given consideration.

Sir:-

I herewith beg to enclose a letter from Miss L. Blachford, teacher at the Boothroyd Indian Day School, asking for an advance on her December Quarter salary.

In reference to this I beg to say that just at present she is at a big expense owing to having to rebuild on her Lytton property since the fire last fall.

Under the circumstances I would like to recommend that she be allowed this advance.

L. AUDITOR GENERAL

Ottawa, July 28th., 1933.

Schoff
Dear Sir,

Re Overpayment Teacher's Salary, Vote 201,
1932-33

The salary of Miss Lily Blachford, teacher at Boothroyd Day School for the past fiscal year was \$950.00 less ten per cent. She was paid as follows:

3 m. to June 30, cheque 1948	\$256.50	
2 m. to Aug. 31, " 3295	171.00	
(school closed September)		
3 m. to Dec. 31, cheques 5000 & 6415	256.50	
3 m. to Mar. 31, cheque 5016	256.50	\$940.50

A notation appears on the voucher for the September Quarter to the effect that the school in question was open during July and August, and that annual holidays would be taken during September and January. As Miss Blachford was paid her salary for the month of January an overpayment of \$85.50 appears to have been made.

If this is the case, will you please have the necessary refund made as soon as possible.

Yours truly,

A. H. Meunier

Ottawa, August 1, 1933.

Sir:

I am directed to acknowledge receipt of your letter of the 28th ultimo, with reference to payments made to Miss Lily Blachford, teacher of the Boothroyd Indian Day School.

Teachers of Indian day schools are paid on the basis of ten teaching months in the academic year, which begins on September 1st each year and ends on the following June 30th.

Instead of taking two months' holidays during July and August, 1932, the teacher was authorized, owing to local conditions, to take one month's holidays during the March quarter of that year (see special notation on March quarter voucher) and one month's holidays in the September quarter. The following statement will, no doubt, explain the matter plainly to you:

Academic year 1931-1932:

September Quarter, 1931	-	Paid for 1 month
December " , 1931	-	Paid for 3 months
March " , 1932	-	Paid for 2 months
June " , 1932	-	Paid for 3 months.

Academic year 1932-1933:

September Quarter, 1932	-	Paid for 2 months
December " , 1932	-	Paid for 3 months
March " , 1933	-	Paid for 3 months
June " , 1933	-	Paid for 3 months.

Total for two academic years 20 months.

You will note from the above that there are twenty months in the two academic years, and, therefore, no overpayment has been made to this teacher.

Your obedient servant,

J. D. Sutherland

In reference to cheque sent to me for Miss L. Blachford's quarterly salary, I beg to state that Miss Blachford only teaches February and March in this quarter, as the snow in January is usually so deep it is impossible for the children to get to school, and this winter was no exception as it was over five feet on the level.

She makes up for this by teaching the month of July. She also teaches in August as school closes in September for hop picking. The Department pays her the full three months' salary at the end of March, but only one month at the end of September, so that the schools will be paid in the same way as the teachers of other day schools.

Sir:

I have received a request from Miss Lily Blachford, teacher at the Boothroyd Indian Day School, that her salary for the months of July and August be forwarded to her not later than August 27 as she leaves soon after that for her annual vacation.

Owing to climatic conditions, Miss Blachford teaches during the months of July and August and closes the school in September and January.

As Miss Blachford is of rather limited means, it would be appreciated if her request could be acceded to.

LYTTON AGENCY INSPECTION REPORT. NO. 9. (Cont'd)

7 SCHOOLS:

I visited the Day School at Boston Bar, under the teacher, Miss Blatchford, on the 20th June. There were 19 children in the school at the time of my visit, out of a roll of 21. I found the children in this school speaking up well, and seemed alert and intelligent. Both the higher and lower grades read very well and seemed to understand what they were reading. The children also gave me a demonstration in arithmetic which was quite good. I think this little school is a credit to Miss Blatchford. A new school house is very badly wanted. I should take it to be a very old place. The foundations have gone, and so has the floor. I do not think, therefore, that it is worth patching up. I might also add that Miss Blatchford informs me that there are three additional pupils who will be ready for her in the fall.

Sir:-

Miss Blachford, the teacher at the Boothroyd Indian Day School, has asked me to write the Department to see if there is any chance of a new building being put up for this school this year.

The present building is in a very bad state, literally falling to pieces. It leaks in a dozen places at least, and it will be impossible for them to put in another winter in the building in this state.

When Dr. E. L. Stone was there on his way to the coast he agreed that it was a very poor building for a school.

Sir:

I have your letter of the 6th instant, enclosing a communication from the teacher of the Boothroyd Indian Day School, in which she requests that a cook stove be supplied, for use of the teacher's living quarters and the cooking class. The Department has noted the cost of the stove required, as per the cut which you enclosed.

In reply I have to say that you may arrange for the purchase of a stove, as required by the teacher, at an estimated cost of \$53.25, plus freight charges to the school. Please obtain an account, in triplicate, covering the cost, together with receipt for any freight charges. You should attach the account to proper voucher forms, certify in the usual manner and forward for payment, with freight receipt attached.

Heats and Cooks to Perfection!

Acme Heater and Cooker

This deep firebox Heater and Cooker is certainly taking the fancy of the home that requires large capacity combined with an oven for cooking and roasting and top for other cooking.

During the warmer weather an auxiliary cast-iron grate for wood burning is supplied making it no hotter to operate in summer than an ordinary range.

The polished cast-iron cooking top, nickel-plated edging on front of cooking top, and White Enamel and nickel-plated trimmings all combine to make a most attractive range, which is fit for any kitchen.

Deep oblong firepot 16 ins. long, 7 inches wide, 12 ins. deep, brick lined. Extra wood grate raises fire up closer to lids when desired.

Cooking top, not including reservoir, 21x21½ inches. Has six 8-in. covers. Body of high-grade rolled steel.

Copper reservoir holds 5 Imperial gallons.

Oven 18 inches deep, 16 inches wide, 11 inches high, with one rack and thermometer in door. Three individual shaker grates.

Takes 7-inch stove-pipe. Burns coke, coal or wood.

Sir:-

I herewith beg to enclose an application from Miss L. Blachford, teacher at the Boothroyd Indian Day School, asking for a cookstove.

Miss Blachford teaches cooking, preserving, etc., and should have a good stove for this purpose, and as she states the one she has been using for many years, which she owns, is completely worn. She is not in a position at present to purchase one herself, and feels that one should be provided by the Department owing to the fact that she teaches Domestic Science.

I would like to recommend that this stove be purchased for the school.

Dear Sir:-

Will you kindly apply to the Department for a medium sized Cook-Stove as mine is completely worn out.

Remember that this was mentioned last year when Capt. Barry was here inspecting the school and he said he'd recommend that I be supplied with one seeing that I was teaching the girls Domestic Science.

Do you think the Department would supply one like the enclosed clipping (price \$33²⁵) with a reservoir on side and with a wood and coal grate.

Trusting that you'll be able to get this and thanking you for your kindness.

I am

Yours Respectfully,

Boston Bar Day School.

I went into this day school which is under Miss Blatchford. On the date of my visit there were only four children, with fourteen away attending a funeral. I found, as usual, the standard of the children good. This day school wants rebuilding, or a new one erected. The floor is all gone, as probably are the foundations, and I don't doubt, if repairs were attempted, it would be found that the sidings of the school have also perished. It would probably be cheaper to rebuild.

Dear Sir:-

I would respectfully recommend that authority be granted for the following expenditure in repairing and assuring a more steady supply of water for the Boothroyd Indian Day School.

The following is needed: 858 feet of galvanised iron pipe at $8\frac{1}{2}$ cents per foot, 1 faucet, \$1.10, and one stop and waste cock, \$1.10.

Groceries for Indians whilst working at putting this in, would be \$10.00.

The Indians are willing to supply the labor and only require a lunch being furnished, as many will come several miles to work.

The present pipe is all broken and burst from freezing last winter, the road construction also apparently having left the pipe exposed. The present supply of water dries up in July and August, and it is desired to supplement the supply from another spring close by.

This school remains in session throughout July and August, and there is at present no water, so I would strongly recommend this work be done.

Sir:-

I herewith beg to enclose requisition for articles for use at Boothroyd Indian Day School.

In regard to the door mat, the teacher states that a bush-tail rat made a nest out of the one they had, which is just the thing this sort of a rat would like for its nest.

The sledge hammer handle is needed in breaking up lump coal.

The stove pipes are most essential as there is no proper chimney for the school and if the pipes are not renewed regularly, fire is the consequence.

Trusting that the Department will allow these articles at an early date,

I have the honor to be,

E X T R A C T from Inspector Barry's Report
regarding his inspection of the BOOTHROYD INDIAN
DAY SCHOOL on March 22nd, 1937.

Original on File 165-26-6.

I would ask that, if possible, a new
Indian day school with teacher's rooms be constructed
at Boothroyd as soon as possible.

Should it be possible to build this much
wanted school, the plans used at Kitselas Reserve
in the Skeena River Agency would prove quite suitable
with possible slight modifications. Two or three small
rooms for the use of the teacher are necessary. The
local Indians could no doubt build a very suitable
school from these plans if supervised by one white
foreman.

General Remarks:

The following Crown School Single Desks are now most urgently needed, far more so in my opinion than in any other school in British Columbia.

The present desks are double, so old that we do not know just where they came from, and tied up with string and wire. The teacher's chair is just as useless.

To aid various officials of the Department I am listing the actual desks required:

Crown School Single made in Vancouver:
No. 4 1 only Front 3 Desk Sections 1 only Rear
No. 3 2 only Fronts 6 Desk Sections 2 only Rears
No. 2 1 only Front 3 Desk Sections 1 only Rear
In addition one only teacher's chair.

A new school, to include a schoolroom to take up to thirty children, a teacher's kitchen, bed room, and living room, and a small room to be used as a store for Departmental Drugs and Dispensary, is so urgently necessary that it is quite impossible for me to urge its construction in the proper manner without the use of words which the Department may consider exaggerated. May I suggest reference to previous reports.

Whether a new school is built this next summer or not may I ask that the desks recommended above be provided. These desks should then be fixed in four short rows on the usual strips of wood. Accommodation will then be provided for the sixteen children likely to attend here in the near future, provided the school itself does not fall down. It will be remembered that the present school was never intended for such a use when erected. The views of the Indians expressed to me last year after my inspection of the school were given on Page 4 of my report forwarded on March 22nd 1937.

Dear Sir:

In his recent report on the Boothroyd Indian Day School Inspector Barry recommends that the following Crown School Single desks be supplied:

3 No. 4 desks
1 No. 4 front
1 No. 4 rear
6 No. 3 desks
2 No. 3 fronts
2 No. 3 rears
3 No. 2 desks
1 No. 2 front
1 No. 2 rear
1 Teacher's desk

I would appreciate your obtaining a quotation on these desks from the firm by whom they are manufactured and forward this for our consideration. The name of the firm and their address should, of course, be given in order that complete information can be supplied to our Purchasing Agent.

Dear Sir:-

Your File No. 165-26-5.

With reference to your letter of the 8th instant, I am enclosing herewith tenders for the School desks required for Boothroyd Indian Day School, as requested.

The prices submitted by Indian Agent Strang were, I believe, received from The Clarke & Stuart Co. Ltd., Vancouver, B. C.

It is noted that in your letter you ask for tenders on one teacher's desk. Should this not be one teacher's chair, as in Inspector Barry's report he does not mention the need of a desk for the teacher. The chair I would recommend would be one similar to the No. 506, at a price of \$4.00.

Yours faithfully,

MR. DAVIDSON

With reference to your memorandum of March 24 the only new school furniture the Department is considering at the present time is school desks for the Boothroyd Indian Day School which is situated in the Lytton Agency. Clarke & Stuart may have heard of this and written the Indian Agent at Lytton.

We were particularly requested to supply Crown School Desks for the Boothroyd School. I understand these are manufactured in British Columbia and requisition for their purchase was forwarded to your office on the 24th instant.

The Crown School Desks are manufactured in British Columbia and this make of desks is in use at practically all our Indian Schools. They are manufactured by Anthes-Tait Foundry Limited, 26th Avenue and Nanaimo Road, Vancouver, B.C., who quote the above price for these desks. The quotation received is considered reasonable.					

I hereby certify that I have personal knowledge that all the above articles are required in the Department and for Departmental purposes only. The expenditure required by this requisition is strictly unavoidable and the public interest will suffer if it is not made.

EXTRACT FROM REPORT OF INSPECTOR BARRY REGARDING HIS
INSPECTION OF THE BOOTHROYD INDIAN DAY SCHOOL ON JUNE 14, 1938

Original on File 165-26-6

1- Barry
2- G. H. [unclear]
In my last report I urged the erection of a new school here. Such a school should contain a schoolroom to take up to thirty children, a vocational room which need not be large, a small room to be used as a store for Departmental drugs and a dispensary, and sufficient accommodation for a teacher and friend. This latter might well consist of a combined kitchen and living room, a bath room, and two small bed rooms.

15-12
It is impossible to exaggerate the importance of such a school at this point. The Indians are not anxious to send their children to St. George's Indian Residential School, and with a well equipped school here there would be no need to send any but the exceptional child to Lytton.

Many hundreds of American visitors to B.C. pass the present school yearly as it is located in the Fraser canyon and only a few yards from the main highway.

There are at the moment several buildings of a temporary nature on the Boothroyd emergency aerodrome or landing field. I am informed that these buildings will not be required. They were erected to house those who cleared the field. Some of the buildings are so constructed that they can easily be taken apart and moved. This aerodrome is within three miles of our Indian school.

20 number for Lytton
May I suggest that the Department of National Defence be approached with a view to our being given the material from the unwanted buildings.

With such material and sufficient funds to pay for removal to the school site and re-erection, it would not be difficult for the Indian Agent to arrange for local Indian labour to be paid for at a fair rate. Some large windows would be required. The Indians could do the work in connection with the erection of a school if supervised by one good carpenter, "white". I do not believe that such a school would cost in excess of say three thousand dollars.

The material which I understand is available at the neighbouring aerodrome might under certain conditions be used in the erection of an Indian school. I have seen the aerodrome only from the road. There appear to be a number of hutments. I know that it will be difficult to obtain funds to dismantle any huts which we may be given, transport the material to the Boothroyd school site, and re-erect as a school. Some large windows would also be required. I believe however that it is my duty to bring to the attention of the Department the possibility of having a new school at Boothroyd at little more than the cost of the Indian labour and the wages of possibly one "white" carpenter to oversee the work.

PUBLIC ARCHIVES

ARCHIVES PUBLIQUES

CANADA

There is no need for an expensive school such as that lately erected at Port Simpson, just a simple school building with accommodation for a resident teacher and possibly a small vocational room and a dispensary is all that is required.

Should such a school as I have described be approved, the present small water tank located on the hill at the back of the school and fed by a small stream might well be greatly enlarged. No doubt one of the engineers could make the necessary survey report when again in that neighbourhood.

Any new tank should be sufficiently large to provide for the irrigation of the school garden by means of a garden hose, and to make sufficient water available in case of a small bush fire to protect the school buildings.

In forwarding the Inspector's Report, the Indian Commissioner MacKay writes as follows:

The buildings referred to by the Inspector in the paragraph "General Remarks" on page 3, are located at the Boothroyd emergency landing field, a few miles west of the Boothroyd Indian Day School. The buildings were used to house the men working in connection with the preparation and clearing of the emergency landing field, and are in good condition.

The Department might make enquiries regarding these buildings and, if they are no longer required in connection with the aeroplane field, they should, if possible, be secured for the Indians so they can be dismantled and the material used for improving Indian dwellings and also in the construction of a new school at Boothroyd should same be approved.

SCHOOLS:

Beethroyd Day School.

I found the pupils here, too, under Miss Blatchford, very busy preparing work for exhibit. Some very creditable work had been prepared. As they were so busy in this way, I had no opportunity to hear or see them at school work proper.

This school building badly wants repair, unless a new building is contemplated immediately. Some \$600.00 would probably cover the cost of this. One thing that should be forwarded immediately is a chair for the teacher, Miss Blatchford. The awful old one she has got now, is impossible to use further.

I found, too that the children under her direction had planted a very creditable garden. They were all clean, neat, well dressed and appeared happy. There always seems to be a very happy atmosphere at this small day school.

Ottawa, July 21, 1938.

Memorandum:MR. W. M. BAILEY:

The Boothroyd Indian Day School is located on the Boothroyd Indian Reserve, which borders the highway through the Fraser canyon. It is approximately 20 miles west of Lytton, B. C. Indian Commissioner MacKay, Vancouver, B. C., has advised us that there are a number of empty buildings at the boothroyd emergency landing field, a few miles west of the Boothroyd Indian Day School. These buildings were erected by the Department of National Defence to house the foreman working in connection with the preparing and clearing of the emergency landing field and are in good condition. At the present time they are not in use.

Commissioner MacKay believes that, if we could secure these buildings, they could easily be moved to the Boothroyd reserve and used for the erection of a new school, which is badly needed, and also for repairing the houses of the Indians on the Boothroyd reserve.

I should appreciate it if you would take up the matter with the Salvage Officer and advise me if there is any likelihood of our being able to secure the buildings mentioned.

MEMORANDUM

Dr. McGill.

Reference is made to your memorandum of July 21st last, your file 165-26-5, respecting the vacant buildings at the Boothroyd Emergency Landing Field near Lytton, B.C. Information has now been received from the Government Salvage Officer that these buildings are the property of the Department of Transport and for the present they wish to retain the following:

Recreation room 20' X 45'
Gang bosses building 12' X 24'
Tools building 8' X 8'
Latrine 5' X 8' situated on the south side of the property

The remaining buildings at this Landing Field are surplus to requirements and are, therefore, transferred to this Department for the use of your Branch, under Salvage Minute No. 11523 copy of which is enclosed. I am also enclosing two white prints of this Landing Field and have marked in red the buildings which the Department of Transport wish to retain.

When your officers have demolished and removed the buildings transferred to this Department, would you kindly advise me accordingly in order that the information may be transmitted to the Salvage Officer. If there is any change through buildings not being available you might also advise me.

W.M. Bailey,
Departmental Purchasing Agent.

Dear Sir:

Your file 165-26-5.

I have to refer to Mr. Hoey's letter of September 28th regarding the transfer of certain buildings at Boothroyd Landing Field to this Branch, and the removal of same from the airfield. In this connection I beg to advise that Mr. Indian Agent Strang has been instructed to arrange for the dismantling of the buildings allotted to us and the removal of the materials to the Boothroyd Indian Day School, for use when authorization is obtained for the construction of a new school there, and to other points in the Lytton Agency where the materials can be used for repairs and improvements to Indian homes and farm buildings.

In connection with the work of dismantling the buildings and removal of materials, I have authorized an expenditure of \$50.00 for food supplies for Indians engaged on the work and \$40.00 for transportation of materials by truck to various points in the Lytton Agency.

Dear Sir:

I desire to refer to your letter of the 3rd ultimo also your letter of November 25 enclosing Inspector Barry's report on his inspection of the Boothroyd Indian day school.

Please let me know if the material that has been salvaged from the landing field is sufficient to erect a new school. If not you should let me have detailed information regarding any additional material required provided its total cost would be over \$500.00. If the cost would be under that amount it will only be necessary for you to advise me to that effect as in view of the recent change in purchasing regulations you could be authorized to make local purchase.

Would you propose to provide a basement as well as class room and living accommodation for the teacher?

Do you consider that the school could be built economically by day labour and, if so, an estimate of the cost of the labour would be appreciated.

I am not certain that funds can be provided from the current year's appropriation but I should like to have your reply before the end of the current month as it is possible that the funds could be secured before the end of March. In the event of funds being available could the erection of this building be commenced immediately?

LYTTON, B.C., January 18, 1939.

Dear Sir:-

Relative to your letter of January 11th, file #15/7/ 7517 with copy of Departmental letter enclosed, regarding the proposed new school at Boothroyd, I herewith enclose a rough plan together with a list of material required in excess of lumber from the Landing Field, and approximate prices thereon, with cost of supervision and Indian labour, amounting to \$1,878.80. These figures were quoted by Mr. Dawson Clapperton, carpenter of Lytton, who drew up the plans. Mr. Clapperton states that he would undertake to construct the building for the sum of \$980.00 for labour providing the Indians would take down the old school building and excavate the basement for the new school. This, of course, would cut out the \$800.00 shown on the list for supervision and Indian labour.

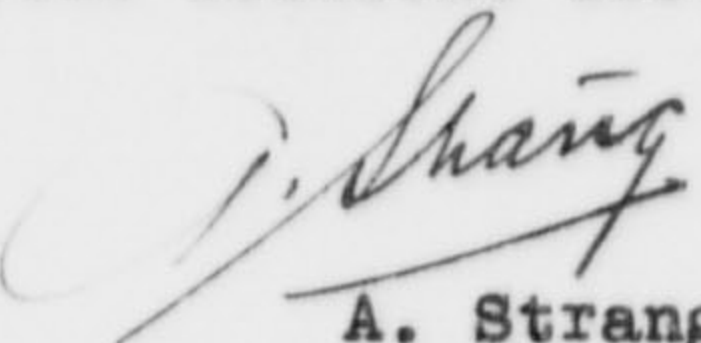

I had a talk with the Indians and endeavoured to have them give their labour gratis but they refused and said they wouldn't work for less than \$1.50 per day. The school could be built by Indian labour but I believe it would be cheaper in the end to have it constructed by a qualified white carpenter.

A full-size basement would be an advantage as apart from space for the heating system it would be an ideal place for the children to play during inclement weather. A dirt floor would be quite alright. I can probably get the Indians to dismantle the old school building and excavate for the new school, for the use of lumber from the old school. The basement would not be hard to excavate as the ground is chiefly sand and gravel.

Installation of a furnace would be extra but need not cost more than \$75.00 as I would suggest installing an old time "drum heater" incased in concrete and brick with a steel top carrying the hot air pipes, with the cold air pipes let in near the base. I have seen such a heater installed and it has proved very effective. I am sure one would answer the purpose in this case.

The erection of the school could start immediately providing the present weather conditions continue.

Your obedient servant,

A. Strang,
Indian Agent.

Dear Sir:

I am in receipt of your letter of the 2nd instant with reference to the expenditure that will be necessary to replace the Boothroyd Indian day school.

Inspector Barry's report of his inspection of the Boothroyd Indian day school on June 14, 1938, read, in part, as follows:

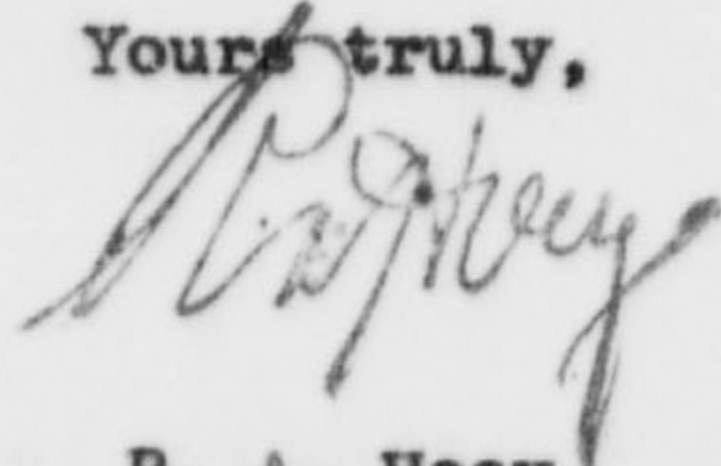

"I believe, however, that it is my duty to bring to the attention of the Department the possibility of having a new school at Boothroyd at little more than the cost of Indian labour and the wages of possibly one white carpenter to oversee the work."

With the above in mind, and the further fact that we had secured the lumber from the aerodrome, I wrote to you on the 3rd ultimo. However, it is noted from your recent letter that the lumber secured from the aerodrome was only of minor value and that materials amounting to approximately \$1000.00 would be required. It is further noted that you estimate the total cost of the building at approximately \$3000.00.

At the present time I am not in a position to state whether or not this amount of money will be available in the appropriation for the fiscal year 1939-40. However, the matter will be kept in mind and if funds can be secured you will be later advised.

Major D. M. MacKay,
Indian Commissioner,

Dear Sir:

Re Your File 165-26-5.

I wish to refer to Mr. Hoey's letter of January 23rd regarding the proposed new Day School at Boothroyd. In this connection I have now before me a report from Mr. Indian Agent Strang giving an estimate of \$1878.80 for materials and labor required to build a school along the lines of a sketch submitted by him and using the salvaged materials from the Boothroyd Landing Field. Should a white carpenter be employed to build the school, the cost, from the information supplied by Mr. Strang, would be \$2058. I am forwarding herewith a copy of Mr. Strang's letter together with the sketch referred to.

The sketch and information supplied by the Agent were discussed with Inspector Barry who considers that a school, but with full basement, along the lines of the Provincial Day School built at Sechelt, a plan of which was forwarded to you with my letter of December 28th, file 15/3/7339, would be more suitable than the building proposed by Mr. Strang.

The materials salvaged from the landing field are mostly rough undressed pieces of fir lumber, six light sash, usually used in small cabins, barns and casements, and plain V-joint fir doors. The total value of what is available for the school would not exceed \$200 and could be used for the framework of the building. Cement, nails, window and door frames, flooring, outside dressed lumber, shingles and a limited quantity of undressed lumber are required to build a new school. Such a school should be large enough for 30 pupils and might be laid out along the lines suggested by Capt. Barry on page 3 of his report on his inspection of the Boothroyd School, dated November 3, 1938.

My opinion is that the plan of the Provincial School at Sechelt would, with some slight changes, meet our requirements at Boothroyd. A full basement with cement floor and the usual wood burning furnace should be provided. I do not agree with Mr. Strang that a dirt floor in the basement would be suitable, especially in view of the character of the ground on which the building would be erected. As a large part of the basement would be above the ground level, provision could be made therein for a vocational training room and a small dispensary, or using the Sechelt School plan, the space provided for wood and store could be used for vocational training and a dispensary, and a section of the basement set aside for wood and store-room purposes.

I should imagine that the costs of a building along the lines of the Sechelt School with cement basement and furnace would be around \$3000 and in view of this I feel that the safest and probably the most economical course to pursue would be to have plans prepared along the lines of the Sechelt Day School, with the suggested changes, and call for tenders for the building in the usual way. The value of the materials available from the landing field is small in comparison with the estimated cost of the proposed school. These materials could be used in the structure and allowance made for the value of same in the tenders submitted, or they could be given to the Indians of the Agency for improvements to their homes.

Yours faithfully,

D. M. MacKay.

Dear Sir:

Ok.No.90415 Feb.18/39 - \$6.07

I acknowledge receipt of your inquiry of the 23rd instant, and advise that the above noted cheque was in payment for certain articles purchased on or about December 20th, 1938, by Miss L. Blachford, teacher of the Indian Day School, Lytton, B.C. Payment was made your firm apparently in error on a statement in favour of Miss Blachford, with order slips attached.

Kindly return the above noted cheque to this office and we will take the matter up with the teacher through our Agent at Lytton, B.C.

Dear Mr. Hoey,

Some time ago, I was driving past the Boothroyd Day School and noted a pile of lumber which evidently was gleaned through wrecking some of the relief camps, which I believe have been handed over to the Dept. to be used at the discretion of the Agents. This lumber, I believe, is to be used in the erection of a new school there.

I have made my opinion of Day Schools known to the Department and may I suggest that before action is taken, a survey should be made with a view to placing the school on a reserve where it could reach a greater number of children. I am sure a better location could be found, and if money and time is to be spent, it should be used to the greatest advantage.

I have so often driven through the Shulus reserve near Merritt and so often thought what a good location for an experimental day school this reserve presented. Children could readily be had for a two or three room day school providing the children from the Shulus district now in the Residential Schools were returned to be placed in a day school. There are other reserves within bus reach of Shulus (Canford, Nicola, Coldwater) which, if consolidated, would in this district make a very nice experiment. May I offer my humble opinion that, in the near future, steps should be taken to build a Day School at Shulus and bring into it all the available children under the age of 12 years. ✓

It may interest you to know that my Log Cabin is ready for the plaster and the cost to date, with freight, has not exceeded \$225.00. I have yet to purchase a bathtub and toilet and two basins. I shall get well behind \$300.000. With the interest shown in this building by boys and girls and Indians, I feel that we have here made a distinct forward step and which is not confined to this district but can be applied to the whole of B.C. and with careful administration

on the reserves has far reaching potentialities. I sincerely hope that my efforts, which are inclined to be made light of locally, will not be dropped at the door of the school but will be followed up in other institutions and districts.

The above-noted voucher was paid on February 18, 1939, by cheque #90415. The Company has returned the cheque as they are unable to trace corresponding debit.

It is thought that Miss L. Blachford, teacher of the Boothroyd Indian Day School, remitted the necessary funds when she placed the order with the T. Eaton Company.

I should be pleased to know how this matter stands. If Miss Blachford paid for these goods you should secure and forward any evidence of payment that she may have so that she may be reimbursed.

Ottawa, March 6, 1939.

Dear Sir:

I am enclosing herewith, for your information, copy of a letter received by the Department from Reverend A. R. Lett, Principal of the St. George's Indian Residential School, Lytton, B. C.

I am anxious to have from you, at your convenience, any comments you may care to offer with respect to Mr. Lett's suggestion. We receive from time to time vigorous protests from interested parties against the selection of sites for Indian day schools. These protests, you can readily appreciate, are somewhat disconcerting. We are wholly dependent upon the recommendations of our Indian agents and, in this case, our school inspector, for the selection of suitable sites. It is just possible that in this particular case a thorough survey should be made by Inspector Barry before we proceed with the construction of the school. I should add that no provision has been made in the estimates of this year for the erection of this building. It was our hope that there would be sufficient lumber salvaged from the camps to erect a building. It would appear, however, from correspondence received recently, that such is not the case. In any event, it might be well to have the site question settled at the earliest possible date.

Yours truly,

Sir:-

In reference to your letter of March 8th, file No. 165-26-5 relative to my voucher #854x of January 30th, 1939, I beg to enclose herewith, copy of my letter to the T. Eaton Company, dated March 1st in this connection. Apparently the T. Eaton Company had returned the cheque prior to receiving my letter.

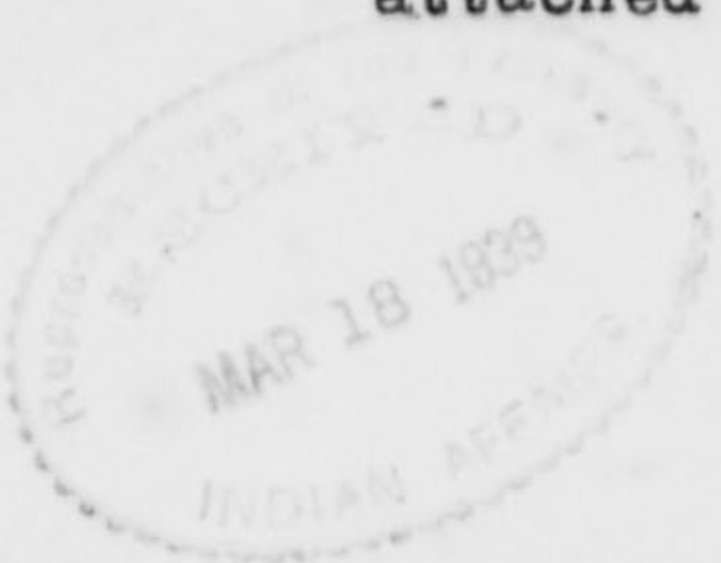

Miss Blachford brought the shipping slips covering the purchase of Christmas treats, to the office merely stating that it was the account for the toys bought at Christmas for her pupils; she did not mention having already paid for them, therefore the account was vouchered and forwarded for payment in the usual manner. On speaking of this matter to Miss Blachford recently she requested that I ask the T. Eaton Company to credit her with the amount of \$6.07.

The only evidence of payment of the account by Miss Blachford would be the shipping slips attached to my voucher #854x.

Dear Sirs:-

A few weeks before Christmas last year, Miss L. Blachford, teacher at the Boothroyd Indian Day School, forwarded an order to your firm for Christmas toys, etc., totalling \$6.07 and enclosed payment in full for the goods.

On January 27th this same account was forwarded to the Department for payment from this office through a misunderstanding on the part of the teacher and the office. This account will have probably been paid by the Department by now and if that is the case will you kindly credit the account of Miss L. Blachford with the amount of \$6.07 and send her a credit slip. This will save the trouble of returning the cheque to the Department.

Will you kindly let me know as soon as possible, the outcome of this matter.

Ottawa, June 13, 1939.

My dear Bishop Wells:

I am returning herewith certain correspondence relating to the construction of an Indian day school at Boothroyd, left at my office by Your Lordship a few days ago.

It would appear that the Indian Affairs Branch secured from the Boothroyd aerodrome about 30,000 feet of lumber, a certain amount of which was suitable for the construction of a school building. In view of this fact, the Indian Commissioner for British Columbia, Major D. M. MacKay, was requested to investigate the educational facilities at Boothroyd and report to the Department.

The records indicate that Reverend A. R. Lett, Principal of the St. George's Indian Residential School, wrote to the Department on February 27, 1939, intimating that in his judgment a thorough survey of local conditions at Boothroyd should be made before the school was rebuilt on the old site. Mr. Lett's letter read in part as follows:

"Before action is taken, a survey should be made with a view to placing the new school on a reserve where it could reach the greatest number of children. I am sure a better location could be found, and if money and time is to be spent it should be used to the greatest advantage".

Immediately following the receipt of this communication from Mr. Lett, the Indian Commissioner was asked to have Captain Barry, Inspector of Indian Schools, make a survey of the Boothroyd district. I regret to state, however, that Mr. Barry's report has not yet reached the Department. No provision was made in the 1939-40 estimates for the amount of money necessary to rebuild the school. It is our intention, however, just as soon as the report of the survey reaches us, to make provision for the rebuilding of this school in the estimates of next year.

It is in my judgment somewhat regrettable that this delay has occurred in the construction of the building. In view of Mr. Lett's letter, however, the officials felt that a survey was necessary before a final decision could be made.

Yours sincerely,

R. A. Hoey,
Supt. of Welfare & Training.

Dear Sir: Re Your File 162-26-5.

I beg to refer to Mr. Hoey's letter of March 6th with which was enclosed a letter from the Rev. A. R. Lett suggesting that before action is taken with respect to the erection of a new school at Boothroyd, a survey should be made with a view to placing the school on a Reserve where it would serve a greater number of children. The Boothroyd Indian Day School draws its pupilage from Boothroyd I.R. No.1 (Tsawamuck), Boothroyd I.R. No.2 (Tsintanku), I.R. No.12 and I.R. No.4 (Buctum), all situated in close proximity to the school. Mr. Lett is sure that a better location could be found but fails to mention or suggest such a location. If Day School accommodation is not continued for the Boothroyd children now attending the Boothroyd School, they either have to be accommodated in a Residential School, or, like a number of other Indian children in the Fraser Valley, have no school to attend.

Before Day Schools are recommended, Reserves from which the pupils are to be drawn are examined and a careful survey made of the children available for such a school. Only one Day School has been erected in a new field since I have been in the service, viz, the one at Pemberton. The attendance at present here is 37. New schools have been erected at Port Simpson, Bella Coola, Kitselas and Bella Bella, but these were to replace old buildings with too little accommodation, or otherwise unsuitable.

I may say that I am satisfied we need a new school at Boothroyd and also the present site, although not ideal, is best from the point of view of centrality, water and access that we can get. Before proceeding with construction, however, I consider it best to have Inspector Barry make a survey of the Reserves from which the pupils are drawn, and submit a report. This survey could

be made by the Inspector when he inspects St. George's School, Lytton, some time this month.

With reference to the last paragraph of Mr. Lett's letter of February 27th, I need only remark that the Department has had an Indian Day School in operation at Shulus for a number of years. The enrolment of this school, as reported by Inspector Barry on November 18th, 1938, was 17.

Major D. M. MacKay,
Indian Commissioner,
P.O.Box 70,
Vancouver, B.C.

Dear Major MacKay:-

Acting on your instructions I carried out a school survey of the Boothroyd Band, Lytton Agency, in the intervals of other work during the period April 18th to 21st inclusive.

The result of my investigations has been to prove that the statements of the Reverend A.R.Lett, Principal of the St George's Residential School, Lytton, made to the Department and quoted to you by Mr Hoey have no possible foundation in fact. Mr Lett discussed his letter to the Department with me and even showed me a copy though he could not explain why he had not sent a copy to you at the time he sent the original to the Department.

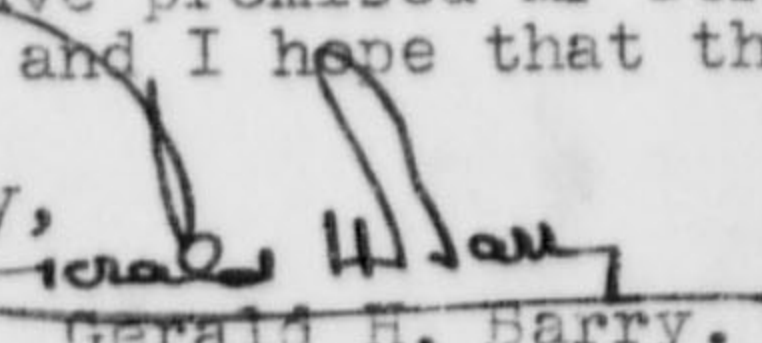

In general Mr Lett based his suggestions on a change in policy by which the St George's School should be reserved for a limited number of Junior and Senior High School pupils and the rest of the present pupils sent back to such places as Shulus in the Nicola Agency.

I explained to Mr Lett that he was now very short of pupils and that to send the Lytton, Shulus, Boothroyd and other children home would empty his school. He remarked that that would not matter. I pointed out that we had plenty of room in the present Shulus Indian Day School, but he talked quite foolishly of taking out the Roman Catholic Children from the Kamloops Residential School and sending those belonging to Shulus back to that school. It was of little use to speak to Mr Lett about such matters as he appears to me to be rapidly becoming irresponsible and at certain times during my inspection of the St George's School spoke about educational matters in a most foolish manner.

Mr Lett would appear to wish to do everything to prevent the erection of a new school at or near Boothroyd. He and the teacher there Miss Blachford do not agree about many things, and my own opinion is that Mr Lett is very much upset that she, an untrained Indian woman, should be obtaining obviously better results along several lines than he can obtain at St George's. I do not consider that any great importance should be placed on Mr Lett's opinions on a subject of which he knows very little. In any case the attached survey report will give you and the officials at Ottawa a fair picture of the actual condition of things at Boothroyd.

May I suggest that you ask Mr Indian Agent Strang for a short report on the Johnie Andrew property mentioned in my report as highly suitable for the proposed new Boothroyd Indian Day School. The local Indians have promised Mr Strang to work on the school at \$1.00 per day, and I hope that the school may be erected soon.

Yours very truly,

Gerald H. Barry.

SCHOOL SURVEY REPORT ON BOOTHROYD INDIAN BAND

Purpose of Survey:

This survey with respect to the educational needs of the Indian children living on the various Boothroyd Indian Reserves in the Lytton Agency, or belonging to this Band and at the moment living away from these Reserves, was undertaken in conjunction with my ordinary inspection duties in the Agency and thus involved the Department in no extra expense of any kind.

The general purpose of this investigation was to determine the necessity for an Indian Day School on the Boothroyd Reserves, and should it be found that such a school was in fact necessary to determine the very best location for such a school.

The more particular aim of the survey was to locate all Indian children belonging to the Boothroyd Band by an examination of the Agency records and through a visit to the St George's Indian Residential School, the Boothroyd Indian Day School, and the Indian homes where necessary.

Procedure Adopted:

The office work in regard to the examination of the census book of the Boothroyd Band and the making of the necessary extracts was undertaken in Lytton on April 18th 19th and 20th in intervals of other work, while much of the information required for the Department was tabulated by Mr Sampson, the Agency Clerk.

Maps of the various Indian Reserves were also consulted, and it was found that information with regard to the actual Indian Reserves from which the majority of the children attending the Boothroyd Day School came previously supplied in Vancouver to the Indian Commissioner was in fact incorrect. I very much regret that through my own error in confusing Nine Mile Creek with the creek at Inkahtsaph the Indian Commissioner was informed that the majority of the children at the Boothroyd Indian Day School came from Boothroyd Indian Reserve No. 1 (Tsawawmuck) to Boothroyd Indian Reserve No. 5 (Sho-ook) from which Reserves as a matter of fact no children are drawn. The information given on subsequent pages is correct and shows that the pupils of the Boothroyd School come from Boothroyd Indian Reserves No. 6 and No. 8A a few miles north of the first mentioned Reserves.

Mr Indian Agent Strang accompanied me on a visit to the various Indian Reserves mentioned in my survey report, and gave me very valuable assistance throughout my investigation.

Where children are shown by the Agency records to be attending St. George's Indian Residential School the Residential School records were also consulted with the Reverend A.R. Lett, Principal of St. George's, and the fact of the children's actual residence at St George's School verified.

Miss L. Blachford, teacher at the Boothroyd Indian Day School gave me much assistance and verified the fact that the Reverend Mr Lett had not visited her school for several years and was in no position to comment on the average attendance which is about 13 though Mr Lett stated that only about 7 children were ever at the school when he visited there.

Of the 17 children of the Boothroyd Band now attending St. George's Indian Residential School the following four children PETER JAMES, ANNIE McCARTY, LEONARD THOMAS, and IVAN SYLVESTER THOMAS, should in my opinion be discharged and instructed to attend the Boothroyd Indian Day School as from September 1939.

The two children attending Provincial Day Schools are living at Keefers and should be permitted to continue in the Provincial Day School.

Of the 13 children of school age but not now attending any school the following might well go to St. George's School if they can pass the medical examination:-

ANNIE EDWARDS	Orphan with sister at St George's
PEARL ABBOT	Lives on Nickia Reserve and has brothers and sister at St George's School
MARY JONES	Now on No. 3 but could go to Boothroyd if they moved to No5 as they may do if new school built
MARTHA JONES	Father dead.
RACHEL McKAY	Mother lives False Creek and sisters are at St. George's
NORA JEAN SMITH	Brothers and sister at St George's
FRANCIS JOHN MICHELL	The below mentioned should probably attend the Boothroyd Indian Day School, unless there is some reason unknown to me to prevent such a course:-

KELLY McCARTY	-	TERESA JAMES	-	DAN ALEXANDER HANCE
DOLLY THOMAS	-		-	

Simon Isaac should attend Keefers Provincial School with his brother and sister, and Reynold Smith who has been in hospital for some time is a doubtful case.

The above recommendation accounts for the 13 children not at the present attending any type of school.

The number of children who should attend the Boothroyd Indian Day School would be increased from the present 14 to 22 by the transfer of four pupils from St. George's School and the addition of four not as yet going to school, while St George's though discharging four would gain seven pupils giving a net gain of three.

Probable Attendance:

Should a new Indian day school be erected as is recommended below either on a site immediately adjoining the present Boothroyd Indian Day School as previously suggested, or on the site discovered during my present survey visit, the average attendance would in all probability continue to be around 85% of the total number of pupils available.

If my suggestions, made on Page 4, be followed there would be 22 children on the school roll and an average attendance of between 17 and 18

There appear to be some 19 children now under school age. This would mean that some three little pupils would on the average be available yearly for the Primary Class and there would be no falling off in attendance for a number of years at least, but possibly an increase.

A school to accommodate thirty pupils would be required.

Provincial Schools:

There are no Provincial schools in this neighbourhood.

Religious Teaching:

The whole of the children mentioned in this survey report are members of the Anglican Church. It would probably be under the auspices of this Church that the proposed school to replace the present Boothroyd School would be administered.

Possible Site for School:

A satisfactory site would be that immediately to the WEST of the present school house. There is a hill on which the building might be placed. The present very small school garden could be used. Water is available by extension of about 100 feet of pipe line from the end of the present pipe. Source of water is a spring in hill near school. The present dam would need to be enlarged as previously recommended.

The location of the present school and the above site is on Indian Reserve No. 6 (Inkahtsaph)

While this site which was by far the best available so far would do very well for a small school and residence I wish now for the first time to bring to your notice what I consider to be a far superior site, and one that would provide a safe playing field and good garden for the pupils.

I refer to a small parcel of land of perhaps two acres located on the same Inkahtsaph or Inkitsaph Indian Reserve Boothroyd No. 6 but between one half and three quarters of a mile SOUTH of the present school. This land belongs to an Indian, JOHNIE ANDREW, who has plenty of other land and does not appear to make much use of this piece.

The land lies along the side of the main road but is approached by an overgrown piece of the old road parallel with the new road and thus protected for children from traffic.

There are the remains of an old garden, fruit trees and bushes, and the children could make a fine school garden here. The old log house has no roof and only a part of the floor. It would be no good as a school but could be used in the manner suggested below.

Indian Affairs. (RG 10, Volume 6386, File 804-5, part 3)

PUBLIC ARCHIVES

ARCHIVES PUBLIQUES

CANADA

Water is available from the Inkitsaph Creek from which domestic water would have to be piped by a pipe of about one inch, while water for the garden could be led from the same creek in the old dug out irrigation ditch. The Indian Agent informs me that we have rights on the Inkitsaph or Inkahtsaph Creek flowing through this No.6 Reserve.

Mr Indian Agent Strang tells me that he has no doubt that the Department could secure this fine site for around the sum of \$50.00 I may say that I consider that it would be well worth paying up to \$100.00 for two acres here to include old buildings and fruit trees etc.

I requested Mr Strang to find out exactly how much the Indian owner, Johnie Andrew, would be prepared to accept for any rights he may have in this parcel of ground.

Type of School Needed:

This question has been reported on previously. In brief the school should be for thirty pupils. There should be a kitchen living room adjoining the schoolroom so that the teacher can supervise the work of the Vocational Class and the academic work at the same time. Two small bed rooms, one for the teacher and one for the boy who helps with the garden and usual chores, a vocational room if possible and a small room for the Department's drugs, with accommodation in the basement for Manual Training, should meet the needs of this Band. Several of the above small rooms might be located in the basement. The whole house should probably be on one level with the exception of the cement or part cement basement.

With regard to the provision of cement for either basement of foundations, or probably best a part cement and frame basement, I may say that there is a good cement mixer available in the Indian Agent's yard.

Old Building on Proposed Site:

There is a substantial one room log building, the logs being sized and shaped, on this site and located very near the main road. This building has no roof and would require a roof, floor, windows, and doors.

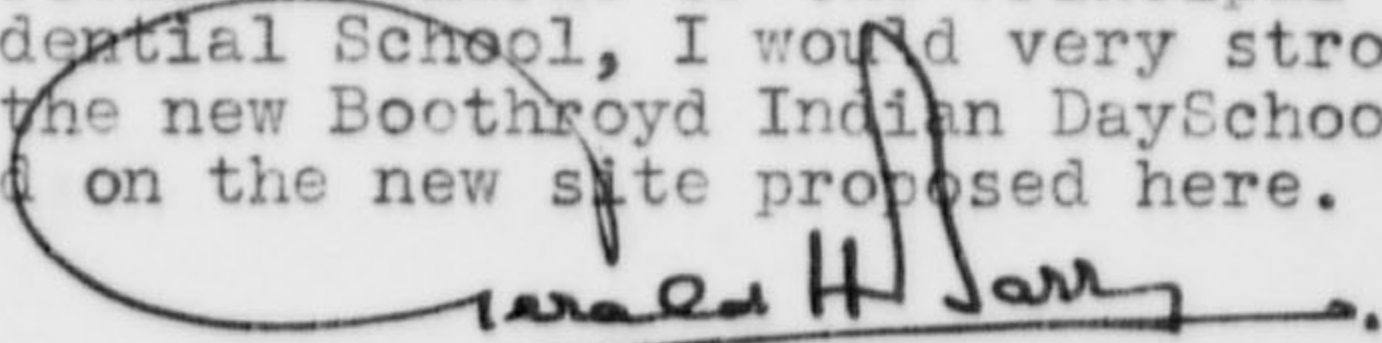

There is however plenty of rough material available from the old air port buildings to complete this house AFTER the school has been erected.

I believe that such a house as this finished in an attractive manner with a shake roof and some paint might be used as a sale room for Indian Arts and Crafts. It could be under the supervision of the teacher Miss Blachford and articles made by the Indians either in school or by ex school children could be sold to the hundreds of tourists passing along this famous Fraser Valley Scenic Highway. Even baskets and other articles made at Lytton might be sold here, during the summer months. It will be remembered that this Boothroyd School does not take vacation in July and August as other schools do but in September and the winter to include the hop season and to allow for the bad snow of January.

Recommendation:

Regardless of any foolish remarks of the Principal of St George's Indian Residential School, I would very strongly recommend the erection of the new Boothroyd Indian Day School as previously suggested and on the new site proposed here.

Years ago when the 5 Commissioners were here to investigate the question of Reserves and living conditions of the Indians.

This school was talked over with them. The Commissioners asked us. Why? Didn't we send our children to St. Georges at Lytton? Our late Chief Benedict told them that we didn't want to send them away from home and that we didn't like the way that some of the children acted towards their parents when they came home from school. But, if the Dept. would put up a school for us here on our Reserve, we'd gladly send our children to school.

After much talk it was agreed that the Indians put up a building and the Dept. would pay the teacher's salary. Both parties promised that this school would be kept going as long as there were pupils to attend.

Then Chief Benedict told the Commissioners that he'd like to have Miss L. Blachford appointed for our teacher. The Commissioners were pleased with this suggestion, they asked Miss Blachford if she'd accept the position, which she did, when they'd agreed on the salary and that we provide living quarters for her.

We put up the building at our own expense and labour. School was opened May 3rd 1915. Its been in use ever since. We've sent our children regularly though its been hard for some of us to furnish clothes - (espically shoes) and food for lunches.

The 2 rooms provided for the teacher are very small and we know its been hard work for her to carry on, teaching our girls to can salmon, fruit and cooking in such a small kitchen and living room.

We were very happy when we thought the Dept. had decided to give us a suitable building and we were very eager to begin the work. But, now we are disappointed to hear that the Dept. might not build as a report had been sent in that the attendance here wasn't up to standard nor were there sufficient children on the Reserve to warrant the expense of a new school.

We are sorry to hear about this report as it is not a true fact.

We have done our part in sending our children regularly. The only time a child is kept at home is on account of sickness or bad weather. There could be more children attending here if the children that have been taken to St. Georges, were allowed to return and if the Dept. would give some assistance to Day Scholars for as I have stated before, some of the parents couldn't afford the expense of clothes so they sent their children to St. Georges where they have everything supplied for them. We would be very grateful if you can persuade the Dept. to give us a new school. As its over 8 years now that we've had to repair and prop up the old foundation every spring.

The work done here is very good, this school won a 1st & a 3rd prize last year at the B.C. Indians Art & Handicraft Display in Vancouver, B. C. It also divided 1st prize money at the Kamloops Fair the year before.

Our children come home, help us and take an interest in our work, they respect their parents and are not so dissatisfied as some of the children that come home from a school where they've been living in what are called "luxuries" which our poor homes cannot give them.

We are sorry that our circumstances will not allow us to assist in building without pay as we did 24 years ago, as you know that we've not been able to obtain work either on the Highway nor the Railroads besides its getting harder each year to sell our farm products locally.

If we get the new school we'll see that our children attend regularly and I'm sure that if the Dept. can help the scholars we'll have no trouble in keeping up the attendance as we'll get more scholars from other reserves as I've often been told by Indians that they'd like to send their children here but couldn't afford the extra expense - though we have pupils attending now because their parents prefer our school.

I do hope Mr. Strang that you will do your best to get the school for us.

EX 1
Ottawa, June 28, 1939.

Dear Sir:

I desire to refer to your letter of the 7th instant, in connection with the proposed erection of a new school on the Boothroyd reserve.

In the special supplementary estimates, provision was made for the erection of a school in Saskatchewan, but owing to recent circumstances it is not possible to proceed with its construction. As a result, sufficient funds are now available for the erection of the school on the Boothroyd reserve.

As the season is advancing, it is considered that the best method of building this school would be to engage a white foreman and employ Indians to assist him.

*g.p.
K.M.*
Your letter of February 2, 1939, mentioned that you considered a suitable building with cement basement and furnace could be erected at a cost not exceeding \$3,000. Please let me know at once if you are prepared to proceed along the lines suggested in your letter of February 2, and if so, you will be advised of the name of the white foreman to be employed. You could arrange for the purchase of the materials and, in addition, the lumber salvaged from the landing field could be used.

Yours truly,

Memorandum:

DEPUTY MINISTER

In preparing the special supplementary estimates for the current fiscal year an amount of \$6000.00 was included for the erection of a new school on the Thunderchild Indian Reserve, Battleford Indian Agency, Province of Saskatchewan. Subsequent to the preparation of these estimates Inspector Robertson reported that he considered that the present school on the Thunderchild Reserve would meet the requirements for another few years.

The amount mentioned above is, therefore, available and I wish to bring to your attention the under-mentioned two items for which no funds were provided:

1. Fisher River Indian Day School,
Fisher River Indian Agency,
Province of Saskatchewan, *Manitoba*
Electoral District of Selkirk.

Approximate expenditure\$1300.00

Some months ago it was brought to our attention that the walls of this school were in very bad condition. The Surveys & Engineering Branch were requested to have one of their officers inspect the school and he reports that the walls are in very bad condition and estimates that it will cost \$1226.90 to put the building in proper condition. For your information I may add that the building at Fisher River is a two-roomed school with teachers' residence attached and there is an enrolment of 73 pupils.

2. Boothroyd Indian Day School,
Lytton Indian Agency,
Province of British Columbia,

Approximate expenditure\$4700.00

For some time past Rt. Rev. G.A. Wells, Anglican Bishop of Cariboo, has been urging the Department to provide a new school. Within the last week a report has been received from Indian Commissioner MacKay enclosing detailed information regarding the educational requirements on this Reserve. Commissioner MacKay recommends that if at all possible the present old school on the Boothroyd Reserve be replaced by a new one. A recent report from Inspector Barry indicates that there are 25 children of school age on this Reserve and that there are 19 additional children under school age but who will be attending school within the next few years.

As the repairs at the Fisher River school are urgently required, and as Indian Commissioner MacKay agrees with His Lordship Bishop Wells that a new school is required on the Boothroyd Indian Reserve, I should appreciate it if the Honourable the Minister would approve our expending at the two places mentioned above the amount of \$6000.00 provided in the special supplementary estimates for the erection of a school on the Thunderchild Reserve. In the event of the Honourable the Minister granting his approval the work at Fisher River would be done under the supervision of the Surveys & Engineering Branch. The erection of the school on the Boothroyd Reserve would be done under the direction of Commissioner MacKay.

Dear Sir:

I beg to transmit herewith Capt. Barry's report on the school survey conducted by him of the Boothroyd Band, Lytton Agency.

On receipt of this report I communicated with Mr. Strang regarding the alternative site for the new school suggested by Inspector Barry. A reply has been received to the effect that the Boothroyd Indians are in favor of using the existing school property for the new school. Inspector Barry returned from inspection duties in the north on Saturday, last, and I took occasion to further discuss with him the question of a site for this school. The Inspector agrees that the site immediately west of the existing Day School is quite suitable and more central but that the area available for use as a garden is very small. He is of the opinion that the Johnny Anderson acreage referred to is a better all-round site for a school but considers that the location of the present school is also satisfactory.

A copy of a letter received by Mr. Strang from the Boothroyd Indians regarding a new school is forwarded for your information.

I should appreciate being advised if it is expected that funds will be available to proceed with the construction of a new school at Boothroyd this year.

Yours faithfully,

Dear Sir:

I am in receipt of your letter of the 21st ultimo with reference to the erection of a day school on the Boothroyd Reserve.

If at this date we attempted to erect this building by contract it would involve advertising and subsequently an Order-in-Council would have to be obtained to accept the quotation of the successful tenderer. This would involve considerable time.

I consider that it is better to proceed at the earliest possible date by day labour. You should employ a white foreman to supervise the work and you may also engage other white workmen, if necessary, but as far as possible competent Indians should be employed.

You may arrange to purchase the material from firms on the approved list and the encumbrance requisition number will be sent to you under separate cover. I am also arranging to forward to you an accountable cheque for \$1500.00 for labour.

Dear Sir:

Re Boothroyd School (File 165/26/5).

Replying to your letter of the 28th ultimo advising that it has been found possible to proceed with the construction of an Indian Day School on Boothroyd Indian Reserve No. 6, I would advise that the plan that has been selected as providing the most economical construction for the accommodation required is shown on enclosed white print, being B. C. Provincial Department Public Works Plan No. 562, but some modification of the plan is required to meet the conditions imposed by the site available, chief of which is that the plan is to be reversed. As an extra bedroom is necessary, it is suggested that the lean-to should become an extension of the school proper and include small bedroom (7'6" x 10'0" would be large enough). Mr. Agent Strang thinks that a kitchen-living room would be satisfactory with a porch. As the school is to be built on a fairly steep side hill, the front entrance steps would have to be on the side opposite to the large classroom windows. The main classroom lights should face the river on the west. It is proposed to have a basement running the full length of the school and about 15' or 16' wide to accommodate small room for drugs and supplies. Owing to the slope of the site, very little excavation would be required, and this would be on the side with the main classroom

windows. If it is decided to call for tenders, they could call for alternative constructions of concrete basement, floor and foundation as shown, or the building on concrete blocks with cedar posts and frame construction. There should also be provision for two outside latrines.

I am forwarding the plan with pencil notes thereon, also a ~~wage~~ plan and plan of Reserve showing location of school according to the Indian Agent. Possibly it may be found more desirable to prepare another plan based on that submitted in view of the number of changes made that might be very confusing to a builder, particularly if an attempt is made to construct this building employing a white carpenter assisted by Indians of whose skill in this respect I have no knowledge. It is observed that the Commissioner's letter of 2nd February, 1939 to the Department in the last paragraph expresses the opinion that it would probably be safer and more economical to call for tenders, which could stipulate employment of Indian labour for work within their skill, such as excavation and common labour. The call for tenders should stipulate use of the material on hand as far as possible.

Subject to the foregoing, I would recommend that work proceed as soon as possible and your further instructions will be appreciated. Kindly return the plans as soon as they have served your purpose.

Yours faithfully,

Dear Sir:

Re Boothroyd School (File 165/26/5).

Replying to your letter of the 28th ultimo advising that it has been found possible to proceed with the construction of an Indian Day School on Boothroyd Indian Reserve No. 6, I would advise that the plan that has been selected as providing the most economical construction for the accommodation required is shown on enclosed white print, being B. C. Provincial Department Public Works Plan No. 562, but some modification of the plan is required to meet the conditions imposed by the site available, chief of which is that the plan is to be reversed. As an extra bedroom is necessary, it is suggested that the lean-to should become an extension of the school proper and include small bedroom (7'6" x 10'0" would be large enough). Mr. Agent Strang thinks that a kitchen-living room would be satisfactory with a porch. As the school is to be built on a fairly steep side hill, the front entrance steps would have to be on the side opposite to the large classroom windows. The main classroom lights should face the river on the west. It is proposed to have a basement running the full length of the school and about 15' or 16' wide to accommodate small room for drugs and supplies. Owing to the slope of the site, very little excavation would be required, and this would be on the side with the main classroom

windows. If it is decided to call for tenders, they could call for alternative constructions of concrete basement, floor and foundation as shown, or the building on concrete blocks with cedar posts and frame construction. There should also be provision for two outside latrines.

I am forwarding the plan with pencil notes thereon, also a wage plan and plan of Reserve showing location of school according to the Indian Agent. Possibly it may be found more desirable to prepare another plan based on that submitted in view of the number of changes made that might be very confusing to a builder, particularly if an attempt is made to construct this building employing a white carpenter assisted by Indians of whose skill in this respect I have no knowledge. My dear Bishop Wells:

I desire to acknowledge receipt of Your Lordship's letter of the 8th instant and to thank you very heartily for the information contained therein. Your interest in the education of the Indian population and your interest particularly in the Boothroyd school is very deeply appreciated.

You will be glad to learn that there is a possibility that we may be able to proceed with the construction of the Boothroyd school this summer. Provision was made in the estimates for the construction of a school in Saskatchewan and we find that it may be impossible to proceed with the construction of this particular school at this time. If such is the case, we shall make arrangements immediately for the construction of the school at Boothroyd. I am at present in communication with the Indian Commissioner for British Columbia with respect to the matter.

With kindest personal regards,
I remain,

Yours very sincerely,

My dear Mr. Hoey,-

I thank you for your letter of June the 13th regarding the Boothroyd Indian School at Lytton, B.C. in the Diocese of Cariboo.

I have just returned from a visit and special service at the school where I discussed the question of a new school and the right site for it with Mr. Strang, the Indian Agent; Miss Blackford, the teacher; and the Indian Chiefs of the Boothroyd Band. I venture to give you my convictions on two points in connection with the matter.

1. Excellent work is being done by the Teacher from the moral, social, and educational standpoint for the Indians in spite of most inadequate facilities and dilapidated building. There should be a new building there at the earliest possible convenience.

2. There is general agreement, and not the least doubt in my mind, that the present site is the most convenient for the Indians and is likely because of settlement possibilities *to be* for all time. With very little expenditure on levelling the land, and some care in placing the building, it will be found adequate and suitable. The Indian Chiefs volunteered to help in preparing the site at once.

I feel that there is no need of saying to you that what I have done and am prepared to do in this matter is in no way interfering with your department or with the Agent at Lytton. My object is to help in every way I possibly can to support any movement that is made in the real interest of the Indian in this diocese.

With kind regards,

Yours most sincerely,

Mr. R.A. Hoey, B.A.,

Dear Sir:

I desire to acknowledge receipt of your letter of the 8th instant in which you seek information with respect to the construction of an Indian day school near Lytton, B.C.

I may state that we are at this time communicating with the Indian Commissioner for British Columbia with respect to the construction of this school. While no definite decision has yet been reached it is altogether likely that this school will be constructed by day labour under the direction and supervision of the Indian Agent.

Dear Sir:

I enclose herewith application of Mr. Phillip McLean as foreman of construction of the proposed Boothroyd Indian Day School in the Lytton Agency. Mr. McLean was formerly manual training teacher at the Lytton Indian Residential School and in that capacity did some very excellent construction with Indian boys demonstrating his ability to handle Indians in this class of labour.

It is proposed to use Indian labour as far as possible in the construction of this school.

Mr. McLean is asking 75¢ per hour and I would recommend his appointment and advice of same by air mail if possible.

Yours faithfully,

DEPARTMENT OF MINES AND RESOURCES REQUEST FOR QUOTATION

Valley Lumber Yards Ltd.,
185 West 2nd, Vancouver, B.C.

P.O. Box 70, Vancouver, B.C.

Req. File

Tenders are hereby invited for the supply of the goods specified below; prices to include Dominion Sales Tax and be f.o.b. School site, Boothroyd Indian Reserve, Boothroyd, B.C. Goods required are for Government use and are not for resale. The right is reserved to accept or reject quotations on any item separately or on the tender as a whole. Please prepare your tender in duplicate on the enclosed form, being careful to fill in all blanks, sign properly and return original and 1 copy in the accompanying addressed envelope. Quotations should be fully extended and checked and extensions totalled. In case you do not care to submit a tender you are requested to return both copies of the form. All material furnished must conform with accepted tender. Shipper must pay transportation charges both ways on all rejected material. Failure to deliver all materials within the time given on the order may cause refusal to accept material delivered after that date.

Tenders will be received until 12 o'clock noon, 18th October, 1939.

Dear Sir:-

EXD.

I enclose herewith cancelled original
of Freight Warrant 2302, and duplicate of No.
2303.

With reference to Warrant No. 2302, this
was returned from the Department with no instruc-
tions. It was presumed that a new warrant was
required as the amount had been altered from
\$4.62 to \$3.90. I therefore issued No. 2303
in the amount required and enclose same herewith.

Yours faithfully,

W. J. Ferguson

Dear Sir:

With reference to your letter of the 21st ultimo an amount of \$6.00 will be allowed at each of the 3 Indian day schools in the Lytton Agency; namely, Boothroyd, Seabird Island and Seton Lake for the purchase of Christmas treats for the children.

This is the last year that the Department intends to make a grant for the purpose mentioned above. Later you will be advised regarding possible methods of securing funds for the Christmas tree entertainment.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

The new Indian day school at Boothroyd, which is under construction was visited. The work was being done by the Indians under the supervision of Mr. McLean, and very good progress was being made. This will be a splendid little building when completed, and seemed to be much appreciated by the Indians.

IN YOUR REPLY REFER TO
NO 15/7/4368.
ALSO TO DATE OF THIS LETTER

P.O. BOX 70
VANCOUVER, B.C. March 5, 1940.
AIRMAIL

Dear Sir: Re New Indian Day School, Boothroyd.

I have to refer to Mr. Hoey's letter of August 11th, 1939, file 165-26-5, authorizing the construction of a new day school at Boothroyd.

While in the Lytton Agency a few days ago I visited Boothroyd and found construction so far advanced that in all probability the building will be completed and ready for use by March 31st. Some cement work, construction of cupboards and interior and exterior painting, remain to be done but as these are being attended to, the end of the month should see the work fully completed.

It will be recalled that E.R.1054 dated August 11th, 1939, in the amount of \$4700 was set up for this project. This authorization included \$1500 cash advance for labour.

An examination of the expenditures in connection with this construction indicates clearly that the school will be completed for \$3100, leaving a balance of \$1600 available for other purposes.

I may say that the school has been well built and should meet the requirements of the Indians in the Boothroyd section for many years. It is a 30' by 60' frame structure on cement foundation with one classroom and teacher's residence. The building is heated by a well installed wood burning hot air furnace. The basement has a full cement floor and is subdivided so as to provide for store room, fuel room and a large bright section which can be used for manual training. The existing water system has been extended into the building with a tap in the kitchen and one in the basement.

The Secretary,
Indian Affairs Branch,
Department of Mines and Resources,

Mr. McLean was employed as carpenter foreman and with the exception of the installation of the furnace, which was carried out by a firm in Vancouver, Indian labour was provided.

It will in all probability be necessary for the Department to furnish the residence as the furniture used by the late Miss Blachford belonged to her.

I will arrange to have some camera snapshots of the new school taken for the Department when a good opportunity offers.

Yours faithfully,

D. M. MacKay.

Dear Sir:

I am in receipt of your letter of the 5th instant with reference to the Boothroyd Indian Day School.

It is noted that the building is practically completed and that the total cost will be approximately \$3100.00.

The amount mentioned appears very reasonable and I will await with interest the snapshots of the building which you intend to forward.

AGENT'S REPORT ON LYTTON AGENCY FOR MONTH OF MARCH 1940.
X X X

SCHOOLS

I am pleased to report that with the exception of another coat of paint on the outside of the building, which can be put on at some suitable time, the new Boothroyd school was completed this month. The building is very satisfactory and the laying of a cement floor in the basement is a decided asset as the basement is now an ideal place for manual training work for the boys. The Indians are very pleased with the building and I am sure it will encourage regular attendance at the school.

AIR MAIL

Dear Sir:

I have your letter of the 7th instant in which you state that Mr. F.R. Shenstone has decided not to accept appointment as teacher of the Boothroyd Indian Day School and I note that you will advise later regarding the teacher who you recommend be appointed.

You may expend an amount not exceeding \$200.00 in furnishing the teacher's living quarters at the Boothroyd School.

Yours truly,

Dear Sir:

In reply to your communication of the 23rd instant, we feel that \$15.00 is an excessive price for a cross cut saw. In fact it is at least double the amount that should be paid for such a tool. Do the children at this school saw the wood for the school or is this saw to be supplied and labour hired? Nothing on our files indicates to us how this was done in preceding years. If you cannot obtain a saw around the price we think you should pay for it, please let us know and the matter will be taken up by our Purchasing Agent here.

I enclose herewith application of Mr. Indian Agent Strang dated the 15th instant requesting authority to purchase wood stove pipe at a cost of \$33.30 to provide a drain for Boothroyd Indian Day School. No estimate has been given of the amount required for labour but it is expected that this cost would be very nominal. In any event, pending my enquiry of Mr. Strang in this connection, I would recommend that the pipe be purchased during the current fiscal year if funds are available.

re: Your File 165-26-5

With reference to your letter of March 24th,
I am advised by Mr. Indian Agent Strang that the
cost of installation of the wood stove pipe to provide
a drain at the Boothroyd Indian Day School will be
approximately \$10.00.

It will not be possible to have this work done
before the end of the fiscal year but I have authorized
Mr. Strang to complete the work as a charge against the

It will be satisfactory to the Department if you take the steps necessary to purchase these supplies, locally. I may state, however, that the Department, during the last two or three years, for reasons that will readily occur to you, has discontinued the practice of supplying linen and bed clothing at Indian day schools. You should so inform Mrs. Raison.

Re: Poothroyd Day School Building

The above-mentioned building has been unused for several years and according to advice recently received from Superintendent Hett, there is no prospect of sufficient pupils being available in the near future. We have been approached by a Mr. Grant Starr, Dominion Government Engineer, who is working in the vicinity of Poothroyd, for permission to occupy the building as a residence for himself and his family.

Mr. Starr has offered to pay rental but after discussing the matter with him, I am of the opinion it would be preferable for us to permit him to occupy the building without charge, on the understanding that he will look after ordinary maintenance. I have in mind that the building has been unoccupied for some time, that some maintenance is no doubt necessary by now and that if the building is heated and occupied, it will not deteriorate as quickly as otherwise.

May I please have the Department's views in this matter.

Please note the contents of Indian Commissioner Arneil's letter of September 16th with reference to allowing Mr. Starr to occupy the building formerly used as the Boothroyd Day School.

This particular school has been closed for several years owing to lack of pupils, and it is very unlikely that it will be reopened in the immediate future.

It would be appreciated if you would let me have your advice regarding Indian Commissioner Arneil's suggestion.

Reference your 165/6-2-804 of September 16

We are prepared to rent this school building to Mr. Starr, who, it is presumed, is an employee of the Department of Public Works. The terms are as follows:

- (1) The classroom must be locked so that no damage will be done to the desks, etc.
- (2) If Mr. Starr wishes to use the teacherage furniture, then the rental will be \$30.00 per month.
- (3) If he wishes to use his own furniture, the rental will be \$20.00 per month. If the furniture is not used, then it must be stored in the classroom and locked.
- (4) An inventory of the furniture in the school is to be made and forwarded here with a statement opposite each item concerning its condition.

While it is agreed that Mr. Starr will look after ordinary maintenance of the building, it is our practice to charge rental for these buildings so that there will be no complaints from the Indians.

Re: Boothroyd School.

In his report for the quarter ended December 31, 1951, Superintendent Hett refers to the Boothroyd School being closed owing to shortage of pupils.

I have reviewed the only file I can find on the matter and apparently the last letter written was our communication of September 29, 1950, which was in reply to your letter of September 16, 1950 - your file 165/6-2-804.

I have been unable to locate any reply to official letter of September 29, 1950, or any subsequent correspondence regarding the matter. It would be appreciated if you would bring me up to date on the question.

Re: Boothroyd School

With reference to Mr. Phelan's letter of Feb. 11th, Mr. Hett has resurveyed the pupilage available for the above mentioned school and has determined that there are not enough pupils to reopen the school. It seems doubtful if this school will ever be reopened as the very limited opportunities for employment in the district makes it necessary for Indians of the Band to seek employment elsewhere.

The building has been unoccupied since the school was closed. Mr. Starr, reference your letter of September 29th, 1950 (file 804-5) having found accommodation elsewhere.

The contents of your letter of February 23rd have been noted, and I would suggest that if there is no change in the available pupilage for this school for the 1952-53 academic year, consideration be given to having this building declared surplus.

E X T R A C T from Inspector Barry's Report
regarding his inspection of the Boothroyd
Indian Day School on March 22nd, 1937.

Original on File 165-26-6.

The Training given in cooking, laundry work, preserving fruit and vegetables, and in sewing, making dresses, etc., is very fine, and I would ask the Indian Affairs Branch to consider the giving of a small grant towards the purchase of simple dress material for the children to make up for themselves, in school. A grant of say \$10.00 would be a great help. Some glass jars might be bought to hold preserved vegetables and fruit, and the children should be encouraged to preserve ~~some~~ part of the produce of their own gardens.

Dear Sir,-

In his report regarding the Boothroyd Indian Day School, which he visited on the 22nd ultimo, Inspector Barry recommends that an allowance of \$10.00 be made for the purchase of simple dress material for the children to make up for themselves. Please consult the teacher and purchase what is necessary, at a cost not exceeding that stated above.

The Inspector also suggests the purchase of some glass jars to hold preserved vegetables and fruit. If the teacher is prepared to assist the children in doing the preserving, you may purchase the jars.

The teacher of the Cape Mudge school on the return for the December quarter, last, made the following remarks:-

"On October 27th all the people and children went to Campbell River to attend a potlatch; no effort being made by the Indian Department to cause their return, they still remain at that place. In preceding years the Indian Agent obliged the people to make Cape Mudge their winter's headquarters, thereby giving ~~them~~ bands the advantage of Church, School, etc."

This return was certified to by Mr. Agent Halliday, but apparently he has taken no steps to bring the Indians back to Cape Mudge. The Department would like a report from you as to what should be done with this school, as it is useless to keep it on, if there are no children to attend.

of ~~XXXX~~ Ultimo, No 666 C-5, referring to remarks of the teacher
at Cape Mudge School in the quarterly report for December quarter,
and asking for a report on the school as to whether it was
advisable to keep it open or not.

If you will kindly refer to my letter of 29th January
No 312/5. you will find it stated that I went immediately to
Cape Mudge on receipt of Mr Rendle's letter referring to the
non attendance of the children and also complaining of the
liquor at Campbell River. You will notice there that I mentioned
the fact that I had given the visitors to Campbell River 24
hours notice to go home which they did.

At the public meetings held at Cape Mudge on 20 and 21
days of March last past the school question was brought up
and I informed the Indians of my intention to put the Education
act in force and they expressed their willingness to send their
children to school and a glance at the report for March quarter
which I sent today will shew that the attendance has been
fair for this quarter. I hope that the next quarter will
shew a decided gain in the attendance.

I have to acknowledge the receipt of the return showing the attendance at the Cape Mudge day school for the quarter ended June 30th, last.

In reply I beg to say that the record of attendance at this school is very unsatisfactory and I have to ask you to consult with the teacher with a view to effecting some improvement, as, unless this can be done, the Department will have to take into consideration the matter of closing this school. Not only is the attendance unsatisfactory in so far as regularity is concerned, but only a small proportion of the total number of available children ~~are~~ enrolled. The Department quite understands that, owing to the nomadic habits of the Indians, there are seasons when a high attendance cannot reasonably be expected, but, even during the portions of the year when they are at home, the enrolment and average are very low. It is thought that if the teacher would make a determined effort at least some improvement might be recorded.

I beg to refer you to official letter of July 28th in which you were asked to communicate with the teacher of the Cape Mudge day school with a view to securing some improvements ~~in~~ the existing conditions there.

The Department is in receipt of a report from Mr. Green which tends to show that Mr. Rendle is not meeting with the success that might be expected, due perhaps to ^a ~~the~~ lack of effort on his part. As you were advised on July 28th the attendance is very unsatisfactory in so far as regularity is concerned. This is to a certain extent attributable to the nomadic habits of the Indians, but it is noted that only a small proportion of the available children is enrolled. You will be good enough to communicate with Mr. Rendle and advise him that the Department would like to see a distinct improvement effected in the attendance and progress of the school.

With reference to your letters of July 28 & Sept 16 No II7258/I regarding the unsatisfactory attendance of the children at Cape Mudge Day School I have the honor to inform you ~~that~~ I twice visited Cape Mudge since receipt. On the first occasion Mr Rendle was ^{away} ~~away~~ in Victoria, and no school was in session. On the second occasion I was present with Mr Inspector Green. I informed Mr Rendle of the desire of the Department to have the school attendance more regular and ^{that} a general improvement ~~that~~ was needed which he promised to attend to. I have been waiting to receive his quarterly report to see what improvement has taken place.

By this mail I am writing him again on the matter and in a short time ~~again~~ I will visit the school and see personally whether any improvement has been effected.

I may state that Mr Rendle has always been only half hearted on school matters so much so that he only has one session of school per day. I instructed him to mention this fact in one of his monthly reports which was done and as no mention was made of the matter from the Department I concluded that this arrangement was satisfactory to the Department.

END.

Ottawa, October 11, 1910.

Rev. Sir,

Reports received on the Cape Mudge day school for sometime past show that Mr. Rendle, the teacher, takes very little interest in the school work, in fact the attendance has been so poor that the Department considered at one time the withdrawal of the grant. Mr. Rendle holds only one session each day and in other respects is reported from several sources to be very half-hearted in regard to school matters. Of course the Department is aware that at certain seasons of the year a large attendance cannot be expected at this school, but when the Indians are at home a determined effort should be made to effect some improvement.

I have to ask you, therefore, to be good enough to take this matter up with Mr. Rendle and advise him that unless a decided improvement is shown in the attendance and in the character of the work done in the school-room the Department will have to call upon you to nominate a new teacher.

Dear Sir:—

Your communication in regard to my labours in connection with the day-school at this place received in the mail of yesterday, and hasten to reply to the same, especially when the non-success of the school of late ~~on~~ is "laid to my neglect and indifference" as you state.

There is ~~no~~ no doubt that for the last three years the school has been a failure as far as an educational factor among our Indians is concerned.

I have been among these people nearly seven years; when I arrived here I found all work at a low ebb, Church and day-school poorly attended. The yearly average of the school being 24 according to Blue Book's

1 after two years this average was increased to 1246 and our school continued to flourish until the winter of 1907-8, when our people received a visit from that well known Indian agitator "Capatino" Joe, who first started the controversy in B.C. re. Indian lands; & put him out of our mission village, and he took up his abode in another village, nearly taking the majority of our people with him.

After Joe's advent conditions changed in our villages; our people are not allowed to work at the timber on their own reserves; owing to the dispute between the B.C. and Ottawa governments over "land titles"; so they have to find work somewhere; so the majority of them find it miles from home taking their families with them.

Starting in June our people find employment at the salmon-fishing working for a cannery some three miles distant from our school, the fishing lasts well into October; after this they are home for about 10 days, then away to different places to dry fish

Last September our people asked permission
of the Department to exchange the timber
on a portion of the reserve for a building
suitable for their children to sleep and eat
in during their parents absence; this
request was refused by the Department
on account of the dispute between the
B.C. government over "land titles". Our
people earnestly desire their children to
go to school, but cannot better their
condition in that respect on account
of existing conditions.

Personally I have done everything in my
power to make our school a success,
the chief cause of failure is the irregular
attendance; this state of affairs is com-
mon all over this agency; on the 11th
of this month I attended a meeting

called by the Rev Hall of Alert Bay, to consider the prevailing conditions among the Indians in these parts; this meeting was attended by all Indian workers in this district and many native delegates. Mr Hall stated, that his church (English) had been losing ground for the last six years; only one of his day-schools having an regular attendance, the home one at Alert Bay; our native delegate presented a petition to the Indian agent who presided at the meeting, from all our people and myself asking that they might be allowed to remove the timber from 40 acres of the reserve near our village this season, so that their people could find work at home and their children attend school; this was promised the support of our Indian agent; and together with several petitions of a similar nature from other villages received the indorsement of the meeting.

I am constantly on the move; the society gave

Dear Sir

Reply to yours of Oct 11. No 117258/1
in Cape Mudge. B.C.

I wrote Mr Rundle and now enclose you his reply
so that the department may see from his point of
view. He appears to be reasonable.

I find ~~by~~ reference to the Report of 1910
that the average attendance of the day schools in
B.C. is a little below ¹² ~~12~~.

That the average at ^{Cape} Mudge is 7, and
that there are 4 with an average of 7 and
one with a smaller average. And
it is just possible that Mr Rundle has
received more than an average criticism.

However I have written him again
calling his attention to the necessity of greater
diligence if this is possible. and since
he speaks hopeful of the future. it may
be that a change of teacher might not
improve the situation.

I will keep in touch with his
work and see how his reports are
in the future.

Yours Respectfully

On Friday I went to Cape Mudge Reserve

See MS 1 The school had been closed for a month in order to allow of the children taking part in the fishing. The attendance at the school is reported to have been very good. Mr Rendle reports the attendance during March quarter to have been 16.85 out of 23, and for June quarter 11.63 out of 16 pupils. The health of the pupils has been good, and they have been making fair progress. There are no water closets in connection with the school, but are very much needed, and I would recommend that two should be built.

I have to acknowledge the receipt of your letter of the 7th instant in reference to the need of a janitor at the Cape Mudge School.

In reply I beg to say that your remarks with regard to one session of school each day are noted. I may say that the Department has just formulated a set of regulations for the management of Indian schools and among other things teachers are required to have two sessions each day of three hours each. I have to ask you to state whether there is any reason why the teacher of the Cape Mudge School should not be required to adhere to these regulations.

Sir:-

Referring to your letter of 19th Feb'y regarding the regulations as to the number of hours that Indian Schools should be in session and asking if there is any reason why the Cape Mudge School should be exempt from the regulations I would inform you that with the exception of the difficulty in getting the children to attend there is no reason why any school in this agency should not follow the regulations. It is difficult enough to get the children to attend at 10 O'clock as they are lazy in the mornings.

I may state that in all the schools in the agency not excepting the Industrial school there have only been two sessions of two hours each. In the Provincial Schools for white children the regulations call for the following hours of attendance:- In the mornings from 9 to 12 with 15 minutes intermission. In the Afternoons from 1 to 3.30 with ten minutes intermission. From November 1st to the last day of February inclusive the regulations call for a morning session from 9.30 to 12 with ten minutes intermission and in the afternoons from 1 to 3 without any intermission.

REPORT OF INSPECTOR CAIRNS ON THE CAPE MUDGE DAY SCHOOL.

Date of Inspection, -September 27th, 1916.

School was closed at the time of my visit. Mr Rehde informed me that the people would not be home till about Nov. 1st. It will be seen that the school year is exceedingly short. So short that very little is accomplished.

The missionary does not like to send any pupils to an industrial school. Those who would go are the pupils who are somewhat interested in education.. If six or eight of these were sent away to school, the problem of carrying on school becomes almost hopeless.

The attendance at many of the day schools is so irregular that little is accomplished. In my opinion the great majority of the day school pupils will be classed as illiterate when they reach manhood.

Sir,-

Inspector Cairns visited the Cape Mudge day school on September 27th, last, and reports as follows,-

" School closed at time of visit, Indians all away. If six or eight of these pupils were sent to an industrial school, the school could be closed to advantage. The Missionary, who is the teacher, does not wish to part with the pupils. He is drawing \$800.00 a year salary as teacher."

Before taking the action recommended by the Inspector, the Department considered it would be well to place the matter before you and I would be pleased to receive your views at your earliest convenience.

Dear Sir:

Replying to yours of the 11th, No. 117258-1,
re school at Cape Mudge, B. C.:

I may say that Mr. Rendle, the missionary
and teacher, has been asking that a separate
teacher be appointed for this work and the Mission
Board had about concluded to grant him his request
when the war broke out and he was notified that
no additional worker could be sent while the war
lasted.

The last Annual Report gives a total roll
of 17 and an average attendance of 7. There are
some schools that are not as good as this and a
few that are equal, so it has company. I would
request that the Department continue the present
arrangement until the end of June and in the mean-
-time I will make full enquiries and send the
Department a report. Personally, I think if we
could carry out the suggestion of Mr. Cairns, that
it is the proper solution of a large number of
schools, providing the Department would see that the
children were sent to a boarding or an Industrial
school.

Trusting that this will be satisfactory for
the present, I am

Yours sincerely,

T. Ferrier

I beg to inform you that the last returns received from the Cape Mudge Indian Day School, show that the attendance of pupils has been very small.

Mr. Agent Halliday, in a recent letter to the Department states that it would seem that the Indians do not appreciate the privilege of having a school at their door.

If the returns do not show an increased attendance, the Department will be under the necessity of closing this school. It is considered that the greater number of children at this point could be sent to an Industrial School.

I have received a letter from Miss M.B. Wright who is at present teaching at Skeena Crossing B.C., stating that she has been appointed teacher for the Cape Mudge Indian Day School, and she has sent me a requisition for school material which I am forwarding. Up to the present I have received no notification that this school is to be reopened and I should like to be advised on the matter and also as to what salary will be paid, if the appointment has been officially made.

I have considerably reduced the requisition and have marked in Red Ink the amounts I consider necessary for the school as Miss ~~Wright~~ Wright is apparently of the opinion that there will be thirty pupils while I will be well pleased if she has an average of ten.

If it is the intention of the Department to have this school reopened, I would recommend that the supplies as amended be forwarded.

I have to acknowledge the receipt of your letter of the 19th instant, regarding an increase in salary for Mrs. Florence Howard, teacher of the Cape Mudge Indian Day School, and also furnishing a report as to the work she is performing.

In reply I beg to say that, in view of the excellent services being performed by Mrs. Howard at Cape Mudge, both as teacher of the day school and in social service work, the Department will allow her an increase of \$100 per annum from the beginning of the present school year. This will make her salary from that date at the rate of \$900 per annum. She will also be entitled to any bonus provided by law. I would be pleased if you would inform Mrs. Howard of the increase in salary granted her.

It is hoped that arrangements can be continued for the use of the house at present occupied by the teacher, but, if not, I trust that some other suitable residence can be rented. I beg to acknowledge receipt of your letter of Sept. 9th regarding an increase of salary for Mrs. Florence Howard, teacher of the Cape Mudge Indian Day School.

In reply I may say that I cannot speak too highly of the work Mrs. Howard is doing both in school and out of it. She has a good attendance at the school and is holding night classes in conjunction with Rev. R. C. Scott for the young men, domestic science classes for the young women, and is also acting the part of a district nurse and assisting the Indian women when they require it.

I understand from Rev. Mr. Scott that the Methodist Missionary Society has made application to the Department for a house for Mrs. Howard. With regard to this I may say that it is a matter of difficulty to secure proper accommodation. We have at present under rental a small house for which we are paying \$5.00 a month. Recently while I was at Cape Mudge I was informed that the owner, Charles Wilson, wants the house for himself and the teacher may be deprived of it. This point is one that is liable to occur and recur any time and I would be glad to recommend that a comfortable four roomed cottage be built providing the Indians will give a surrender of say half an acre of land on the Reserve to be used for the purpose of housing Mrs. Howard or any other teacher that may succeed her.

Reverend Sir,-

I have to inform you that the Department is favourably considering Mrs. Howard's application for an increase in salary while engaged in teaching the Cape Mudge Indian Day School. Mr. Agent Halliday, of Alert Bay, has been communicated with in this connection.

The Department feels that, in view of the splendid social service work that Mrs. Howard is doing, the Government grant might well be supplemented by a small payment by the Methodist church. If it is your practice to pay lady teachers a small stipend as missionaries, I am of the opinion that Mrs. Howard is a deserving case.

Next year, I trust that the funds will be provided for the erection of a teacher's residence at Cape Mudge. In the interim, we are doing what we can to make it possible for Mrs. Howard to carry on with her splendid services.

Sir:-

[Handwritten signature]
I am in receipt of a letter dated April 3rd, asking for a special report regarding the services of Mrs. F. Howard, teacher at the Cape Mudge Indian Day School.

Mrs. Howard is not a certified teacher, but has given very faithful work at the school. The great criticism that I have to her school methods is that it is too much kindergarden for pupils of the age that she has there. Apart from the school work, her services have been extremely valuable to the Indians occupying the Cape Mudge village and those who visit there. Her influence has always been for good amongst them, and she has gone round helping the women to keep their houses tidy and clean, and has been of very great assistance to them in that way.

Unfortunately, for some considerable time past there has been considerable friction between Mrs. Howard and the Rev. George Knox, the clergyman there, and this has interfered considerably with the results of her work. She has two daughters, one of whom is married and who lives with her husband in the house provided for the teacher. This has been the cause of a certain amount of friction, as some of the Indians object to son-in-law being there, while many of them are quite agreeable. As no complaints have ever been made to me on this matter, I do not take any part in it, as I realize that an Indian village is a very lonesome place for a white person, unless they have some of their own kind with whom they can associate.

As you are aware, in a former letter I stated that there had been a certain amount of friction at Cape Mudge, but Mrs. Howard is not a certified teacher, and does not seem to be able to advance the pupils beyond that of Grade 2, and I would consider that in the interests of the education of the children, there should be a change made, and a teacher with a Provincial certificate should be employed to take over the school. There are a number of pupils attending the school, and they are capable of having a great deal more work done with them than what has been done.

Dear Sir:-

A Committee of our men including the Chiefs' met last night to discuss our school situation, and make recommendations to you which we feel very necessary for the benefit of our children and the improvement of our Village.

We notice the rapid changes which are taking place, and the advancements which are being made these days around us, it is so also on our Reserve at Cape Mudge.

Years ago when Mr. Walker taught here, it was very hard to get the children to attend school, especially the boys; but Mr. Walker persevered and worked hard and always took a deep interest in the scholars, and the good results are quite visible today.

However the situation has greatly changed, as our people have become more civilized, and want to go forward and take their place in life. For today our children want to go to school, and are there.

But we are sorry to have to say our children are almost at a stand still. Mrs. Howard the teacher, when she started here about ten years ago worked hard for a while, but now for some years, we notice she takes very little interest in our children and none of them are getting on as they should. There has been no school Inspector here for about two and a half years to see how things have been run. We also note the school is not being held proper hours.

So we are asking you to please see that we get a change of teacher, by the beginning of next fall term, but sooner if at all possible. A Certificate teacher, who is up to date, who can lead our children along in the modern way with the up to date system. We trust you will please take the necessary action in order to comply with our reasonable request, for the sake and progress of our Village.

Hoping to hear from you at your earliest convenience, we remain

Yours sincerely

Reverend Sir,-

I have your letter of the 9th instant, with reference to the management at the Cape Mudge Indian Day School. I wish to quote extracts from the reports of the Department's Inspector:-

"Marked success by the pupils since my last visit. They read well, spell correctly and are making progress in number work. Mrs. Howard is a faithful and efficient teacher. She is very resourceful. - - - - - Manual work and, in fact, all work is highly satisfactory. Mrs. Howard is a hard worker. Her example should stimulate the Indians of the village. She keeps everything clean and tidy. - - - - - Mrs. Florence Howard is a very versatile woman. She teaches the pupils much manual work, giving particular attention to writing, spelling and needle work. She presents her subjects in such a way that she enlists the attention of her pupils."

Recently, the Department asked Mr. Indian Agent Halliday for a special report on Mrs. Howard's work. His reply reads, in part, as follows:-

"Mrs. Howard is not a certified teacher, but has given very faithful work at the school. The great criticism that I have to her school methods is that it is too much kindergarten for pupils of the age that she has there. Apart from the school work, her services have been extremely valuable to the Indians occupying the Cape Mudge village and those who visit there. Her influence has always been for good amongst

them, and she has gone round helping the women to keep their houses tidy and clean, and has been of very great assistance to them in that way.

"Unfortunately, for some considerable time past, there has been considerable friction between Mrs. Howard and the Rev. George Knox, the clergyman there, and this has interfered considerably with the results of her work. She has two daughters, one of whom is married and who lives with her husband in the house provided for the teacher. The Department is not altogether satisfied that a daughter and son-in-law of the teacher live with her in the residence. It depends on how the son-in-law's time is employed. But I am free to state that the Department considers Mrs. Howard's work satisfactory and would learn with regret that she was to leave her post.

EXTRACT FROM REPORT OF MR. INSPECTOR G.H. BARRY,
DATED FEBRUARY 2, 1931, ON HIS INSPECTION OF THE
CAPE MUDGE INDIAN DAY SCHOOL.

Original on File 156-6-6.

Mrs. Howard has had no training. She has been 9½ years at Cape Mudge. She had some previous experience in Indian work outside British Columbia. Mrs. Howard has never attended Summer School. Mrs. Howard states that her health is good.

This school is not a success under Mrs. Howard at the present time whatever it may have been years ago. Please see special recommendation attached to this report.

I have suggested to this teacher that she attend the next Provincial Summer School for Teachers in Victoria and that she take up a Primary course. Mrs. Howard, however, states that she is resigning at the end of the present school year and is then giving up teaching.

XXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXX

I do not consider the general management of the school by the teacher to be satisfactory. This is no doubt due to the fact that the teacher has never had any training. If Mrs. Howard is to obtain results of a worth while nature, she should attend a Provincial Summer School for Teachers in Victoria this year. It is absolutely necessary for her to have a Primary Course there. I have done my best for her in the way of suggestion and have shown her a number of modern books which might help her to get better results. Mrs. Howard has no time table of lessons drawn up. Please see attached recommendation.

Mrs. Howard states that the school hours kept at Cape Mudge are from 9.30 to 11.30 and from 1 to 3 under an old arrangement made with the Indian Agent, Mr. Halliday.

Special Recommendation Attached to
Report on Cape Mudge Indian Day School

In accordance with the instructions issued to me by the Superintendent of Indian Education I am attaching this special recommendation to my Report on Cape Mudge Indian Day School.

I do not believe that the services of Mrs Florence Howard are satisfactory. I consider that for the sake of the children at Cape Mudge a change should be made at the end of the present school year, especially if Mrs Howard is unwilling to take a Primary Course at the Provincial School for Teachers this summer.

I have gone into the matter of her social service and missionary activity with the Missionary in charge of Cape Mudge.

From what I could gather from the Rev Mr. Knox this teacher is not of any considerable help in either of the above ways.

I think it quite likely that should her services as teacher be retained a large number of children will be withdrawn from the school by their parents. Two children have been withdrawn now and are being educated by a private teacher.

Dear Sir:

Enclosed please find a letter which a Committee of our Indian men wished me to dictate for them.

I might say the school situation here has been very unsatisfactory for some years, the children are not getting either the time or attention or proper training they should.

I reported the matter last spring at our Conference, and our B.C. Committee saw the necessity of a change, and have asked for it, and no doubt this would have taken place, but relatives were involved.

Mrs. Howard never having had any training, never has properly taught the different grades. We know this by having sent our own girl for a time, she both neglected her studies and health.

I also find that she sent some pupils up to Sardis School supposed to be in the fifth grade, but when they got into a standard school had to drop back some of them to the second grade. I am enclosing a photo, the two girls on the outsides have been going to this school for nearly seven years; they are in the fourth grade, but in many things they would have to drop back to the second.

I enjoy the Indians very much and with their advancement in civilization they need more than an old form of Kindergarten school. They would go ahead if they had a chance.

I appreciate very much Mr. Ditchburn what you have done to help these people since I came here about two and a half years ago; and I trust you will help to improve the present situation at an early date.

Will be glad to hear from you with any suggestions you may have to offer for the betterment of things here.

Yours faithfully,

"Geo. Knox."

Dear Sir:

A Committee of our men including the Chiefs met last night to discuss our school situation, and make recommendations to you which we feel very necessary for the benefit of our children and the improvement of our Village.

We notice the rapid changes which are taking place, and the advancements which are being made these days around us, it is so also on our reserve at Cape Mudge.

Years ago when Mr. Walker taught here, it was very hard to get the children to attend school, especially the boys; but Mr. Walker persevered and worked hard and always took a deep interest in the scholars, and the good results are quite visible today.

However the situation has greatly changed, as our people have become more civilized, and want to go forward and take their place in life. For today our children want to go to school, and are there.

But we are sorry to have to say our children are almost at a stand still. Mrs. Howard the teacher, when she started here about ten years ago worked hard for a while, but now for some years, we notice she takes very little interest in our children and none of them are getting on as they should.

There has been no school Inspector here for about two and a half years, to see how things have been run.

We also note the school is not being held proper hours.

So we are asking you to please see that we get a change of teacher, by the beginning of next fall term, but sooner if at all possible. A Certificate teacher, who is up to date, who can lead our children along in the modern way with the up to date system.

We trust you will please take the necessary action in order to comply with our reasonable request, for the sake and progress of our Village.

Hoping to hear from you at your earliest convenience.

We remain,

Yours sincerely,

Chief "Billy Assu."

COQUALEETZA RESIDENTIAL SCHOOL

Sardis, B. C.

January 24, 1931.

Mr. W.E. Ditchburn, Commissioner,
Department of Indian Affairs,
Victoria, B. C.

Dear Mr. Ditchburn:-

Re your letter #15/6/20015, dated January 20th,
1931.

In conversation with Missionaries, Teachers and Officials of the Department, I have referred to situations of a similar nature, to which you specially refer in connection with Cape Mudge, and have remarked, casually and in general terms, that sometimes children coming from an ungraded day school have to be demoted.

In this connection you refer to Cape Mudge "Pupils in Grade V at Cape Mudge when sent to Coqualeetza had to drop back to Grade 11." When pupils have come from Cape Mudge School to Coqualeetza we have had to take the word of the pupil or the parent as to standing until they were tried out and properly standardized according to grade. In looking up the records I find the case of one boy who was put in Grade V and a girl who was placed in Grade 1V. These on the office copy of the Register, were crossed out and they were reduced and put in their proper rank which was Grade 11. When questioned, new pupils sometimes state they are in a higher grade than they are entitled to, but that is not a reflection on nor a fault of the school teacher from whom they come. I have had no correspondence with the teach in question in regard to the grades but can frankly say that pupils coming from her school have not exaggerated their grade standing more than from other schools. I have had, at different times, pupils from the North who were supposedly ready to take the Eighth Grade for the Entrance examinations -- three within the last four years, who were good Sixth Grade pupils instead of Eighth Grade.

Ungraded day schools on Indian Reserves work at great disability. The children are often away with their parents for long periods, and upon returning to the school go into the Grade which they left. This spasmodic system discourages them as they have to remain for too long a period in the same grade, being outdistanced by those of the same age who commenced school at the same time but who have been able to attend regularly. I would not be surprised under such conditions a teacher might be tempted to stimulate effort by promise of advancement. The pupilage from Cape Mudge is on the whole not different from the pupilage of any other Reserve.

Trusting this explanation is satisfactory, and that it will not be necessary to bring my name into the affair as I am on friendly terms with both Missionary and Teacher.

Yours very truly,

(Sgd) G. H. Raley,

Principal.

VICTORIA, B.C., February 5, 1931.

Dear Sir: Re Cape Mudge Indian Day School.

I beg to inform you that on the 16th ultimo I received a letter from Rev. George Knox, Missionary at Cape Mudge Indian Reserve, Kwawkewlth Agency, pointing out that the conditions at the Indian Day School there were not what they should be, due to the fact that Mrs. Florence Howard, the teacher, had had no training in that profession, with the consequence that the pupils were making very little progress in their studies. A copy of Mr. Knox's letter and one from the Indians are attached hereto for your information. In order that I might know whether the facts stated by Mr. Knox were correct or not it was considered advisable to write to Rev. G. H. Raley, Principal of the Coqualeetza Residential School, on the subject, and the reply I received from him bears out Mr. Knox's contentions. A copy of Mr. Raley's letter is also attached hereto.

In view of the information obtained I took the opportunity of communicating with Capt. Gerald Barry, the newly appointed Inspector of Indian Schools, on the 20th ultimo, as he was then at Campbell River waiting to be released from the principalship of the Public School at that place, and I asked that before he came to Victoria he take the trip across to Cape Mudge and make an inspection of the Day School at that place and let me have a report. This he did and his report accompanies this communication.

position she has held for about nine years, I am of the opinion that a qualified certificated teacher be appointed to succeed her. Dr. Willis, Provincial Superintendent of Education, has informed me that we ought to be able to get a capable person for this school at \$1080.00 per annum. While Mrs. Howard was nominated by the Methodist Church of Canada for appointment, I may say that yesterday I had a visit from the Rev. Arthur Barner, Superintendent of Missions of the United Church of Canada, and he authorized me to say that he would be quite agreeable that the Department should make its own appointment in this particular instance.

Dear Mr. Sutherland: Re: Cape Mudge Indian Day School

I am not surprised at Captain Barry's attitude in regard to the Cape Mudge School and the discussion which is going on in the Vancouver Presbytery about putting a missionary-teacher at that point. Miss Hill, as a matter of fact, is the one teacher in our schools in British Columbia who was selected by Captain Barry himself, without any consultation with us. She is a good teacher and has done a very fine piece of work, but she is not the best teacher that we have in our schools in British Columbia, and she herself is not as enthusiastic about staying at Cape Mudge as Captain Barry's letter would seem to indicate.

In any re-arrangement involving the Cape Mudge School, the United Church will certainly do its utmost to place Miss Hill somewhere else. I have discussed the situation with her and she understands it perfectly. Meanwhile, I think you ought to know that no decision whatever has been reached in regard to the whole work of the Cape Mudge field for the Conference year beginning July 1st. The matter will be discussed at the annual meeting of our Board next week, and it may be that even then we cannot settle the problem. There is a possibility that Cape Mudge may again become the centre of one of our marine missions, and, in that event, the present school-teacher would not be disturbed.

Thanking you for bringing the matter to our attention,

I am

Original on 75-156.

Our present arrangement at Cape Mudge seems very satisfactory, through the fact that our teacher, Miss Jean Hill, has her aged parents living with her in the teacherage which is located on the reserve. Their presence in the village undoubtedly has a good influence and so long as Miss Hill's services are satisfactory I would like to see this arrangement continue. I understand indirectly the United Church would be in favour of the appointment of a missionary-teacher at Cape Mudge, who would be responsible for Church services as well as teaching this school, but I would definitely state in my opinion this school has reached the point where it is a full-time position for a qualified teacher, and I do not think the teacher should be burdened with the responsibility of missionary work.

The work of this school continues to be very successful. Miss Hill's parents are living with her in the teacher's residence, a cottage near the school. They also take a great interest in the Indians. I am very well pleased with the present state of things at Cape Mudge. It would be very foolish indeed for the United Church to think of nominating a man for this school with the idea that he could also look after the missionary work. There is more than enough for both teacher and missionary to do. In some places, it may be best to have a missionary teacher; but this is certainly not the case here. I believe that the present local missionary is so reporting to the United Church authorities. This matter is mentioned here as there has been a move in the past to have a missionary take over this school, and the matter is quite likely to come up again this year.

Having reference to your letter of the 9th instant and also that of the 12th February, relative to the matter of securing a suitable teacher to take charge at the Cape Mudge Indian Day School from September 1st, I beg to say I placed this matter in the hands of Captain Gerald Barry, Inspector of Indian Schools, and he has found Miss Violet A. Dear Sir;

With reference to Departmental letters 150-6-1 dated February 12th and June 9th, I have the honour to inform you that from a number of candidates I have selected Miss Violet A. Mc.Kay of the Coqualeetza Indian Residential School as the most suitable teacher for Cape Mudge Indian Day School.

I took up this teacher's record with the Registrar of the Provincial Department of Education, Victoria. The Registrar reports Miss Violet Mc.Kay as being in Attitude Good, in Personality Good, and in Teaching Excellent. She holds an Interim Second Class Certificate for Teaching, and a Strathcona Physical Training Certificate. Miss McKay was trained at the Provincial Normal School in Vancouver. Since leaving the Normal School she has been employed by the Rev. G.H. Raley, Principal of Coqualeetza Indian Residential School, as an Assistant Boys' Matron.

Miss Mc.Kay is a member of the United Church of Canada, and has had much experience in Sunday School work. I have no hesitation in recommending her for the vacant position as teacher at Cape Mudge.

Dear Sir:

In the absence of Rev. K. J. Beaton, I acknowledge receipt of your letter of February 12th with reference to the appointment of a successor to Mrs. Florence Howard, who has resigned as teacher of the Cape Mudge Indian Day School. We expect Mr. Beaton will return to the office the first week in March, shortly after which you may expect to hear from in regard to this matter.

Yours very truly,

KWANKWELTH AGENCY REPORT FOR MONTH OF MAY 1936.

X X X

It has been reported to me that the United Church are planning on making a change of teachers at Cape Mudge for the Day School there, in which a Minister-Teacher is to be appointed for this position. I am strongly opposed to this as Miss Hill's services have always been very satisfactory and in view of so much opposition to the contemplated change coming from the Indians and everyone in general, I am making a special report to the Department expressing my views opposing any change being made, and I would kindly ask the Department to not agree to any change until all the particulars are before them.

OFFICE OF
INDIAN AGENT

Alert Bay, B.C.,
June 11, 1936.

Sir,-

In my Monthly Report for May I mentioned the United Church were contemplating requesting the Department for a change of teachers at Cape Mudge School, and I suggested to the Department that no action be taken until the matter could be properly placed before them by this office.

Since then I have received a communication from the Cape Mudge Indians in which they are strenuously objecting to Miss Hill's services being discontinued, more particularly because the Church have suggested to them that a Minister-Teacher take her place, so that the minister would be available to hold Church services at Cape Mudge, Campbell River and Quathiaski Cove.

I am also informed by ministers who attended the United Church Conference recently held in Vancouver that the Church had in mind even extending the duties of the minister by placing a boat at his disposal at Quathiaski Cove so that he could serve a wider field than the places mentioned above.

First, I am not unmindful that the services of a Minister would be most valuable at Cape Mudge, but I do not think the plan which the Church have in mind is workable at Cape Mudge, and furthermore, I do not feel a Minister who would have other duties than teaching could possibly do justice to the education of the children. This contemplated change has caused considerable worry to this office, and I wish to be quite frank with the Department in expressing my views and therefore will go into detail in order that the Department will have the situation fully before them.

The Cape Mudge School is considered one of our best Day Schools; the attendance as shown by the Quarterly Returns is exceptionally good, and the Indians appreciate the value of an education and have given the Department fullest co-operation and support in having their children attend school regularly as well as assisting the teacher in every way possible. The size of the school has proven to us the necessity of a full-time teacher who has no other duties to perform, and if the teacher was required to hold three services as well as teach school, I am quite positive the school would suffer to a great extent.

We have a very splendid teacher in Miss Hill, who has given splendid service; she lives with her parents in the teacherage provided by the Department, and to lose her services at this time when she is liked by the Indians and receiving their support would undoubtedly be not in the best interests of the children.

I have been advised the Indians held an indignation meeting some ten days ago and have protested to the Church against the proposed change, giving as their reasons their appreciation of what the Department is doing for them by providing a qualified teacher who is giving her whole time to their education and stating their views along the same lines as indicated and expressed by myself.

PUBLIC ARCHIVES

ARCHIVES PUBLIQUES

CANADA

I am also informed the Church upon receiving this objection from the Indians, arranged for Dr. Wilson, head of the Church Board, to meet them last night at Cape Mudge to see if he could not persuade them to accept the Church's views but at the time of writing I have not learned the outcome of this meeting.

I understand there is a possibility of the Church suggesting to the Department that they pay a portion of the Minister-Teacher's salary in an effort to persuade the Department to accept their views so that the minister might be located at Cape Mudge to serve Campbell River, Quathiaski Cove and possibly other points in the district. While I am very much interested in economy where it is practical, yet this view does not change my opinion, and I am strongly opposed to any arrangement whereby the teacher employed at Cape Mudge will have other duties than attending to the education of the children.

I would like to refer the Department to Inspector Barry's recent report in connection with this school in which he points out the undesirability of a change being made as suggested by the Church. I know from what knowledge I have from the views of the Indians expressed to me, that a change of this kind will be unacceptable to them to them and possibly lead to a lot of unpleasantness at Cape Mudge. Both Capt. Barry and myself have strived to raise the standard of our schools by our consistent efforts and personally I feel if this change is made it will be a step backward from what has been accomplished.

While I do not wish to offer any suggestions to the Church in finding a solution to their problem, nevertheless there have been views expressed by a great many ministers that a more satisfactory arrangement could be made which would serve their interests equally as well if not better. If the Church should approach the Department to make the change that is suggested, I trust the Department will be able to convince them it would be a mistake to have an arrangement such as this at this time.

Would the Department kindly take this letter into consideration and advise me their views as we do not wish any trouble arising at Cape Mudge when things are as satisfactory as they are at the present.

Schmidt
Sir,-

Further to my letter of yesterday's date regarding the situation at Cape Mudge, I have had an opportunity of discussing this matter confidentially with Rev. L. Gillard, United Church minister at Alert Bay, who has just returned from Cape Mudge where he attended the meeting held by Dr. Wilson and the Indians in an effort to persuade the Indians to accept the proposed change of Rev. T. Colwell succeeding Miss Hill as teacher of the Cape Mudge Day School.

As the information imparted to me was more or less confidential, it being purely Church matters, I would appreciate if the Department would treat the Church views as such.

Mr. Gillard told me the Church's intention was purely to get the Department to assist in paying the Minister's salary. They have two plans in mind, the first is to get the Indians to agree to accept Rev. Colwell as teacher and for him to hold service at Cape Mudge only. The second plan is to have Mrs. Colwell appointed as teacher, leaving Mr. Colwell free to attend to the Church matters by holding services at Quathiaski Cove, Campbell River and Cape Mudge, as well as providing him with a boat to serve other outlying districts. They have a boat on the Arrow Lakes which is of no use to them there, and are planning to ship this to Vancouver and send it to Cape Mudge for this purpose.

Mr. Gillard told me confidentially that if Mr. Colwell was appointed as teacher in his opinion it would be a step backward as his teaching qualifications are not as high as those of Miss Hill. He also stated at the present time Mrs. Colwell is teaching in a private school in Vancouver and that her qualifications were satisfactory. He further stated the Indians asked Dr. Wilson at the meeting how she could hope to teach school when she has four or five young children of her own to care for, which to me seems quite logical when Mr. Colwell under these arrangements would be away from home on the boat most of the time.

At this meeting called by Dr. Wilson to interview the Indians only a few of them would turn out, and those who did go stated if the Church insisted on this change being made they would receive very little co-operation from the Indians.

For the Department's information, Mr. Gillard is familiar with local conditions and he told me he knew the plan was not workable nor in the best interests of the Indians, and stated he told the Conference this when he expressed his own views to them recently in Vancouver. He also stated Dr. Wilson told him as well as the Indians that he personally did not approve of it, but that his hands were tied by Rev. Kenneth Beaton in Toronto who is insisting that this arrangement be made.

Indian Affairs. (RG 10, Volume 6386, File 805-1, 1)

PUBLIC ARCHIVES

ARCHIVES PUBLIQUES

CANADA

Mr. Gillard also informed me he and Dr. Wilson visited Mr. Walker, late missionary-teacher of Cape Mudge to get his views, as well as many others in the district who are interested in the welfare of the Indians, and every-one in expressing his opinion said the Church would be making a grave mistake in letting Miss Hill go and making a change as in their opinion it would be a step backward and they would not receive the co-operation of the Indians. They felt this would undo the progress that has been made through the splendid co-operation of the Indians with the Department and the Church in the past.

I understand Dr. Wilson returned to Victoria last evening where a further meeting was to be held by the Board in respect to the suggested change.

Mr. Gillard informed me that unless they could find a position for Miss Hill they would not appoint Mr. Colwell to this position, but they had in mind a position for her at the Coqualeetza Residential School.

This office is very much concerned because we can see through the attitude of the Indians; should a change be made along the lines indicated the work at this school would be retarded and much unpleasantness prevail, and personally I would not care to take the responsibility of anything that would happen through the outcome of such a change.

The Indians in their objection pointed out to Dr. Wilson should a Minister be appointed a school teacher, he would be called upon to hold funeral services when any deaths occurred in the vicinity and that would mean the closing of the school under these circumstances.

As far as I can gather, everyone whom Dr. Wilson consulted who knows local conditions, informed him the suggested change the Church is contemplating is unworkable and would not be in the best interests of the Indians or the district. I am told most of the members of the local Board wished to see a Minister located at Cape Mudge, where they have a good manse, to serve the entire district; this arrangement would be quite separate from the school. They feel there is a large field to cover, which I know is correct, and would require the full-time services of a Minister to carry out this work, but that the Rev. K. Beaton is not in favour of it on the grounds of economy; he is trying to combine the two positions into one with that view in mind.

I would strongly recommend to the Department that they try and convince the Church of the necessity of retaining Miss Hill's services, and would appreciate if they would kindly advise me as quickly as possible their views so that I may notify the Indians and so relieve the tension which has been created at Cape Mudge. When I received this full information from Mr. Gillard I felt it was so serious I communicated with the Department by night letter which doubtless they have received by now.

Reverend Sir:

I would refer you to official letter of the 12th instant, regarding a contemplated change in the teaching services at the Cape Mudge Indian Day School. The Department has received a protest, on the part of the Indians, objecting to Miss Hill's services being discontinued, more particularly because it has been suggested to them that a minister teacher take her place, so that the minister would be available to hold church services at Cape Mudge, Campbell River and Quathiaski Cove, and that a boat be placed at his disposal, so that he could serve a wider field than the places mentioned above. The Indians feel that a minister who would have other duties than teaching could not do justice to the work in the school.

The contemplated change in teaching services appears to have caused considerable worry to the local Agent. The Indians desire that Miss Hill be continued as teacher, as she is liked by the parents and is receiving their support. I understand that the Indians have protested to the officials of the United Church in British Columbia.

I should be pleased to be advised, at an early date, the arrangements it is proposed by the United Church authorities to recommend, in regard to the teaching service at Cape Mudge for the coming school year.

Dear Sir:

I have your letter of the 11th instant, regarding teaching services at the Cape Mudge Indian Day School for the coming academic year, and, for the reasons stated by you, requesting that the services of Miss Hill, the present teacher, be continued.

In this connection may I say that the Department has received no intimation from the authorities of the United Church that any change is contemplated by them in the teaching arrangements at this school. We are therefore not aware of any proposed arrangement by the United Church authorities regarding the appointment of a missionary teacher. Should a request be received from the Church Authorities, that a missionary teacher be appointed for the coming school year, your protest will receive every consideration.

Dear Mr. Sutherland: RE CAPE MUDGE INDIAN DAY SCHOOL

I have your letters of June 12th and 20th concerning Cape Mudge, and I have delayed replying until some of the difficulties in the situation could be adjusted.

*Approved

It is true that the Settlement Committee of the British Columbia Conference have appointed an Ordained Missionary Teacher to the Cape Mudge field, and that they propose to provide him with a boat enabling him to give more efficient service to Campbell River and other nearby points. Most of the objections raised by the Indians are groundless. Rev. T. C. Colwell, B. A., is not only a University graduate, but he holds a Teacher's certificate and has taught in both Ontario and Alberta. His wife is also an experienced Teacher. Her original certificate was obtained in Scotland, and is the highest grade of Teacher's certificate obtainable in Scotland. Having examined it carefully, I think it would be the equivalent of two years in the University of Toronto with one year additional at Normal School; or in other words, it would be what we in Ontario call a First Class Permanent certificate. My hope is that Mrs. Colwell will be nominated as the Teacher, although that was not the intention of the Settlement Committee in B. C. That would ensure not only efficient teaching in the School, but remove the fear which the Indians apparently have arising out of experiences with Missionary Teachers in the past, that the School would be closed when the Missionary receives week-day calls to other points for funerals, etc.

The one unsolved problem up to date is the finding of a place for Miss Jean Hill. I have explained to our representatives in B. C. that Miss Hill was an appointee of Captain Barry, and that it is very important that a School should be secured for her. We have no Indian Day School open in B. C. this year to which she could be appointed, and I am wondering if there is any School where the Department makes the appointment that is likely to be open.

Dear Sir:

I have your letter of the 18th instant, regarding the request of Reverend T. C. Colwell, that permission be granted for his children to attend the Cape Mudge Indian Day School.

As you state there is a white school a short distance away, the Department is not aware of any reason why this man's children could not attend that school. The Cape Mudge Indian School is for Indian children only, and, unless there is some very special reason, the Department would not be prepared to grant this request. You might take up this matter with Mr. Colwell, ascertain his reasons and report to the Department, when the matter will receive further consideration.

Sir,-

Replying to your letter of September 25th last, No. 156-6-1 in reference to the request of Reverend T.C. Colwell that permission be granted for his children to attend the Cape Mudge Indian Day School, I have enquired from Mr. Colwell his reasons for this request, and he states as follows:-

"I would like our two youngest daughters, aged 7 and 6 respectively, under my own influence and instruction.

"The hill our children would have to climb is more like a miniature mountain and would be bad in the rainy and snowy winter, especially for the older child who is not too strong. It would mean tutoring them for a portion of the school year; the full distance would be possibly $1\frac{1}{2}$ miles."

In commenting upon Mr. Colwell's request, I feel I should point out to the Department that the Cape Mudge Day School is only a small building and that the number of Indian children attending this school already overcrowds the available space, and personally I cannot see how there is room for any more seating capacity.

Would the Department kindly advise me their wishes in respect to Mr. Colwell's request for his children to attend the Cape Mudge Day School.

Dear Sir,-

With reference to your letter of the 24th ultimo, it is difficult for the Department to decide whether or not Mr. Colwell's children should attend the Cape Mudge Indian Day School.

It should be kept in mind that this school is intended primarily for the Indian children and, if there is not accommodation for the Colwell children, they should attend a White school. If, however, you wish to make an exception in the case of the older child, who is stated to be not too strong, the Department will have no objection to your doing so.

The Cape Mudge Day School is located at the village of Cape Mudge; it is about 25 or more years old, built by the Department and was redecorated in 1936 both interior and exterior. It is modern in every respect and has always been one of our most progressive day schools. I regret however, owing to a change of teachers, the progress of the pupils has been retarded and I would recommend to the Department a change of teachers be contemplated. The Department is paying the maximum salary and I feel the present arrangement is not satisfactory. There are 32 pupils now on the school register. The school is under the auspices of the United Vhurch of Canada.

The Day schools at Campbell River, Cape Mudge, and Alert Bay are in splendid shape and a real credit to the Department. While the Missionary schools at Village Island, Kingcome Inlet, Quatsino and Smiths Inlet which were built by various Missions with assistance from the Department are in fair state of repair, they are difficult to administrate. I feel the Department should own these schools and have full administrative powers as the buildings are on reserves. I would recommend if and when funds are available the Department should purchase any equity the Missions may have in these buildings to avoid any future complications which may arise between the Indians and interested parties.

Ottawa, May 10, 1937.

Dear Dr. Dorey:

On December 8, 1936, the Department wrote Reverend Mr. Beaton with regard to the Cape Mudge Indian Day School. At that time we enclosed a copy of Mr. Barry's report regarding his inspection of the Cape Mudge School on November 23rd, 1936. In order that you may have complete information, I enclose another copy of this report.

In his monthly report for March, 1937, Indian Agent Todd writes as follows:-

"The Cape Mudge Day School is located at the village of Cape Mudge; it is about 25 or more years old, built by the Department and was redecorated in 1936, both interior and exterior. It is modern in every respect and has always been one of our most progressive day schools. I regret, however, owing to a change of teachers, the progress of the pupils has been retarded, and I would recommend to the Department a change of teachers be contemplated. The Department is paying the maximum salary and I feel the present arrangement is not satisfactory. There are 32 pupils now on the school register. The school is under the auspices of the United Church of Canada."

Encl.

R.H.
I feel it would be in the best interests of our work at this point to make a change in the teacher at the end of the current academic year. I would appreciate if you would make the necessary arrangements to do so and advise me later regarding the name and qualifications of the teacher whom you nominate to take charge of the school after the summer holidays.

Yours very truly,

Rev. Geo. Dorey, D.D.,

It is noted from our records in respect to the site for the teacherage at Cape Mudge that one-half acre of Reserve No. 10 by resolution dated February 5th, 1923, was transferred to the Department of Indian Affairs to be used as a site for a teacher's residence so long as it was used for missionary or educational purposes.

A reply at the Department's earliest convenience would be much appreciated.

EDUCATION:

On the 24th of September, Captain Barry arrived at Alert Bay and inspected the Indian Summer School as well as St. Michael's Residential School. A report by myself to the Department on the Summer School will be made shortly as requested by Major E.M. D.M. MacKay Indian Commissioner.

As the Cape Mudge and Campbell River Day Schools are supposed to open on October 1st, I regret I cannot make any comment on these schools to date I have not been notified that teachers have been appointed. It is hoped the Department will do everything possible to get these particular schools opened as the children are in the villages and ready to attend. In respect to the Quatsino Indian Day School the same situation exists there as I have not been notified of any teacher being appointed; however in this particular school it is not quite so important as the pupils have not all returned to the village as yet.

I am feeling rather upset in respect to Miss Uphill, teacher of the Campbell River School. In her case she was quite willing to remain there provided the Department gave her an increase in salary to cover her increased cost of accommodation, and personally I think she was entitled to it, but instead of giving her the increase, she was permitted to be transferred to the Nanaimo Day School at an increased salary, which resulted in the Campbell River School being left without a teacher and the necessity of breaking in a new one.

Alert Bay, B.C.,
29th November 1941.

Dear Sir,-

During the latter part of October, I visited the Cape Mudge Indian Day School and met the new teacher, Mrs. Goodrich. After discussing the work with her and giving her what help I could, I had grave doubts in my mind as to whether she would make a success, and feeling this way I particularly tried to assist her with some of her supposed problems which she presented to me.

On November 24th last I again visited this school, and was immediately told by Mrs. Goodrich that she was leaving the end of this week and asking me if I had received her letter, which had evidently arrived after I had left the office. She seemed very much upset, and in a very nervous condition, so much so that I immediately became worried about her. She has been living alone in the teacherage, and whether this has anything to do with it or not I cannot say, but I am afraid it has. After talking with her I told her that both she and the Department were required to give thirty days notice, and asked her if she would carry on until Christmas. She informed me she would think it over and if I did not hear from her on Wednesday the 26th I would know she was staying until Christmas time. However on Thursday morning I received the following wire: "Leaving Cape Mudge November 29th; letter follows".

Had there been sufficient time to send a wire to stop payment of her last month's salary cheque, I would have done so, but I felt the cheque had already been issued and no doubt mailed from Ottawa.

It might be as well for me to give the Department my views as to what has transpired in Cape Mudge and caused the resignation of this teacher. First, I do not think Mrs. Goodrich felt that she had the ability to teach the higher grades in the classroom, and it became a great worry to her. Secondly, she did not appear to get on with the Indians, and in my opinion she is to blame for this as she refused to have anything to do with the parents; I do not think she likes Indians and always seemed to be looking for trouble. She was not happy in the teacherage, and complained about the building.

The Cape Mudge village, as the Department knows, is one of our best, and to have a problem with the school is working not only to the disadvantage of the village itself but to everything connected with the Cape Mudge people, as they have always been very proud of their Church and the education of their children. That is why I feel more attention should be given to this school possibly than to some others. During the time Miss Hill was teaching there and living with her parents in the teacherage, it was an ideal arrangement but from the time the Church moved this family out there has been nothing but grief, and I would like to see them come back if at all possible. Miss Hill is a good teacher, is

well liked

Indian Affairs. (RG 10, Volume 6386, File 805-1, part 1)

PUBLIC ARCHIVES

ARCHIVES PUBLIQUES

CANADA

well liked by the Indians, and her people have a very good influence in the community life of that place. When I received Mrs. Goodrich's wire stating she was leaving the following night, I wired to Miss Hill at Port Simpson asking her if she would consider a transfer back to Cape Mudge, and am this morning in receipt of a message from her stating if this was approved by the Department she would consider a transfer if full transportation costs were paid, as she could not afford to move otherwise.

If this was arranged, and Miss Hill transferred back to Cape Mudge, possibly Miss Marguerite Stevens of Koostak, Manitoba, about whom I wrote you recently, who is United Church, might be given the position at Port Simpson now held by Miss Hill.

I think I should tell the Department also that a great deal of our trouble in Cape Mudge village is on account of the missionaries who have been there during the past few years. The United Church have now there a Reverend and Mrs. McConnell, who have been superannuated for years; these elderly people mean well, but it is hopeless to have them trying to minister to young people, and the result has been that it is not only making it difficult for the teacher but it is disorganizing and disuniting the whole village life. Mr. and Mrs. Hill have in the past done as much practical missionary work at Cape Mudge as any missionary, and in my opinion if this family would return to the village the resident missionary could be removed and services held intermittently by a transient clergyman, if the Church has no younger men available for these positions.

No doubt the school will now have to be closed until after the Christmas holidays, but I would kindly ask you to take up the matter with Mr. Bunt, Superintendent of Missions for the United Church, and see if some arrangement cannot be made to review the Cape Mudge situation and have Miss Hill and her people moved back to this village.

Dear Sir:

With reference to your letter of the 2nd instant the Department accepts the resignation of Mrs. Goodrich, teacher of the Cape Mudge Indian Day School, effective November 30, 1941.

We are not prepared to consider transferring Miss Hill from Port Simpson to Cape Mudge at the present time. It is noted from the last paragraph of your letter that the United Church authorities will nominate, in the near future, a teacher to take charge of this school for the period January 1 to June 30, 1942.

AIR MAIL

Dear Sir:

I am forwarding a letter dated November 29th last received from Mr. Indian Agent Todd referring to the resignation of Mrs. Goodrich, teacher of the Cape Mudge Indian Day School, Kwawkewlth Agency, as from the end of November, 1941.

Under the circumstances, I would recommend that Mrs. Goodrich's resignation be accepted.

With reference to Mr. Todd's suggestion that Miss Hill, at present teaching at the Port Simpson Indian Day School, be transferred back to Cape Mudge, I may say that I am not prepared to recommend such a transfer.

Vacancies in Indian Day Schools working under the auspices of the United Church of Canada were discussed in a conference here this afternoon at which the Reverend W.P. Bunt, Superintendent of Missions, United Church of Canada, and Inspector Barry were present. During this conference the Reverend Mr. Bunt intimated to me that he had in mind the nomination of a well-qualified teacher for the Cape Mudge School for the academic year commencing in October, 1942, and he further stated that he would forward to the Department through the United Church officials the name of a suitable teacher to fill the vacancy at Cape Mudge for the second half of the present academic year from January to June, 1942, inclusive.

Dear Mr. Hoey:

Re - Cape Mudge Day School

Mr. Bunt informed us some time ago that Mrs. Goodridge had resigned from her teaching position at Cape Mudge, due to ill health. As a substitute, we beg to nominate Mr. Ernest G. Moyer to carry on on a temporary basis until June 30th, next. Mr. Moyer is not a certificated teacher, but he is a candidate for the ministry; aged twenty-eight years; with third year standing in arts in Toronto University. He is a young man of excellent character and will, I think, look after the school in a satisfactory manner until a duly qualified teacher is obtainable. As you know, it is very difficult to get these anywhere just now.

We shall be glad if you will let us know if this appointment is confirmed, so that Mr. Moyer may be able to undertake his duties as soon as possible.

I understand from Mr. Bunt that he has had an interview with the Commissioner and the Inspector and that both are agreeable to Mr. Moyer's going to Cape Mudge.

I desire to refer you to your letter of December 6, 1941, nominating Mr. E.G. Moyer as temporary teacher at the Cape Mudge Indian Day School. As his services will terminate on June 30, 1942, I thought it would be advisable to bring the matter to your attention now in order to give you plenty of time to secure a qualified teacher, if possible, for the year 1942-43. As you are aware, due to unavoidable circumstances this school was only open for part of the current academic year and consequently I am anxious to have it in operation for the whole of the next academic year.

Dear Major MacKay:

I am forwarding herewith my report on the Cape Mudge Indian Day School, United Church of Canada, Kwawkwalth Agency, which I inspected this afternoon.

I am sorry to say that the teacher, Mr. Moyer, has not made a good start here. You will remember that I did all I could for him when he called on me in Vancouver in December. It would not appear that he has put into effect the suggestions then made for his assistance, and I very much doubt that he will ever make a teacher. He lacks professional training and is in fact the second teacher here this academic year.

Mr. Moyer has not gained any marked degree of control of his pupils. The failure in discipline is due to the teacher and not to the children, who are very easy to handle. I would ask you to refer to my last report on this school dated March 11th, 1941, following my visit to the school the preceding day.

The school was found to be in a most untidy condition, papers and orange peel all around the building and bits of paper all over the schoolroom floor.

Mr. Moyer's appointment was I believe of a temporary nature, and I would recommend that his services be not continued after the close of the present academic year in June, 1942. He is I believe a well meaning young man but he is not suited to be a teacher and should seek other work in my opinion.

Yours very truly,

EDUCATION

The Campbell River Day School was reopened early in the month, Mrs. Yeatman having been obtained as teacher. This school was visited during the month and the teacher interviewed, though on the day of my visit the school was closed owing to Mrs. Yeatman being ill. It is my opinion that this teacher will be very successful in her work at Campbell River, as she seems to have settled in nicely and is enjoying the school.

I was very disappointed to find that things are not very successful at Cape Mudge, and it would now appear, as reported at the beginning of this report, that this school will be closed until Christmas unless another teacher can be immediately appointed. This is very regrettable especially at this school where the Indians have always been keenly interested in the education of their children.

Two Day schools were inspected during the month, Campbell River and Cape Mudge. In regard to the Cape Mudge school, I regret to say that I was not favourably impressed with the teacher, in fact I am of the same opinion as Inspector Barry as reported on his last inspection. The pupils of the Campbell River school seem to be making satisfactory progress, and I feel the Department is very fortunate in having Mrs. Yeatman as teacher of this school; the children appeared bright, happy, clean and responsive.

EDUCATION

The Day Schools as well as the Residential School appear to be carrying on satisfactorily, with the exception of the Cape Mudge School, where the Department has notified the teacher that his services will not be required after the present term.

This year the usual Empire Day celebrations were held at Alert Bay, and owing to it coming during the time of the Red Cross Appeal, the citizens of this community arranged to make it a Red Cross Day entirely, with all financial receipts going to the Appeal. A varied programme was arranged, a parade taking place in which all schools participated. I am pleased to state that the senior pupils of the Alert Bay Indian Day School under the direction of Mrs. Massey received the first prize. Mrs. Massey spent a very great deal of her own time in preparing costumes for her pupils to represent the Canadian Junior Red Cross, of which they are chartered members, and in passing this information on to the Department I would like to state how very fortunate we are in having Mrs. Massey as a teacher as she takes such a keen interest in the welfare and activities of her pupils.

Dear Sir:-

Would you kindly let me know if you have an address for Mr. Ernest G. Moyer, formerly employed by the Department of Mines and Resources, Indian Affairs Branch, as a teacher at Cape Mudge Indian Day School, Kwawkwalth, B.C. From information received from the Officer-in-Charge, Central Recruiting Station, Vancouver, B.C., it is thought that he may have gone overseas and your name has been given as his next of kin. We are holding a cheque drawn in his favour which we would like to forward to him.

Attention Chief Treasury Officer
(Your File 156-6-1)

With reference to your letter of November 26th last, I beg to advise that, despite numerous enquiries, we have been unable to contact Mr. E. G. Moyer, and Cheque No. 22915 dated November 17th, 1942, amounting to \$27.59, in his favour, is being returned herewith.

On January 7th I wrote to Mr. Moyer at Camp Borden, Ontario, but have received no reply. I have received information from the Officer-in-Charge, Central Recruiting Station, Vancouver, that Mr. Moyer's regimental number is K65498 and that he has probably gone overseas. The address of his next of kin is:

Education - As no teacher was obtained for the Junior Room of the Alert Bay Day School, arrangements were tentatively made and later approved by the Department, that the school be held on a half-day system until a second teacher can be secured. On account of the severe weather, this school was closed for three days during the month. The Campbell River and Cape Mudge Day Schools were inspected during the month, and found in excellent order. It is noted however that the Cape Mudge School is overcrowded, and as the structure itself is very old, the Indians made application at their general meeting to have a new school provided. It was explained by Inspector Coleman that this would not be possible during the emergency, but that consideration would be given same at a later date, and I would support this as soon as funds are available.

Education

Three Day Schools in the Agency opened on October 1st, to those at Campbell River, Cape Mudge and Alert Bay.

In connection with the two former schools, I visited them during the month, and found fair attendance, the children appeared happy, healthy and glad to be back to their studies, and I cannot speak too highly of Mrs. Yeatman and Mrs. Wilson, teachers of these two schools respectively. Both are very keen, and the Department is fortunate in having these particular ladies in charge of these schools.

I have your letter of the 10th instant, enclosing copies of letters received from the teachers of the Cape Mudge and Campbell River Schools with reference to the school term.

The Department feels that we allow reasonable holidays and that the total length of the school term is not too long. We do not consider it necessary to strictly adhere to the provincial basis. Under these circumstances we are not prepared, at the present time, to make any change in the length of the term.

I am in receipt of copy of a letter of Mr. Indian Agent Todd's of the 10th instant addressed to you enclosing the protest of Mrs. Wilson of Cape Mudge Indian Day School and Miss Hill of the Campbell River Indian Day School against the school calendar for Indian Day Schools.

No doubt the Department is aware that these two teachers are teaching at adjoining schools which accounts for their identical letters of the same date.

No objection has been received from any other Agency or teachers in the Province regarding the period of the opening of Indian Day or Residential Schools, and I would recommend that no action be taken in the matter in this case as to operate the schools on a strictly Provincial basis would probably create some difficulty in respect to those on Catholic Reserves where certain Holydays of obligation are observed.

The enclosed copies of letters have been
received from Mrs. Margaret Wilson of Cape Mudge
Indian Day School, and Miss Jean Hill of the
Campbell River School, and will be self-explanatory.

The same question has been in my mind for
sometime as I, personally, have seen the difficulties
the teachers have experienced over this same matter.
I feel myself if the school calendar for the Indian
Day School could be established the same as the
Provincial in each Province, it would clarify and,
no doubt, help attendance, and remove any thought
of discrimination.

Possibly the department would give this their
consideration and advise me accordingly.

Dear Mr. Todd:-

The closing of Indian Day Schools one week later this year than the Provincial Schools, has brought to the fore a question that has been in my mind for sometime. Since we follow the same course of studies as the Provincial Schools, would it not be better for us to follow the same dates of opening and closing school?

I have found that whenever we re-open a few days earlier or close a few days later than the other schools, there is a very strong feeling of resentment among the pupils and in some cases among their parents too. I fully appreciate the fact that the department wishes the children to attend school as many days as possible during the year; but the children, and some of their parents, seem to feel that it is a matter of discrimination against them simply because they are Indian children. This is particularly the case, when, as at Cape Mudge, there are a number of Provincial School in the same district.

Would it be possible for you to take this matter up with the department, because, in my opinion, opening and closing school on different dates from the Provincial Schools has a detrimental effect upon our work.

Yours truly,

(signed) Margaret Wilson.

Dear Mr. Todd:-

Will you please explain why the school calendar for the Indian Day School is not the same as the Provincial? As we have the same Inspector, Course of Study and the pupils are expected to have the same standards as the grades in the Provincial schools, it would seem only reasonable that we have the same teaching days.

I would appreciate an explanation not only for myself but also for several of my pupils and their parents who have asked me about this matter.

All schools in this Agency have now been closed for the summer holidays with the exception of St. Michael's Indian Residential School where a few pupils remain under the supervision of a few members of the staff. For the department's information I wish to advise you the following teachers have written me stating it is their intention to return to their respective schools at the beginning of the new term, September 1st, 1944; Mrs. Jane Massey, Principal Alert Bay Indian Day School; Miss Madeline McGill, teacher senior room Alert Bay Indian Day School; Mrs. Margaret Wilson, teacher Cape Mudge Indian Day School. In connection with the Campbell River Indian Day School I hope to have a communication from Miss Jean Hill shortly to the effect that she will also return as our teacher there for the next academic year. In connection with St. Michael's Indian Residential School it has been reported to me there are many changes this term as well as at the Preventorium where our matron has resigned, as she is being married.

Dear Mr. Hoey: Re - Cape Mudge Day School

We are just in receipt of a letter from Rev. W.P. Bunt, advising that Mrs. Margaret Wilson has resigned as teacher of this school and has so notified the Indian Agent. As her successor we are nominating Mr. Frederick W. Lynn, on a temporary basis, his appointment to terminate June 30th, 1945. Mr. Lynn holds a first-class certificate for both British Columbia and Alberta and has had about twenty-five years' teaching experience. He has recently been discharged from the Armed Forces, and Mr. Bunt says that his character references are satisfactory. He is a married man, but will not be taking his wife with him to Cape Mudge.

Will you kindly wire confirmation of this appointment direct to Rev. W.P. Bunt, whose address is - 411 Dominion Bank Bldg., Vancouver, so that he can notify Mr. Lynn (who is living in Victoria) to begin work just as soon as possible.

Education;

Approval has been given for the appointment of Mrs. M.M. Yeatman as teacher of the Campbell River Indian Day School and as Mrs. Yeatman is a very splendid teacher we are very fortunate in again obtaining her services. On December 30th, 1944, this office was advised by Mrs. M. Wilson, teacher of the Cape Mudge Indian Day School, that she had resigned, and it is presumed her resignation was sent to Rev. W.P. Bunt, Superintendent of Home Missions, United Church of Canada, Vancouver. Previous to receiving this notice from Mrs. Wilson I had been informed by her that Rev. T.F. Moore, United Church minister located at Cape Mudge, was interfering with her school work to such an extent that unless this ceased she would have no alternative but to resign. As Mrs. Wilson is one of our best teachers and I being personally familiar with the circumstances referred to by Mrs. Wilson, I reported the matter fully to Major D.M. MacKay, Indian Commissioner, Vancouver, enclosing a statement made by Mrs. Wilson, and requested that the matter be taken up with Rev. Bunt, as I was sure Mrs. Wilson was not to blame in any way. I might state I have written to Mrs. Wilson requesting her to stay on until June 30th next, and informed her that Rev. Moore informed me he had resigned from the Church and was leaving Cape Mudge at the end of December, 1944. to study medicine in the United States. To date I have not had any further reply. As the department is aware, Miss M. McGill, teacher of the senior room in the Alert Bay Indian Day School, ceased her duties on December 31st, 1944. I am again drawing it to their attention with the hope that every effort will be made to re-open this classroom as soon as possible. I have forwarded one application to the Commissioner's Office, with a hope that we may be successful in obtaining the services of a teacher.

Dear Mr. Todd:

Kindly excuse the use of pencil as I am worried and I have a chance to mail you a note.

I don't know how you have found this Minister here. To me, he is just plain qucer - he has a chip on his shoulder all the time. From the time I arrived, he painted this whole situation black and he hasn't a good word for anyone. I avoided words with him until Sunday, then he went just a bit too far and I told him straight that I was not working under him. I told him that I was nominated by Mr. Bunt and that I came here to run the school and I was working directly under you. He bothered me so much that I went down to Vancouver last Wednesday to see Mr. Bunt. I just missed him as he had left for Montreal. Dr. Roddan told me that his case had been pending for some time and that Mr. Bunt would come right out here when he came home.

I would be so glad if you came here. Anything pertaining to the matter will be in the strictest confidence as far as I am concerned.

I love the place here. The people are all so nice. I certainly will not let you or the Church down. I will try to stand pat until I see what happens, but it's tough.

Alert Bay, B. C.,
Sept. 5th, 1946.

Indian Commissioner for B. C., Department of Mines and
Resources, Vancouver, B. C.

It is regrettable the time has now come when I must
make an adverse report against the activities of the Rev.
T. T. Moore, United Church Minister, located at Cape Mudge
Reserve.

During the few years Mr. Moore has been Minister at
Cape Mudge Village he has made himself very disagreeable
towards our teachers; so much so that we have been unable
to keep good teachers for any length of time. He has
quarrelled and made their lives so unhappy that some of
them have resigned without completing their term.

This year the Rev. W. P. Bunt, Superintendent of
Home Missions, United Church of Canada, recommended that
Mrs. B. M. Kitchenmaster be transferred from Kitsegukla
to Cape Mudge School. Upon her arrival Mr. Moore evidently
started to quarrel with her. This was before school opened.
On August 29th Mrs. Kitchenmaster wired me her resignation.
I immediately put in a long distance 'phone call, which
incidentally cost the Department \$7.85, to try and persuade
her to remain there and open the school, pointing out that
we could not obtain another teacher. This she finally
agreed to do with the understanding that the Department
take the matter of his interference up with the Church
Authorities.

I enclose you, herewith, copy of a letter I have
just received from Mrs. Kitchenmaster, which will be self-
explanatory, and which was written prior to her wire of
resignation. A serious quarrel evidently took place after
this letter was written which forced her to resign.

For years I have been trying to deal with this problem believing it might be of a local petty nature, but am now convinced that it is a deliberate attempt on the part of Rev. Moore to interfere with the duties of the teacher. Mr. Moore has the idea that the teachers have to take orders from him and that the Department have no say in the administration of Day Schools. I have pointed out to Mr. Moore on many occasions that the administration of the Schools comes entirely within the jurisdiction of the Department, and have tried to get him to see that his duties there are purely ministerial and that the administration of the school is the responsibility of the Department; but he evidently thinks otherwise and insists on ordering the teacher around as he sees fit.

I think the kindest thing to say is that the situation has become hopeless and through his activities the efficiency of this school is deteriorating. This is one of the best attended schools we have and I should like to see it running smoothly and the children able to have the benefit of a good education, but this cannot be done when the administration of the school is being interfered with unnecessarily by the local minister continually quarrelling with the teachers.

I am asking that the Department take this whole matter up with the Rev. Bunt with a view to cleaning up this situation for once and all. There is no object in allowing it to go on, and so far as I can see there is no hope of it improving so long as Mr. Moore remains at Cape Mudge.

Reverend T. T. Moore, United Church Minister,
Cape Mudge Reservation.

We have received a letter from Indian Agent Todd dealing with the above Minister's alleged interference with the teachers at the Cape Mudge Day School. Would you please advise if you wish any action taken by the Department with the Reverend Dr. Dorey. It is understood that a copy of Mr. Todd's letter was sent also to the Reverend W. P. Bunt, Superintendent of Home Missions.

Further to my letter of September 5th last in which I made a report in respect to difficulties between the Rev. T. T. Moore and Mrs. B. M. Kitchenmaster, minister and teacher respectively, both living at Cape Mudge Village, I now wish to enclose you, herewith, copies of further correspondence received from both which will be self-explanatory.

In view of the clash which seems to be between personalities I do not consider the Department can take any action other than report the matter to the Rev. W. P. Bunt, Superintendent of Home Missions, United Church of Canada; as I consider it is his responsibility to clear up this situation and not allow it to continue.

This Indian village is one of the finest in B. C., and it does seem too bad that the interests of the school and the Indian people themselves should be subjected to such conduct and unpleasantness which, no doubt, will have unbeneficial effect on their lives.

I have now come to the conclusion that as there has been so much harm done in this village that it would be better in the interests of all concerned that both Rev. Moore and Mrs. Kitchenmaster be transferred elsewhere and more suitable successors appointed to succeed them.

Dear Mr. Todd:

I am still here and I will remain until the end of the month if possible to see what happens. Dr. Roddan has advised me that this man's case has been pending for sometime and will be dealt with as soon as Rev. Bunt returns from Montreal.

He has acquired a very peculiar attitude toward everything and everybody. If I speak well of anyone, it is just too bad for me. If I take an optimistic view of anything, he sees no good.

We have had an open clash. I told him a few things very plain. He certainly is living very wrong in his thought world. Certainly we cannot both remain in this small village and if it is for me to go, I will do so at the end of the month. One could not possibly co-operate with a man like him. I sometimes wonder if he is just responsible for what he says.

The stoves here are not up to much. The range in the kitchen is hopeless. I have been wondering if the chimney has something to do with it. I bought new pipes for the stove in the front room as the pipes were badly rusted and I was afraid of fire. I was fortunate in being able to purchase a two burner Coleman gas stove at the B. C. Packers to cook on. I bought a cord of wood but I would be so pleased if you bought me an oil burner.

This is a lovely little spot. The yard can be made very pretty and the cottage has possibilities. The children and I will clean the school yard next week. The ladies of the village scrubbed and cleaned the windows in the school the night before we opened.

Dear Mr. Todd:

Your letter with regard to trouble with the teacher has come to hand and I should like to assure you that it is not my desire or intention to interfere with her work in any way whatsoever. However I am not at all responsible for opinions and notions that she may have from time to time. Up to the date of your letter to me I have had little time to see her at all let alone bother her in any way. Peter Kelly was here for her first four days and then I was away in Vancouver and only returned for Dr. La-Violettes visit. During the time of his visit we were very occupied. After that I went away until two days ago for Scout Camp.

I think that if you look into the matter you will find that there are some other causes at the root of her disturbances. Probably the main external cause is the fact that she has not got the authority over the people here that she had up north and also that they cannot be bullied in the same way. Her statement that she had an Agent removed up north failed to impress them at all here, for example.

One point that may have been the source of irritation which ---- expression against me by her was the fact that Jean Hill payed us a short visit during the vacation and was joyfully received in the village. Naturally her visit was purely social and if she read anything into it you yourself should know how little there would be to that.

Speaking from a personal angle though I sincerely hope that there is not going to be any trouble here and for my part I shall do all that is possible to keep the peace, and should the need be will offer you my fullest support. However she has arrived with the belligerent idea that she is here to reform the village and the Agency and lastly the school.

Again I should like to put your mind at rest by reaffirming my desire to mind my own business and smooth over a troubled village.

I have received a complaint from Mrs. Kitchenmaster, teacher of the Cape Mudge Indian Day School, to the effect that you are interfering with her and making her life very unpleasant in the village; so much so that she was considering resigning her position.

In order that there will be no further misunderstanding in any respect I must advise you that Mrs. Kitchenmaster is in full charge of the Cape Mudge Indian Day School and she takes her instructions entirely from the Indian Affairs Branch, through me, as Indian Agent; and is responsible to the Indian Affairs Branch only so far as the management and teaching of the school is concerned.

Your letter of the 18th inst. with reference to alleged interference with the teacher, Mrs. Kitchenmaster at Cape Mudge Indian Day School, by the United Church Minister, Mr. T.T. Moore, is acknowledged. I enclose a further letter dated the 18th inst. received from Mr. Todd.

It was fully expected that Mrs. Kitchenmaster's arrival at Cape Mudge as teacher would be followed by complaints, although it was thought that it would more likely involve the Indian Agent than the Missionary.

As you are aware, Mrs. Kitchenmaster was appointed as teacher at Kitsegukla Indian Day School in the Babine Agency by your letter of July 12, 1945 (file 151-15-1) on the recommendation of the United Church Board of Home Missions. She was stated to have a Saskatchewan 1st class permanent certificate, several years teaching experience and interested in dramatics and outdoor sports.

Her arrival at this school was followed by a series of complaints by her and she was finally interviewed by Inspector Coleman on January 24th, past, and he reported that he found her most vindictive and unreasonable with very little grounds for complaint, and further that she insisted that she would order supplies when she wished, without authorization, and we would pay the bill, and she would also proceed to Prince Rupert, closing the school, without reference to the Indian Agent or anyone else, and much more along the same lines. The

Inspector found later on this inspection that she had endeavoured to stir up, without success, a revolt against the Department by Miss Brierly, teacher at Glen Vowell, with a view to her making heavy demands on us. There was no evidence of dramatics or play ground activities at her school at this time. She is a very stout woman and there is little indication of any physical activity. Apparently she has done very little teaching since her marriage.

The Inspector discussed this teacher with the Reverend Bunt, Superintendent of Home Missions in Vancouver, on his return, expressing the opinion that she was quite unsuitable for our work. However, the Department advised on June 26, 1946 (file 156-6-1) that the Board of Home Missions had recommended her transfer to Cape Mudge School and this had been approved.

We have no details of the dispute between the teacher and the Missionary but are aware that relations between the Agent and the Missionary were somewhat strained some time ago, although nothing has been heard on the subject lately. Knowing Mrs. Kitchenmaster it is understandable that conflict would arise between her and the Missionary and in referring the Agent's letter of the 5th inst. to Mr. Bunt it was suggested that her statements be accepted with considerable caution.

In view of the Church's nomination of this woman and that her quarrel is with their own Missionary I am of the opinion it is a matter that should be dealt with by them. Mrs. Kitchenmaster will continue to be troublesome and I do not think we should go out of our way to retain her services. It is probably only a matter of time before Mr. Todd will be insisting on her removal.

Inasmuch as this teacher was appointed to this school on the recommendation of the United Church Board of Home Missions and the quarrel is with your Missionary, I feel that it is a matter that should be dealt with by your office. You will recall that Inspector Coleman following his return from his January and February inspection of the Babine Agency expressed the opinion that this woman should not be encouraged to remain in our service.

Dear Doctor Dorey:-

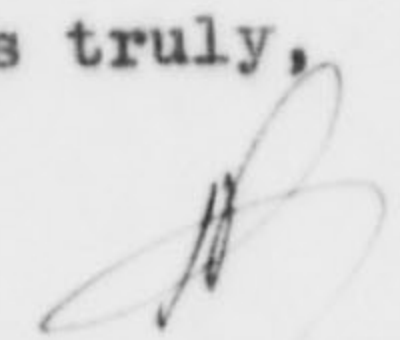

With reference to the Cape Mudge School, we have received the resignation of Mrs. B.M. Kitchenmaster.

We understand that Indian Commissioner MacKay has submitted to Rev. Mr. Bunt a complete report of the situation that has developed between Mrs. Kitchenmaster and Rev. Mr. Moore. It appears that this is a clash of temperaments.

We are quite prepared either to have Mrs. Kitchenmaster remain or have her replaced. If she finally decides to leave, we would appreciate a nomination of another teacher as this is an important school and we would not like to have it closed.

No doubt you will hear from Rev. Mr. Bunt in the near future and we would then appreciate having your decision.

the Reverend T.T. Moore, may have contributed to the
difficulties that have arisen with this teacher, she is no
doubt a difficult individual. It is very questionable
whether we should make any effort to retain her except on
a very temporary basis.

I have asked Agent Todd if she has reconsidered

Alert Bay, B. C.,
Oct. 21st, 1946.

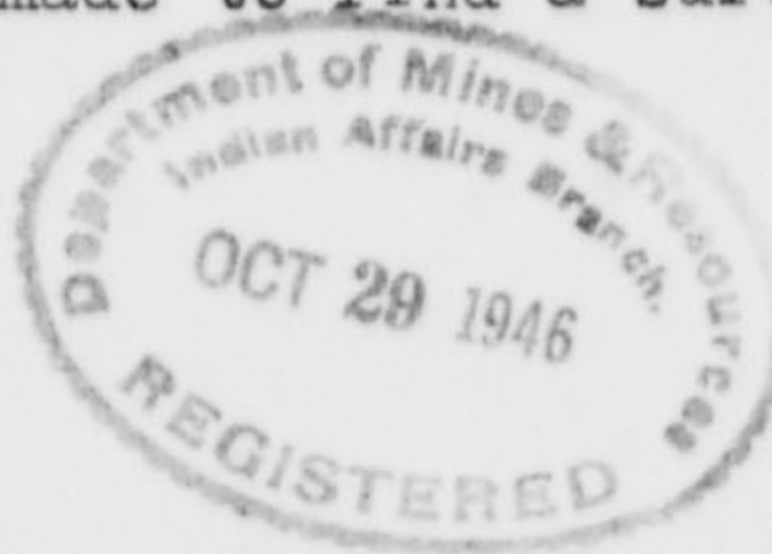

Indian Affairs Branch, Department of Mines and Resources,
Ottawa, Canada.

I have just returned from an inspection trip to the southern part of my Agency and while there inspected the Cape Mudge Indian Day School.

I interviewed Mrs. Kitchenmaster, teacher, whose resignation had previously been forwarded Ottawa, and wish to report that she discontinued teaching on October 18th. Mrs. Kitchenmaster informed me she would be leaving Cape Mudge the following day proceeding to Vancouver, but would let me have her forwarding address later. Please arrange for her to be paid up until October 18th, 1946, and no longer.

As Mrs. Kitchenmaster is no longer in the employ of the Department it would seem best the least said the better. However, in view of her conduct and treatment of the children in the school, I am advising the Department that it would not be in our best interests to ever consider employing her at any future date. We are very fortunate that she has resigned. It is regretted the school is now closed, but in my opinion it is better for the school to be closed than carried on under her supervision.

As this is one of our best villages I hope every effort will be made to find a suitable teacher at an early date.

Dear Doctor Dorey:-

With reference to our letter of Oct. 3rd regarding Mrs. B.M. Kitchenmaster, we have just been informed by the Indian Agent that she has left the Cape Mudge Reserve and consequently her name will be removed from the pay list.

Indian Agent Todd states that Cape Mudge is one of his best villages and he is extremely anxious to have another teacher appointed at the earliest possible date. We would appreciate having a nomination from you.

Yours truly,

Bernard F. Neary,

CAPE MUDGE SCHOOL

Miss Hill continues to do excellent work with this class. Her class-room is small and only by putting desks along each wall and by extending these two rows to the back wall can all the pupils be accommodated. However it is expected that the new school will be ready for use by next September.

It was suggested to Miss Hill that the present condition would be relieved by the admission of the grade 7 and 8 pupils to the Provincial School nearby and to which the grade 8 pupil will probably attend in September. Miss Hill is investigating and if this arrangement is possible will make application for their admission.

Re: Cape Mudge Indian
Day School

Early in the present academic year the Campbell River School Board was approached to secure the admission of the Grade 7 and 8 pupils from the Cape Mudge School to the Provincial School nearby. At the time the Indian school, due to its size, could not accommodate all of the 43 pupils seeking admission. In the hope that the senior pupils would be admitted to the Provincial school the Indian school continued to operate on a regular basis by excluding the senior group. Towards the end of October we were still corresponding with the Provincial authorities. At this time the Indian school teacher made an arrangement with a Mr. D.K. Gilchrist, who was visiting the United Church Missionary at that point, to take the grade 7 and 8 pupils in the school for two hours in the afternoon after the regular classes were dismissed so that they would not drop too far behind in their studies. Unfortunately she did not inform this office of her action until December because she hoped that the pupils concerned would soon be admitted to the Provincial school. After carrying on for some time on a voluntary basis Mr. Gilchrist felt that he should receive some remuneration for his services but continued to teach until December 23rd.

It is realized that the Department has no legal responsibility with regard to granting any remuneration to Mr. Gilchrist. It is felt however that the circumstances warrant the payment of one months salary at the classification of teacher, Grade 1 for his two months half-time service at the above mentioned school.

Madam: -

In reply to your letter of the 26th ultimo, I beg to say that the Department is forwarding today a cheque for \$60.00 in payment of your bonus for the September and December quarters.

Regarding your salary as teacher of the Cape Mudge School, I beg to say that this was increased to \$900 per year from September 1, 1922. Your salary was paid at this rate for the September quarter, and a cheque for \$225.00 was sent as usual to the Treasurer of the Methodist Missionary Society, Toronto.

Your obedient servant,

Dear Sir:-

577942

Replying to Mr Ferrier's
letter of Jan 4th the notice I rec'd
of my increase of salary stated
that it would commence with
April but I suppose it was a
mistake.

Mr Ferrier states in his letter
that a cheque of \$225.00 was sent
for my Sept. quarters salary to
the Missionary society. I have
rec'd both my Sept & Dec. salary
& both cheques were for \$200.00,
so that up to the present
I have not rec'd any increase.

Thanks for bonus check.

Yours sincerely

Sir,-

I have your letter of the 23rd ultimo, enclosing the December quarter return of the Cape Mudge Indian Day School. In this connection, I have to say that no return has been received for the quarter ended September 30th, last. If this school was open during any part of that quarter, the teacher should prepare a return showing the days taught, enrolment, etc., and forward same as soon as possible in order that payment of the salary due for that period can be made.

The Secretary,
The Department of Indian Affairs,
O t t a w a, Ontario.

Dear Sir:

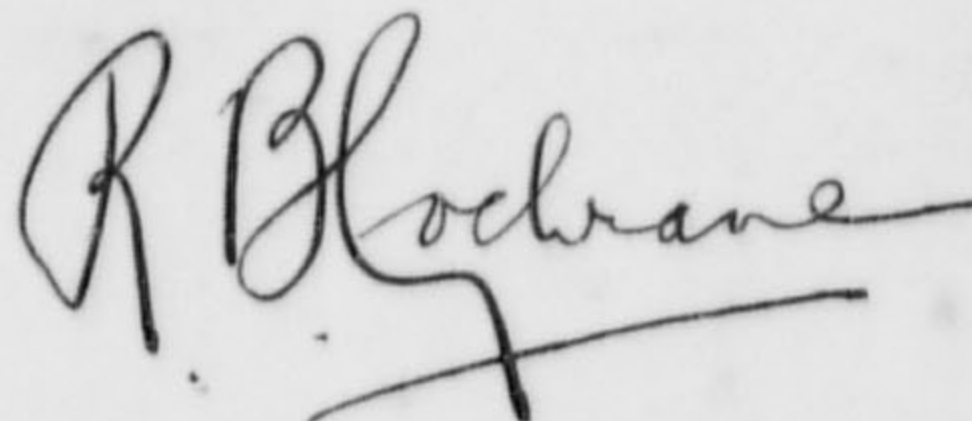

As no cheque for the teacher's salary at Cape Mudge Indian Day School had come from the Department for the September quarter, 1929, I wrote to the teacher - Mrs. Florence Howard - for an explanation, and have to-day received from her the following statement:

"There was no school during September on account of quarantine for measles. All the children who were in the village at the time were sick and the other families stayed away until danger of contagion was over. I was here as usual ready to open school, but could not do so, but, of course, was busy in other ways. I notified the Agent of this."

Perhaps the Indian Agent did not notify the Department of the reason for the absence of school returns for September. I would respectfully ask that, under the peculiar circumstances of the case, and on confirmation of the above statement by the Indian Agent, the usual cheque be forwarded for the teacher's salary for September last.

Yours faithfully,

Referring to your letter of February 6, No. 156-6-3, I wrote to Mrs. Howard, the teacher at Cape Mudge and apparently her letter to me had miscarried as it was not received, but she says now that all the children who were at Cape Mudge village during September were quarantined for measles, and the other families remained away until the danger of contagion was over, so that school could not open until October.

Dear Sir:

On February 24th, I wrote you in reference to the non-receipt of a cheque for the salary of the teacher of the Indian Day School at Cape Mudge for the September quarter 1929, explaining that the school was not open during that quarter owing to an outbreak of measles, and giving a copy of a letter from the teacher. I requested payment of her salary under the exceptional circumstances, but up to the present have had no reply. It may be that the delay is caused by having to communicate with the Indian Agent at a place as inaccessible as Cape Mudge.

I shall be glad to hear from you in due course.

Sir:

I have to inform you that, upon the recommendation of Mr. Commissioner Ditchburn and Mr. Barry, Inspector of Indian Schools for British Columbia, the Department is approving of the appointment of Miss Violet A. McKay as teacher of the Cape Mudge Indian Day School for the coming academic year. The salary allowed her will be at the rate of \$90 per teaching month, with use of the teacher's cottage. Miss McKay is to begin duties when the school re-opens after the summer holidays, on or about September first, next. I have to request that you will give her every assistance you can upon her taking up duties at this school and during the time she is carrying on work as teacher at Cape Mudge.

Dear Doctor Dorey:

I desire to refer to your letter of December 6, 1941, nominating Mr. E. G. Moyer as temporary teacher at the Cape Mudge Indian Day School. As his services will terminate on June 30, 1942, I thought it would be advisable to bring the matter to your attention now in order to give you plenty of time to secure a qualified teacher, if possible, for the year 1942-43. As you are aware, due to unavoidable circumstances this school was only open for part of the current academic year and consequently I am anxious to have it in operation for the whole of the next academic year.

Yours truly,

Dear Sir:---

I enclose herewith a letter which Rev. C. M. Tate Sec'y of the Methodist Conf. and Missionary on the Steamer Glad Tidings has asked me to sign and forward to your Department. I am not familiar with the management of Indian Affairs in B. C. but take it for granted that Mr. Tate who has had long experience has made the request in proper form. The information conveyed in the enclosed letter is correct. A teacher has been sent by the Methodist Missionary Society to Cape Mudge and will be maintained there permanently. I am informed that the Department make a grant for school supplies and also some medicine to be used among the Indians. If these grants could be made immediately we should be greatly obliged.

Should you desire further information I shall be glad to call upon you at any time you may name except during the

Dear Sir,

At the last Methodist Conference a Missionary was appointed to the Cape Mudge Indians. Mr. Galloway is now in the field, and would like to open a day school at once, as there are over forty children in the tribe. The Methodist Missionary Society has been asked to make an appropriation for the Missionary's residence, and we would like if at the same time the Department could erect a suitable School-house, to cost not more than \$600.

We met the Indians at their village last week, and they expressed a great desire to become better people, especially the young men of the tribe; and, when we consider their past history, we think this a very opportune time, to make an effort to free them from their thralldom.

We trust this matter

Sir,

I have the honor to enclose copies of letters from the Reverend J. H. White President of the Methodist Conference of British Columbia making application for a grant of \$600.00 to erect a school house near Cape Mudge for the accommodation of pupils proposed to be taught, who are of the Euclataw Tribe.

For your information

I may state that the Euclataw Indians were formerly about the worst in this Province, but having of late years mixed more with the whites they are beginning to appreciate the benefits of education and the teaching of the Missionaries.

Mr. White states that there are over forty children in the tribe and should the Department kindly consider the application there would appear to be a good field at Cape Mudge for a fervent Missionary to work upon.

I have the honor to be

Sir,

Your Ob'dt. Servant,

The Indians to be recensited are the Tucklatums, and it is reported that there are forty children in the Tribe; the number of these who are of school age is not stated, but probably at least one half of them are of school age.

The appropriation for Day Schools for British Columbia for the current year is \$5500⁰⁰, and as one-third of the appropriation for last year ^{was} ^{reimposed} ^{and} ^{at the close of the year and} ^{expended} ^{ended}, it is considered that the school were approved of there are sufficient funds available for the purpose.

It does not appear that there is any information before the Department except that which had been communicated to Mr. MacIsaac, at the Indian Office, by Mr. White, the President of the Conference,

Sir,

I have the honor to acknowledge your letter of Oct. 6th. in regard to an application of the Rev. Mr. White for a grant of \$600. to erect a school-house at Cape Mudge, and requesting me to report on the advisability of considering the grant, and also requesting the number of children of school age in the vicinity.

I have to report that a school house and teacher have long been needed at this place, and I consider that the grant of \$600.00 would be well expended in the erection of a school house. Hitherto these Indians have been without any Instruction of any kind, and a resident teacher if of the right stamp, cannot but have an influence for good.

There are about 30 children of school age who are generally residing at the village or in its vicinity.

Referring to the report, of
the 20th September last, of
Mr. Sinclair, of this Department,
respecting an application made
by the Methodist Missionary
Society, in British Columbia,
for assistance in ^{erecting a} building for
a Day School at Cape Mudge,
at the southern extremity
of Valdez Island, at the

Vowell was requested to report on the circumstances attending that application and the number of children of school-age in the Band. This, Mr Vowell has done; and his report, dated the 15th instant, will be found herewith, as well as a report, as mentioned in the Superintendent's letter, from the Indian Agent for the Locality. It will be observed from the ^{Agent's} report that the want of a school has long been felt at Cape Mudge; that there are about 30 children of school-age who are generally resident ~~upon~~ in the village or its vicinity; and that Officer expresses the opinion that a grant of \$600 ⁰⁰ towards the erection of the school house would be money well spent. The Indian Superintendent for British Columbia recommends

the application for the erection of the building for favorable consideration.

The Superintendent General will observe on referring to Mr. Sinclair's report above referred to, that there is ample at the credit of the appropriation for Day Schools for British Columbia to meet the proposed expenditure on the building, and that if the establishment of a school at the above point is approved of there will be sufficient funds to also guarantee a salary of \$300.00 per annum to the teacher.

Upon enquiry of the accountant the undersigned learns that there has always been a considerable unexpended balance at the credit of the British Columbia Day School appropriation, the balance unexpended last year being \$2,974.64; and the Accountant

reports that there were no
exceptional circumstances
in 1891-92 cause that balance.

Inasmuch as the Qu-
luth Tribe, whose Re-
serves are situated on the
West coast of British
Columbia opposite the
northern portion of
Vancouver Island are
among the most civilized and
the best advanced of any
of the Indians in the
Dominion, it would
appear advisable to en-
courage the establishment
of schools for the in-
struction of the young
among them; as there is
no doubt that education
would tend more rapidly
to their civilization and
advancement than any
other method that could
be adapted to accomplish
the same.

The undersigned would,
therefore, respectfully sub-
mit that authority might
be given for the erection

of the proposed school-house near Cape Mudge, on the Indian Reserve at that point, at a cost not to exceed \$600 00, and that the salary of the teacher when the school is brought into operation be, so far as the contribution from this Department is concerned, at the rate of \$300 00 per annum. He would also submit that it will be unnecessary to include the above amounts in the Estimates to be submitted to Parliament, as the accountant reports that the cost of the building and the salary of the teacher can be paid from the appropriation for Day Schools in British Columbia for the current year, there being sufficient money wherewith to meet the same.

Sir,

In connection with
previous correspondence
with reference to the proposed
erection of a school house
for Indian purposes at
Cape Mudge I now
enclose herewith plan &
specifications for the proposed
building estimated to cost
about \$600⁰⁰ which you
will be good enough to
forward to Mr. J. H. Piddock
for his report as to whether
the building can be put up
at Cape Mudge for the
sum of \$600 & to state what
changes he would recommend
in order to make it possible
to erect the building for an
amount

Sir

I have the honor to acknowledge your letter of July 20th 586. I² enclosing plans and specifications of a School House to be erected on the Indian Reserve, Cape Mudge and requesting me to report whether such a building could be put up for the sum of \$600⁰⁰.

After going carefully over the specifications I am of opinion that the building can be erected for the sum of \$600⁰⁰ if the tarred felt paper is omitted, as this adds an expense of about \$25⁰⁰, and is I think unnecessary in such a mild climate. This will not include a stove and piping which though shown in the plan are not mentioned in the specifications but it will require strict economy to erect the building for this sum, as freight on the material is somewhat high.

1893

There is no special vote for the proposed building at Mudge Bay. When it was proposed to erect the building last year it was intended that the cost should be charged to the general vote of for day schools for that year, but the vote was not more than enough to carry on the ordinary expenditure, and I think the same will be the case this year. I would suggest that a supplementary ^{vote} be had to cover this expenditure.

Dear Sir:

I enclose herewith Mr. Indian Agent Todd's Requisition of the 20th instant for the re-construction of a fence at Cape Mudge Day School, at a cost of \$67.15.

In this connection I would advise that this small Indian Village is, to the writer's knowledge, the most advanced and cleanest that I have had the privilege of inspecting.

Indian houses are fully equipped with most modern bathrooms; kitchens replete with built-in cabinets and fixtures made by the Indians, and the other rooms in the house are being modestly but well furnished and clean. The gardens are fenced and well cared for. In consequence, any dilapidated condition of the Departmental buildings on the Reserve would make rather poor comparison and, under these circumstances, I would recommend approval of the application if funds could be provided.

Yours faithfully,

:M.

Re: Repairs, Cape Mudge Day School

I have for acknowledgment your letter of the 11th instant and also letter received by you from Indian Agent Todd sent forward therewith.

In view of Mr. Todd's recommendation, you are authorized to undertake the redecoration of the interior of this school. It is noted that the cost is not likely to exceed \$50.00. Again I must express regret that this work was not undertaken during the actual vacation period.

Alert Bay, B. C.,

Indian Commissioner for B. C., Department of Mines & Resources,
Vancouver, B. C.

On my last inspection of the Cape Mudge Indian Day School I felt the interior should be redecorated, and I enclose you, herewith, two copies of tender received from Robert Wilson, husband of Mrs. Wilson, our present teacher there, who has agreed to supply the material and do the work for the sum of \$50.00.

In my 1943-44 estimates a request was made for the interior decorating of the school, and the amount of \$50.00 was set, which was to cover material and labor.

As it is almost impossible to get help these days, I would recommend that Mr. Wilson be asked to do this work, and would appreciate it if you would kindly advise me at your earliest possible date if the department approves, as I am anxious to get the work done before the school opens in the fall. *Sept 17 1943*

Alert Bay, B. C.,
Sept. 8, 1943.

Indian Commissioner for B. C., Department of Mines
and Resources, Vancouver, B. C.

This is to acknowledge receipt of your circular
letter 215-6571 dated, September 3rd, 1943.

It would appear the department is not aware of
the difficulties experienced in obtaining help on the
coast, and in order that you will understand what we
are up against in this respect, I wish to give you the
following information.

During the past summer holidays it was my intention
to redecorate the following schools: Cape Mudge, Campbell
River and Alert Bay, and money was requested in our estimates
for this purpose. Realizing how difficult it was going
to be to obtain labor for this purpose and also supplies
and materials, I started early in April to try and find
labor that would do this decorating with the result that
up until the end of July I had been unsuccessful. I
finally appealed to the Cape Mudge school teacher's
husband and as a last resort he agreed to do it.

It is not a question, insofar as this office is
concerned, of leaving matters over, but, rather, our
inability to get help. There is no use in ordering material
until such times as we know the labor can be obtained.

It is my intention to try and have the Campbell
River and Alert Bay schools decorated during the Christmas
holidays, as both schools require it, and at that time I
may be able to obtain the services of an Indian who is
temporarily home from the fishing grounds.

Ottawa, 4th July, 1946

Dear Sir,-

Following our conversation of this morning when you assured me that we would be able to have a new school built in the Cape Mudge Reserve for 1947, apparently we are quite a way down on the list for new schools to be built.

As you are aware, the present school on our reservation is in a very delapidated condition and it should be remedied immediately.

However, I would like some assurance in writing from your department that the new school on the reservation will be built for 1947 so that I may assure my people of that fact

Yours very truly,

Mr. D. W. Assu, of Steveston, B.C., visited and wrote to this office in connection with the dilapidated condition of the above school.

In your letter 6-11-1 of 11 February, 1946, you drew our attention to the condition of this school and recommended the building of a new school with teacher's residence on this reserve.

We will include the construction of a one-room day school and teacher's residence at Cape Mudge in our 1947-48 estimates, but naturally we cannot guarantee that such an appropriation will be passed.

Would you kindly draw these facts to Mr. Assu's attention.

With reference to Kwawkewlth Agency voucher No. 259, attached, covering supply of an oil heater for use in the Cape Mudge Indian Day School, I authorized this purchase on the basis of verbal representations made by Mr. Todd to the effect that the heater previously used in the school was inadequate and worn out to the extent that it was a potential fire hazard.

The supply of this equipment was necessary and the account is recommended for payment.

Mr. Indian Agent Todd has recommended replacement of the present coal and wood range at the Cape Mudge Indian school teacherage with an oil burning range which is immediately available at a cost of approximately \$145.00.

Mr. Todd states that the present range is over fifteen years old and that coal and wood are extremely difficult to obtain. Under the circumstances I would recommend that authority be granted for the purchase of an oil burning range.
